

IndabaX Namibia 2021

2021

The IndabaX works towards the goal of Africans being not only observers and receivers of the ongoing advances in AI, but active shapers and owners of these technological advances. The event will include lectures, research and industry talks, as well as a Hackathon.

The event is hosted by the NUST's Faculty of Computing and Informatics (FCI) and sponsored by Deep Learning Indaba Organisation.

Date: 27-29 October 2021

Venue: Online
(link to be shared upon registration)
