# NEW Programme Alert! 2025

## Doctor of Philosophy in Applied Linguistics [NQF level 10]

The PhD in Applied Linguistics by research at the Namibia University of Science and Technology (NUST) is designed to equip students with advanced knowledge in order to investigate, design, and conduct independent research of applied nature, in any area of Applied Linguistics.

PhD candidates will be able to develop and apply advanced research methods and techniques and deal with a sophisticated problem connected with the topic of interest. In context, students will be exposed to specific advanced language research methodologies, procedures, theories, and principles.

### Duration and Structure

- Full-time (three years) and part-time delivery modes of study through flexible/hybrid delivery systems.
- The duration of studies shall be fulfilled as contained in the 2024 NUST Yearbook.

**Applications due date:**  
Friday, 17 January 2025
