Welcome

The Institution was established in 1994 through an Act of Parliament and is situated in the heart of the City of Windhoek, Namibia. Since then, the University has grown to become a top performing higher education institution.

NUST currently has over 15,000 students studying on a full-time, part-time and distance education basis. The university consists of four Faculties, namely, Computing and Informatics; Commerce, Human Sciences and Education; Engineering and the Built Environment; Health, Natural Resources and Applied Sciences. Additionally, the institution established the Harold Pupkewitz - Graduate School of Business (HP-GSB) to provide world-class business education that meets Namibia, SADC and Africa's socio-economic development needs.

The University endeavours to meet international standards through its values of excellence, institutional autonomy and academic freedom, collegiality, accountability and sustainability, and diversity. In today's fast-paced world, where technology is constantly evolving, we have been granted an opportunity to revitalise our higher education landscape for the post-COVID generation. There

is no doubt that futuristic trends emerged, and that the COVID-19 pandemic accelerated our digital transformation agenda. We are thus, proud to have successfully integrated a fully operational online mode of teaching, learning and assessment, which further expanded access and convenience for the student community.

Our campus is equipped with wireless Internet connection hot-spots, enabling students to use their own devices to access the Student Kiosk, Webmail and online lessons to optimise their studies and research activities on site.

To harness a culture towards an engaging ecosystem, all our programmes incorporate an element of internship or work integrated learning to develop our students' competencies on a local and international level, through collaborative projects such as the B360 Education Partnerships.

Finally, our qualifications are globally recognised, and are constantly subjected to a rigorous development, assessment, and endorsement processes, inclusive of benchmarking and quality assurance audits.

Applying to NUST

Application Due Dates:

Ordinary Applications:

Friday, 06 October 2023

Mature Age Entry:

Thursday, 31 August 2023 (no late applications will be considered)

Late Applications:

09 to 20 October 2023

Non-Refundable Application Fees:

- Undergraduate Studies: N\$ 240 (Manual or Online)
- Postgraduate Studies: N\$ 360
- Late Applications: N\$ 690

Payment Options:

Please DO NOT send cash in the post. We also DO NOT accept postal orders. Preferably make a deposit through the bank.

Banking Details:

Namibia University of Science and Technology, First National Bank, Account Number: 55500126319, Branch Code: Corporate Branch, 281872, International Swift Code: FIRNNANX. Original deposit slips MUST accompany the application form (keep a copy of the deposit slip for your own record).

Cash Payments:

Cash payments can be made at the Student Administrative Service Centre, 13 Jackson Kaujeua Street, Windhoek, or at any NUST Regional Centre.

Admission Point Scale

NUST uses the Admission Point Scale to facilitate admission based on your school-leaving results. Your school-leaving subject symbols or percentages are converted into points, then added up to determine if you have obtained the minimum number of points required to be considered for entry into your preferred programme of study.

Note:

1. English is always counted in the calculation of points.
2. Mathematical Literacy (NSC) is not accepted for programmes requiring Mathematics as an admission requirement.

The National Qualifications Framework (NQF)

The National Qualifications Framework is a register of all relevant and legal qualifications in Namibia kept by the Namibia Qualifications Authority. The NQF is made up of ten Levels, each representing a different Level of complexity in learning and/or the application of knowledge and skills learnt.

NQF Level	Type of Qualification at NUST
10	Doctorate
9	Master
8	Honours, Professional Bachelor Degree, Postgraduate Diploma, Postgraduate Certificate
7	Bachelor Degree
6	Diploma
5	Certificate

Types of Applications and Admission Requirements

Type	Who should apply?	Minimum Admission Requirements
Undergraduate Studies		
General Admission Requirements	Applicants in possession with a final year school-leaving certificate or current Grade 11 (Namibia only) or Grade 12 learners.	25 points in 5 subjects including a minimum E-Symbol in English on NSSC Ordinary Level.
Mature Age Entry Scheme	Applicants who do not meet the General Admission Requirements, but who have passed at least Grade 10/ Standard 8.	Applicants must: <ul style="list-style-type: none"> - have reached the age of 23 years on 1 January of the academic year for which admission is sought; - have at least a Junior Secondary Certificate (Standard 8/Grade 10); - show evidence that they have worked for at least three years and; - pass the NUST Numeracy and English Language Proficiency tests which will take place from 21 to 23 September 2023.
Advanced Standing		
Advanced Standing	Applicants with NQF Credits or qualifications from other accredited institutions of higher learning who would like to enter higher study levels within a programme.	Admission with advanced standing shall be considered under the following conditions: <ul style="list-style-type: none"> - NQF Credits must make up at least the equivalent of one study period (one semester or one year) of the programme for which advanced standing is applied for; and - NQF Credits must not be older than eight years and must be presented in an official original academic transcript from the institution concerned.
Postgraduate Studies		
Honours Degree		At least a Bachelor's degree at NQF Level 7 or equivalent.
Master Degree		At least a Bachelor Honours degree at NQF Level 8 or equivalent.
Doctoral Degree		At least a Master's Degree at NQF Level 9 or equivalent.
Notes: <ol style="list-style-type: none"> 1. Individual programmes may have additional admission requirements. 2. For additional admission requirements please consult the relevant NUST Yearbook. 		

