International Conference on Mathematical and Statistical Sciences (ICMSS-1)

The 1st International Conference on Mathematical and Statistical Sciences (ICMSS-1) is a two-day Hybrid (Blended) international conference organised by the Department: Mathematics, Statistics and Actuarial Science. The aim is to physically and virtually bring together researchers, scientists and educators in Mathematical and Statistical Sciences from around the world to share their research contributions and ongoing projects from diverse applications of Mathematical and Statistical Sciences.

Thematic Areas: Applied Statistics

- Statistical Modelling
- Sample Surveys
- Queuing Models and Applications
- Data Science
- Demography
- Actuarial Science
- Spatial Statistics
- Reliability Modelling
- Other Applied Statistics Areas

Multi-Disciplinary Research

- Mathematical Modelling in Engineering
- Artificial Intelligence
- Cybersecurity Modelling
- Environmental hazards Mapping
- Financial Mathematics
- Mathematics Education Research
- Other Multidisciplinary Research related to Mathematics and Statistics

Applied Mathematics

- Optimisation and Optimal Control
- Dynamical Systems
- Operations Research Applications
- Wavelet Applications
- Neural Networks Modelling
- Flow and Wave Problems
- Other Applied Mathematics Areas
