## Outstanding Student Debt Relief: 2023 First Semester Registration

The University Management has agreed to grant the following relief to students with regards to the current registration process:

1. All senior students who have settled their previous year's debt may register without a deposit.
2. Students with outstanding balances of N\$15 000 or more are encouraged to reduce this to N\$12,500 or less to register. Thus, the system will allow registration if your current balance is N\$12,500 and less.
3. New students and first-time NSFAP potential awardees with acknowledgement letters can register after paying a deposit of N\$2 500.
4. Students with special circumstances will have to consult the Director of Student Services for consideration.

By signing and completing their registration, these students agree to the terms and conditions as stated under the Registration Rules and Procedures.