Rules for Applying

General Rules:

- Before you apply to NUST please familiarise yourself with the programmes/qualifications on offer as well as the admission requirements.
- Submit only ONE application. Make sure that you complete the entire application form.
- Incomplete applications will not be considered for admission.
- All documents as stipulated on page 9 of this Guide must be enclosed with your application.
- We do not accept faxed copies of application forms or supporting documents.
- You will need a **valid email** address since all admission correspondence to you will be conducted via email.
- After registration, you will be assigned with a free NUST email address, where all your future correspondence will be sent to. No private emails will be used for correspondence after registration.

Applying for Undergraduate Studies:

You are welcome to apply online. See page 8 for further details.

Note: Applicants who apply via the Mature Age Entry Scheme, Advanced Standing or Resumption of Studies, must download the application form from our website at www.nust.na, complete it and submit physically or email to admissions@nust.na.

Applications for Postgraduate Studies:

Applicants for postgraduate studies can download the application form from our website at www.nust.na, complete it and submit it physically or email to admissions@nust.na.

Enquiries

Student Information Officer

E: admissions@nust.na

Online Applications

Applying online

Log on to the NUST website at www.nust.na and click on the “Admissions” link and then on “Prospective Students”.

Note: Online applications are only available for undergraduate studies. If you apply for special entry e.g. Advanced Standing or Mature age or postgraduate studies, kindly download the application form from our website.

Part A: Biographical Information:

Complete your Biographical Information and click on “save”. The system will automatically take you to the next step, “create your pin number”.

Note: You must provide a valid email address since all correspondence will be via email.

Part B: Create your Pin Number:

A reference number will be created for you. Continue to create your pin number and click on “create pin”. The system will automatically take you to the “Student Kiosk”.

Note: The pin must be 5 numeric digits. It should not start with a zero [0] and must not contain any double digits. Remember your reference number and pin.

Part C: Complete your application: Click on “Application”.

Step 1: Confirm that your biographical information is correct. Also ensure that your email address is correct, by clicking on “Personal contact detail”.

Step 2: Pay your application fee of N\$240 using your debit/credit card. A waiting period of 20 minutes is required before the payment will reflect on your account and you can continue with your application.

Step 3: Acceptance of the Declaration and Undertaking is mandatory and serves as your electronic signature. The indicator will be stored on your student file and can be used as a legal agreement in a dispute/disciplinary matter.

Step 4: NUST strives to create opportunities for people with disabilities. In many instances we have not yet eliminated all the barriers, it would therefore be helpful for us to know in advance whether you have any special needs so that we can work together to achieve equal access to the programme. If you have any disability, kindly complete this step – if not, you may skip it.

Step 5: Capture your Grade 11/12 results. Current Namibian learners must use their latest school results to apply.

Step 6: If you have any post Grade 12 qualifications, you can complete this step – if not, you may skip it.

Step 7: Choose the qualification which you choose to study. E.g. If you would like to study accounting, type “accounting” in the field and choose the qualification you wish to study.

Final Step: Your application will be incomplete without the necessary documents being uploaded. Your documents should be scanned and converted in the .pdf format.

Our Admissions Officers are on standby to assist you. Should you have any problems regarding the online system, you can send us an email to admissions@nust.na or call us at +264 61 207 9999.

Certified copies of documents that must accompany your application:

- Identity Document/Birth Certificate (Namibian citizens); Passport (non-Namibian citizens);
- Proof of payment (e.g. original bank deposit slip) or receipt for applying manually;
- Latest school results e.g. Namibian Senior Secondary Certificate (NSSC);
- Current Grade 11 and 12 learners must apply with their mid-term results;
- Declaration and undertaking - If you are under the age of 18, the form must be co-signed by your legal guardian or parent.

In addition to the above-mentioned documents, the following applicants must also submit the indicated documents:

- **Mature Age Entry Scheme Applicants:** Reference letter from employer indicating your years of experience as well as the job title.
- **Postgraduate Applicants:** Certified copies of qualification(s) obtained after Grade 12 (e.g. Diploma, Degree, etc.) and Original Academic Record/Transcripts. For Masters' and Doctoral Programmes applicants must also attach a proposal motivational letter and CV with at least three referees.
- **Advanced Standing Applicants:** Original Academic Record transcripts and complete syllabi.
- **Foreign Applicants:** Latest qualification in original language and a translation if the qualification is in a language other than English, NQA Evaluation if the qualification is obtained outside the SADC Region.

Selections for Undergraduate Studies:

Applicants, who applied and were accepted for undergraduate studies, will receive the following offers during November/December 2023:

Final Offers:

- Applicants who finished Grade 11 or 12 before or during the 2022 school year.
- Applicants who applied through Advanced Standing and the Mature Age Entry Scheme.
- Ex-NUST students who applied to resume their studies.
- International applicants who applied with their final school results.

