

Open Virtual Desktop (OVD)

1. Open your preferred browser (Google Chrome, Mozilla FireFox).
2. Enter: <http://ovd.staff.nust.na/ovd/>

Note: The OVD is only accessible once a NUST Virtual Private Network (VPN) has been created or set up. A VPN allows a secure connection from devices (PC or laptop) on a 'home/external' network to the NUST network over the internet.

3. Enter your login credentials: e-mail address (your NUST e-mail username - e.g. phergott@staff.nust.na OR simply phergott).
4. Enter your Password and Click on '**Connect**'.

5. Please wait while your computer loads your profile.

6. When the 'Namibia University of Science and Technology' Welcome page opens, click **OK**.

7. You will now have access to your computer desktop's environment (e.g. wallpaper, folders, ITS production back-office etc.).

Note: The number of OVD licenses are limited, so please use only when needed and logout when you are done with your work.
