

## Public Engagement

### Topic: Promoting Cleaner Fuels and Efficient Vehicles in Namibia

The Namibia Energy Institute (NEI) hereby invites the public to a national engagement to discuss and present findings on vehicle fuel emissions in Namibia and to seek input to policy proposals in an effort to mitigate carbon emissions. The Ministry of Mines and Energy (MME) and the United Nations (UN) Environment have partnered to implement the 'Vehicle Fuel Efficiency in Namibia' programme resulting in the Sustainable Low Emissions Transport Project.

#### About the Speaker

**Mr Kondjeni Ntinda** is the appointed Project Lead/Technical Expert for the Namibia Fuel Efficiency Programme. He is also the Projects Officer heading the Centre for Oil and Gas within the Namibia Energy Institute at the Namibia University of Science and Technology.

Ntinda is the founder and president of the Namibia Association of Energy Economics, an association committed to promoting energy economics as an advanced discipline to achieve best policies and practices in the utilisation of energy sources in Namibia. He further serves as the chairman of the Environmental Economics Network of Namibia.