Provisional Offers:

- Applicants who are currently in Grade 11 or 12 and who applied with their mid-year school results.
- Applicants who are currently upgrading their Grade 11 or 12 results.

Applicants, who received provisional offers, will receive final offers during January 2024, at least two weeks, after the release of the final results by the Ministry of Education. This will include applicants who received rejection letters based on their admission point scores, and who improved their final results.

There is no need for applicants to visit the campus unless he/she received an invitation letter for final selections.

Registration

Registration of students who have been selected and who have applied during the application period in 2023 takes place during January 2024. Registration dates will be communicated to all applicants via email, by November/December 2023.

INTERNATIONAL STUDENTS

STEP 1: APPLICATION TO THE UNIVERSITY

Follow steps Part A, Part B and C for the online application on www.nust.applications.

Submit the completed online application form with the required certified documents are in English.

Applicants' qualifications should be evaluated by Namibia Qualifications Authority (NQA). It is the applicant responsibility to ensure that the qualifications are evaluated.

STEP 2: PRE-ARRIVAL PLANNING

According to the Namibian Immigration Control Act, Act No. 7 of 1993, every international student is strictly required to be in possession of a valid Student Permit for the purpose of attending education at any training or educational institution in Namibia.

First year applicants who do not have a Namibian Embassy in their countries should ensure that all the necessary documents required are in place before travelling to Namibia.

Application forms and other permit requirements can be obtained from the Ministry of Home Affairs and Immigration website at <https://mha.gov.na/web/mhai/permits-immigration-control-act>

Student Permit Requirement First-Time

- Copy of a Valid Passport
- Passport Photos
- Medical Certificate
- Radiological Report
- Deed of Surety
- Police Clearance Certificate
- Proof of Admission
- Written Undertaking with Valid Contact Details of the Sponsor
- Motivation Letter
- Medical Aid
- Lease Agreement and Proof of Residency
- Progress report from the previous school/institution

Registration will take place during January 2024.

You need to have a valid passport, original documents for your high school certificate, admission letter and registration fees for you to be able to register.

After registration, you are issued with a proof of registration (which you use to apply for your study permit) and a student card.

Tuition Fees

For information regarding fees and subjects kindly see our Fees Booklet at www.nust.na.

Tuition fees DO NOT include other expenses such as books (except study guides for distance education students), stationery, accommodation, transport, etc.

Enquiries regarding payment of application fees:

Student Debtors

T: +264 61 207 2888

E: studentdebtors@nust.na

Hostel Accommodation

Three hostels on campus provide a bed capacity of 417 to both male and female full-time students. Due to limited spaces available, preference is given to students residing outside the boundaries of the City of Windhoek. The Kitchen Services provide students with a wide range of nutritional meals served at breakfast, lunch and dinner. All residence students will be levied 50% of the meal fees per semester which is payable whether meals are taken or not. Application forms for Hostel Accommodation can be found on the NUST Website at www.nust.na. Registration for residence is done per semester.

Other Student Activities

- **Sport and Culture:** Sports provide a platform for students to participate in a variety of sport codes while cultural activities encourage cultural heritage including a week-long cultural festival, crowning of "Mr and Miss NUST" and other activities.
- **Job-placement Services:** Provide students with career guidance counselling e.g. Workshops in CV writing and job-hunting skills, career guidance programmes e.g. annual Career Fair, graduate recruitment programme and job placement of students.
- **Health Services Clinic:** Provides primary health care, focusing on the prevention of illness and promotes a healthy lifestyle and general hygiene.
- **Social Welfare Services:** Focuses on social problems and promotes mental health for students. Various workshops take place throughout the year on topics ranging from relationships, sexual harassment, stress management, alcohol and substance abuse, etc.
- **Student Counselling and HIV/AIDS Coordination Services:** Provides academic and HIV pre- and post-test counselling. Various events take place throughout the year, e.g. Leadership workshops, HIV/AIDS Awareness Campaign, HIV/AIDS Peer Counselling Training, etc.

Other Services Offered:

- **E-Learning:** E-Learning is a method of learning utilising electronic technologies to access educational curricula outside of a traditional classroom. This means you can study anywhere and at any time, perfect for the busy student.
- **Free web-based email and student web service:** Allows students access to student records, financial statements, examination time-tables, etc.
- **Different Societies/Clubs:** NUST Debating Society, Religious Societies, Women in Engineering Society, Aids Awareness Club, etc.

Welcome to Eenhana Satellite Campus

Welcome to the Namibia University of Science and Technology Eenhana Satellite Campus in the Ohangwena region. It is your right and a best decision to study at Eenhana Satellite campus as we highly recognise the importance of transforming lives; engagement and research; embracing technological innovation, and promoting a culture of productivity through community engagement projects and industry benchmarked experiences. The satellite campus is well resourced with modern facilities for teaching and learning, and projects itself to grow in both programme offerings and research output for sustainable development.

The Satellite Campus offers certificates to postgraduate qualifications from across all four faculties of the University.

The Campus will also be offering quality industry relevant short courses for skills development; continuing professional development and filling gaps in your professional knowledge to help you navigate through the knowledge economy.

The staff members of the Satellite Campus contribute to the development of the community through providing workshops on new skills needed to meet the challenges and community engagement activities. The student community engages in sports and cultural activities to develop a great sense of identity.

Dr Lukas Shikulo

Message from the Executive Dean

The Faculty of Computing and Informatics (FCI) is a leader in embracing technological changes and ensuring the students are trained in current trends for the smooth integration into their job roles. The period of the 2021 to 2025 presents both challenges and opportunities for the growth, innovation and rethinking of our processes. We believe it will be a season of integrating key trends in our curriculum, in response to global challenges in the context of the Fourth Industrial Revolution (4IR) and beyond to address the National Development Goals (NDGs) as the well United Nations Sustainable Development Goals (UNSDGs). Technology is the heart of digital transformation in all spheres of our lives, we believe education driven by robust current technology is the best enabling tool for teaching, learning, research, innovation, collaboration and community engagement.

FCI envisions to be the leading enabler of societal digital transformation. This will transform Namibia into a country where Information Systems, Information and Communications Technologies, and responsible Journalism are universally and effectively used in public and private organisations, and within communities by the general populace. This will lead to the improvement of productivity, the success of commercial and other enterprises, and the advancement of quality of life,

and the socio-economic development of Namibia. Our vision will be achieved through educating innovative leaders and advancing computing and media knowledge through excellent education, research and community engagement services to benefit the society.

Our focus areas are Computing which includes Computer Science, Communication Networks, Systems Administration, Artificial Intelligence, Cyber Security, Information Security, Digital Forensics, Network Security, Systems Security, Software Security, Software Engineering, Human-Computer Interaction, Data Science and Software Development; and Informatics which includes Business, Health, Web Informatics and Multimedia; Journalism and Multimedia Technologies., FCI offers a complete set of degree programmes comprising of Bachelors, Honours, Masters and Doctorates.

The faculty also houses the India-Namibia Centre of Excellence in Information Technology (INCEIT) in partnership with the government of India through its Centre for Development of Advanced Computing (C-DAC). INCEIT offers students with the following Certificates on NQF Level 7 in the computing field: Certificate in Ethical Hacking and Information Security, Certificate in Advanced Web Technologies and Certificate in Big Data Technologies, Certificate in Python Programming (Beginners level) and Certificate in Python Programming (Advanced level). More information about the programmes' intake, dates, and admission requirements can be found on our website at <http://fci.nust.na>.

UNDERGRADUATE PROGRAMMES

Minimum Admission Requirement(s):

A minimum of 25 points in five (5) subjects on the NUST Admission Point Scale including an E-symbol in English on NSSC Ordinary Level.

Mode of Studies:

Full-time or Part- time (Main Campus – Windhoek only)

Duration:

3 Years

Programme	Programme Code	Admission Requirement(s)	Illustration of Career Possibilities
SCHOOL OF COMPUTING			
Bachelor of Computer Science	07BCMS	D-symbol in Mathematics on NSSCO or an e-symbol on NSSCAS.	Software Engineer, Systems Administrator, Communication Networks Specialist, Computer Network Architect.
Bachelor of Computer Science in Cyber Security	07BCCY	C-symbol in Mathematics on NSSCO or an e-symbol on NSSCAS.	Security Software Developer, Cyber Security Consultant, Cryptanalyst, Cyber Security Analyst or Cyber Security Administrator.
SCHOOL OF INFORMATICS			
Bachelor of Informatics	07BAIT	D-symbol in Mathematics on NSSCO or an e-symbol on NSSCAS	Informatics Specialist, analyst Programmer, Systems Analyst, Information Architect, Web and Data Analyst.
Bachelor of Journalism and Media Technology	07BJOU	D-symbol or better in English on NSCO. A pass in a special English test as well as a journalism related general knowledge test. Entry via the mature age entry scheme is accepted with a minimum pass rate of 50% in the English Proficiency and Mathematics tests.	Journalist, Public Relations Practitioner, Communication Specialist, Media Designer, Photographer/Videographer, Entrepreneur in the media industry.

*Mode of Studies:

FM - Full Time, PM - Part Time, DI - Distance

Message from the Executive Dean

A career choice may well be one of the most crucial decisions every person has to make. Every young person, particularly those coming from high school, find themselves in this somewhat unfamiliar decision-making space, all too often presenting itself as a life-defining dilemma. It is often a series of closed doors beyond which one does not know what awaits, and yet one is compelled to take a chance to open at least one of them to discover and trudge a potentially long and arduous journey. Indeed, a career decision is a difficult decision. I am heartened by your interest in taking the next bold step in your educational and professional journey at our faculty. I am pleased to introduce you to an exciting career gateway, offered by the Faculty of Engineering and the Built Environment at the Namibia University of Science and Technology.

Ours is a unique faculty that attracts Namibia and the world's sharpest minds to come as they are and leave the university as the world's most promising career professionals. Our state-of-the-art facilities, internationally benchmarked curriculum, and internationally acclaimed staff members, offer the ultimate educational experience.

We pledge to shape every student into an industry-ready graduate in their respective field of specialisation,

ripe for a technologically advanced world. With an emphasis on interdisciplinary, independent learning ability, innovation, and design, our professional degree programmes equip our students to confidently grab their space in an ever-evolving industry and inscribe an indelible contribution to the engineering and the built environment professions. Our rich alumni network that continues to challenge and dominate the frontiers of industry and commerce is testimony to this assertion. More importantly, our degree programmes recognise the reality that the modern professionals need to be multi-skilled, thus earning our graduates the ability to dovetail into a diverse workplace and maneuver the complexities of modern-day society.

The faculty is currently made up of four departments, namely:

- Department of Civil, Mining and Process Engineering;
- Department of Mechanical, Industrial and Electrical Engineering;
- Department of Land and Spatial Sciences; and
- Department of Architecture, Planning and Construction.

We pride ourselves as a faculty that engages and encourages our students to play a more active role in the leadership and educational success of the faculty. Technology has diminished the effect of geographical distances, and it is in our best interest to produce globally competitive graduates. The Fourth Industrial Revolution (4IR) and beyond is a reality that we have embraced as a unique opportunity to be welcomed, not a problem to be confronted. We will expand our curricula to incorporate social and emotional learning (SEL) to enhance student intrapersonal, interpersonal, and cognitive competence. In essence, we offer a perfect platform for students to thrive.

Our InSTEM (Introduction to Science, Technology, Engineering, and Mathematics) programme serves as a bridging programme into our professional undergraduate degree programmes, providing an opportunity to students who do not meet our entry criteria to upgrade their STEM competencies to a sufficient level in order to be able to enter our professional degree programmes.

As a faculty, we aim to establish ourselves as the partner of choice for industry, community, government, and academia. We remain mindful of the guiding principle that for any country to develop technologically and economically, there must be a strong link between its industry, government and academic institutions, and society. We continue to make efforts to capacitate our teaching staff with the requisite skills to deliver learning content through multiple teaching modes effectively. Our commitment, remains to elevate our teaching and research space, allowing for the addition of dry labs and the use of 3D printers across all departments in the faculty.

Once again, I wish you well as you navigate the difficult path of making a career choice. I hope to interact with you when you form a part of our modern Campus and take up the most productive, yet exciting journey of your life.

**UNDERGRADUATE PROGRAMMES****SCHOOL OF ENGINEERING****Minimum Admission Requirements**

Bridging Programme A minimum of 22 points in five (5) subjects at grade 11/NSSC Ordinary level with a minimum D-symbol in Mathematics and a minimum D-symbol in any two of three subjects: Physical Science, Chemistry and Biology. Additionally a minimum of E-symbol is required in English language.

Bachelor of Technology Degrees (B.TECH): A minimum of 30 points in five (5) subjects that must include Mathematics, Physical science and English; with a minimum of at least Grade 3 on NSSCH or A-symbol on NSSCO or D-symbol on NSSCAS in Mathematics, Physics and Chemistry or pass the InSTEM programme with a score of at least 50%.

Professional Engineering Degree (B.Eng): A minimum of 37 points in five (5) subjects that must include at least Grade 3 in Physical Science and Mathematics on NSSCH or D-symbols on NSSCAS in Chemistry, Physics and Mathematics or a pass of the InSTEM programme with a score of at least 60%.

Mode of Studies: Full-time (Main Campus – Windhoek only)

Duration: 4 Years

Programme	Programme Code	Illustration of Career Possibilities
Introduction to Science, Technology, Engineering and Mathematics (one year programme)	04STEM	Bridging programme: On completion of the bridging programme, students can enroll for the 1st year of studies in any programme of their choice in the STEM fields in all NUST faculties.
Department of Civil, Mining and Process Engineering		
Bachelor of Technology in Civil Engineering	07BECV	Engineering technologists in fields like construction, manufacturing, product design, testing, technical services and sales etc.
Bachelor of Engineering in Civil Engineering	08BCEN	Professional Engineer (structural, transportation, water and geotechnical engineering).
Bachelor of Engineering in Mining	08BMEG	Mining Engineer, Consultant, Junior Lecturer, researcher, Environmental and Safety Practitioners, Banking and Insurance Risk Managers, Project Engineer, Mine Manager.
Bachelor of Engineering in Metallurgy	08BEMT	Metallurgist, project or process engineer, project or process manager, plant or refinery manager, business improvement specialist, mine manager, entrepreneur.
Bachelor of Engineering in Chemical Engineering	08BECE	Chemical Engineer, Environmental and Safety Practitioners, Risk Managers in Financial and Investment projects, Process Engineer, Quality Control engineer, Plant or Refinery Manager.
Department of Mechanical, Industrial and Electrical Engineering		
Bachelor of Technology in Power Engineering	07BPEN	Engineering technologists in areas of power distribution to domestic to large commercial complexes.
Bachelor of Technology in Electronic Engineering	07BELL	Engineering technologists in areas of telecommunications and radio/TV broadcasting, repair of electronic equipment and systems.
Bachelor of Technology in Mechanical Engineering	07BMEC	Engineering technologists in areas of mechanical engineering like mechanical design, energy conversion, materials testing, manufacturing processes, product safety and reliability etc.
Bachelor of Engineering in Electrical Power Engineering	08BEEP	Professional Engineers in the areas of power distribution.
Bachelor of Engineering in Electronics and Telecommunication Engineering	08BEET	Professional Engineers in areas of telecommunications and radio/TV broadcasting, design or electronic equipment and systems.
Bachelor of Engineering in Mechanical Engineering	08BEME	Professional Engineers in areas of mechanical engineering regarding mechanical design, materials testing, manufacturing processes, product safety and reliability.
Bachelor of Engineering in Industrial Engineering	08BIND	Industrial Managers in private and public sectors such as manufacturing, mining, consultations, banking, healthcare, transport and agriculture.

UNDERGRADUATE PROGRAMMES

Minimum Admission Requirements:

A minimum of 25 points in five (5) subjects including an E-symbol on NSSCO in English. Additional requirements per programme are listed below. Symbols on NSSCO level are indicated in brackets.

Mode of Studies:

Full-time (Main Campus – Windhoek only)

Duration:

3 Years

Programme	Programme Code	Admission Requirement(s)	Illustration of Career Possibilities
SCHOOL OF THE BUILT ENVIRONMENT			
Department of Land and Spatial Sciences			
Diploma in Geomatics	06DGEO	Mathematics (C), Physics (D), A pass in Geography or related subject is an added advantage.	Survey technicians in environments ranging from traditional cadastral and engineering surveying to mining surveying, GIS, digital cartography, drafting, land registration, etc.
Diploma in Property Studies	06DIPS	Mathematics (B), English (B)	Property clerk/ assistant, property/estate agent, assistant property valuer, assistant property development officer, land and housing officer, assistant property maintenance officer, etc.
Bachelor of Geomatics	07BGEO	30 points in 5 subjects Mathematics (A), Physics (B), English (B)	Geomatics professional or surveyor, self-employed, or employed by a private firm, government, mine, construction or engineering firm; surveyor and/ or land administrator, performing land surveying and administration under the proposed alternative land tenure systems of Namibia's Land Reform Programmes; geo-information manager, employed by government, local/regional authority, or private firm.
Bachelor of Property Studies	08BOPS	30 points in five subjects Mathematics (B), English (B)	Property/ facilities manager, property valuer/ assessor, property development manager, housing manager, land and property officer, property investment analyst, land acquisition analyst, property/ estate agent, real estate market analyst, mortgage analyst consultant, etc.
Bachelor of Land Administration	07BLAM	Mathematics (B) English (B)	Positions regarding formal registration of deeds in the public sector, land administration agencies, paralegal assistants, land technicians, social survey clerks, land analysts communal land boards, conveyancing clerks, non-governmental organisations, and consulting firms.
Bachelor of Geoinformation Technology	07BGEI	Mathematics (C) Physics (C) English (C)	Scientist in various fields such as geosciences, geography, GIS operators and technicians, remote sensing, databases, programming and computing, etc.
Bachelor of Architecture	07BARC	<ul style="list-style-type: none"> 30 Points in five subjects including: 12 points: English and Mathematics 18 points for any of three subjects out of the following: Arts and Craft, Biology, Economics, Fine Art, Geography, Literature, Physical Science, Physics or Technical Drawings, Chemistry. No symbols lower than C will be accepted. 	Graduates have opportunities in professional architecture firms as candidate Architectural Technologist. Graduates may also decide to enter into other multi-disciplinary fields such as Landscape Architecture, Interior Design, Project Management and Urban Design.

Programme	Programme Code	Admission Requirement(s)	Illustration of Career Possibilities
Department of Architecture, Planning and Construction			
Bachelor of Quantity Surveying	07BOQS	30 points in five subjects including: 12 points for English and Mathematics 18 points in any three subjects out of the following: Chemistry, Biology, Economics, Physics, Physical Science and Technical Drawings. No symbols lower than C will be accepted.	Candidate quantity surveying technologist. Graduates may also seek employment in professional firms for construction management, commercial trading, production of construction materials and equipment or specialize as subcontractors in a building project. Furthermore, they may seek employment with local and municipal authorities and Government.
Bachelor of Town and Regional Planning	07BTAR	30 points in 5 subjects including a minimum of 12 points for English and Mathematics and 18 points in any other three subjects; using a combination of NSSCAS/ NSSCH and/ or NSSCO (no symbols lower than D will be accepted).	Graduates will be qualified to serve as Planning Officers/ Land Use Planning Officers in both the Public (Governments) and Private Sectors (Planning Consultancies), as well as NGOs (e.g. Namibia Housing Action Group, Shack Dwellers Federation, etc.), dealing with integrated sustainable human settlement development.
Bachelor of Regional and Rural Development	07BRAR	A minimum of 30 points in five using a combination of NSSCAS/ NSSCH and/ or NSSCO. No symbol lower than a D in English and Mathematics on NSSCO will be accepted.	Development promotion generalists at Regional Council level; development planners in different ministries at national level, e.g. Ministry of Lands and Resettlement, the Ministry of Regional and Local Government, Housing and Rural Development, etc.; rural development specialists for NGOs; planners in consulting and planning companies of the private sector.

POSTGRADUATE PROGRAMMES				
SCHOOL OF ENGINEERING				
Programme	Programme Code	Admission Requirement(s)	Mode	Duration (Years)
Department of Civil, Mining and Process Engineering				
Master of Engineering in Civil Engineering	09MECE	A relevant Bachelor of Civil Engineering degree or equivalent qualification at NQF Level 8.	FM/PM	2
Master of Environmental Engineering	09MEEN	A relevant Bachelor of Engineering degree or an equivalent qualification at NQF Level 8.	PM	2
Master of Integrated Water Resources Management	09MIRW	A relevant Bachelor of Engineering degree or an equivalent qualification at NQF Level 8. A candidate should have completed two or more semesters at participating universities.	PM	1
Master of Engineering in Metallurgy	09MMET	A Bachelor of Engineering degree in Metallurgy or an equivalent qualification at NQF Level 8.	FM/PM	2
Department of Mechanical, Industrial and Electrical Engineering				
Postgraduate Diploma in Space Technology	08PGDS	A Bachelor degree in Electrical, Electronic, and Mechanical Engineering or an equivalent qualification at NQF Level 7.	FM/PM	1
Postgraduate Diploma in Space and Atmospheric Science	08PGDA	A Bachelor degree with majors in Physics or Mathematics, or an equivalent qualification in Science, Technology, Engineering or Mathematics at NQF Level 7.	FM/PM	1
Master of Sustainable Energy Systems	09MSES	A Bachelor degree in Mechanical, Industrial, Electrical, Mining, Metallurgy, Agriculture, Chemical Engineering or an equivalent qualification at NQF Level 8. Additionally, professionals with proven long term track experience in the energy industry who completed a bachelor's degree in Economics, Social Sciences, Environmental Studies, or any equivalent qualification at NQF Level 8.	FM/PM	2
Master of Industrial Engineering	09MIEN	A relevant Bachelor of Engineering degree at NQF Level 8 with a research component. Applicant must be employed or self-employed.	FM/PM	2
All School of Engineering Departments				
Doctor of Philosophy in Engineering	10DRPE	A relevant Master's degree in the field of Engineering or equivalent at NQF Level 9.	FM/PM	3
School of the Built Environment				
Programme	Programme Code	Admission Requirement(s)	Mode	Duration (Years)
Department of Land and Spatial Sciences				
Bachelor of Land Administration Honours	08BHLA	A Bachelor of Land Administration or an equivalent qualification at NQF Level 7.	FM	1
Bachelor of Geoinformation Technology Honours	08HBGI	A Bachelor of Geoinformation Technology or an equivalent qualification at NQF Level 7 with a minimum average of 60% in the core courses at exit level.	FM/PM	1
Bachelor of Geomatics Honours	08GEOH	A Bachelor of Geomatics or an equivalent qualification at NQF Level 7 with an average mark of at least 60% for the following (or equivalent) courses: Engineering Mathematics 2, Surveying 4, Geodesy, and Geographic Information Systems 3.	FM	1
Department of Architecture, Planning and Construction				
Bachelor of Architecture Honours	08BARH	A Bachelor of Architecture or an equivalent qualification at NQF Level 7 with either a minimum average mark of 60% for third year courses or one year work experience.	FM	1
Bachelor of Quantity Surveying Honours	08BOQH	A Bachelor of Quantity Surveying or an equivalent qualification at NQF Level 7 with a minimum average mark of 60% for third year courses, excluding institutional courses.	FM	1

Programme	Programme Code	Admission Requirement(s)	Mode	Duration [Years]
Department of Architecture, Planning and Construction				
Bachelor of Regional and Rural Development Honours	08BRDH	A Bachelor of Regional and Rural Development or an equivalent qualification with minimum core competencies of urban and regional planning at NQF Level 7.	FM	1
Bachelor of Urban and Regional Planning Honours	08BURH	A Bachelor of Town and Regional Planning or an equivalent qualification at NQF Level 7, worth at least 360 NQF Credits.	FM	1
Master of Architecture	09MARC	A Bachelor of Architecture Honours or an equivalent qualification at NQF Level 8, worth at least 480 NQF Credits.	FM	2
Master of Landscape Architecture	09MOLA	A Bachelor of Architecture Honours or an equivalent qualification in Urban Design, Landscape Technology/ Studies, at NQF Level 8 worth at least 480 NQF Credits.	FM	2
Master of Urban Design	09MOUD	A Bachelor Honours degree in Architecture, Town and Regional Planning or Regional and Rural Development at NQF Level 8. Applicants must have at least two years practical experience as a candidate professional.	Block sessions	2
All School of the Built Environment Departments				
Master of Spatial Sciences	09MOSS	A Bachelor Honours degree at NQF Level 8 in fields related to spatial sciences.	Research	2
Doctor of Philosophy in Spatial Sciences	10DPSS	A NQF Level 9 qualification in Spatial Science related subjects. Must have conducted supervised research at master degree level.	FM/PM	3

Message from the Executive Dean

Welcome to the Faculty of Health, Natural Resources and Applied Sciences. The faculty is a very important knowledge-partner that contributes remarkably to the development of the country in various ways. The faculty is adequately equipped with state-of-the-art facilities for teaching and learning as well as for research. The faculty consists of three Schools, namely: Agriculture and Natural Resources Management, and Natural and Applied Sciences.

We offer degree programmes in Agriculture, Biological, Health, Mathematical, Natural Resources Management and Physical Sciences. Our qualifications range from undergraduate degrees through honours and masters, up to doctoral degrees in some cases.

As part of the training, our students spend some time with our industry partners where they integrate their academic learning with practical applications in the workplace. The staff members and students of the faculty also contribute to the uplifting of the community through the faculty's intensive community engagement programme.

For further information visit our website at fhnras.nust.na. We are looking forward to welcoming you to the Faculty as our new student.

**UNDERGRADUATE PROGRAMMES****Minimum Admission Requirement(s):**

A minimum of 25 points in five (5) subjects including an E-symbol in English on NSSCO. Admission via the Mature Age Entry Scheme is not accepted unless so indicated. This option is only for applicants with relevant experience in chosen fields of study.

Mode of Studies:

Full-time (Main Campus – Windhoek only)

Duration:

3 - 4 Years

Programme	Programme	Admission Requirement(s)		Illustration of Career Possibilities
	Code	NSSC Old Curriculum	NSSC New Curriculum	
SCHOOL OF AGRICULTURE AND NATURAL RESOURCE SCIENCES				
Department of Agricultural Sciences and Agribusiness				
Bachelor of Science in Agriculture	07BAGA	E-symbol in Mathematics and Biology or science related subject. Candidates can also apply via the Mature Age Entry Scheme.		Farm Managers, Community Development Coordinators, Agricultural Research Officer, etc.
Bachelor of Science in Horticulture	07BHOR	C-symbol in Biology or Science related subject and D-symbol in Mathematics. Candidates can also apply via the Mature Age Entry Scheme.		Crop production managers, Landscape managers, Agriculture extension officers, researchers etc.
Department of Natural Resources Sciences				
Bachelor of Natural Resource Management	07BNRS	D-symbol in English and Mathematics and C-symbol in Biology or Geography or Agriculture. Candidates can also apply via the Mature Age Entry Scheme		Nature Conservationists, Environmental Education Officers, Research Assistants, Tour Guides, etc.
SCHOOL OF HEALTH SCIENCES				
Department of Clinical Health Sciences				
Bachelor of Emergency Medical Care	07BOMC	12 points for Mathematics, Biology and Physical Science. No symbol should be lower than a C. Mature Age Applicants: To score 60% in English and 50% in Mathematics of NUST.	18 points for Mathematics, Biology AND EITHER Physics or Chemistry. No symbol should be lower than a B on Ordinary Level or a D on AS Level.	Registered Emergency Medical Care Technician, Advanced. Life Support Practitioners (Paramedics).
Bachelor of Medical Laboratory Sciences	08BMLS	18 points for Mathematics, Biology and Physical Science. No symbol should be lower than a C.	24 points for Mathematics, Biology, Chemistry and Physics. No symbol should be lower than a C on Ordinary Level or a D on AS Level.	Registered Medical Laboratory Scientists in clinical laboratories, food industry, water analysis etc.
Department of Preventative Health Sciences				
Bachelor of Environmental Health Science	08BOHS	15 points for Biology, Mathematics and Physical Science. No symbol should be lower than a C.	20 points for Biology, Mathematics, Physics and Chemistry. No symbol should be lower than a C on Ordinary Level or a D on AS Level.	Registered Environmental Health Practitioner, Health Inspectors etc.
Bachelor of Health Information Systems Management	07BSHM	15 points for Biology, Mathematics and Physical Science. No symbol should be lower than a D. Mature Age Applicants: To score 60% in both English and Mathematics of NUST	20 points for Biology, Mathematics, Physics and Chemistry. No symbol should be lower than a C on Ordinary Level or a D on AS Level.	Monitoring and Evaluation Officers, Health Data Managers, Disease Surveillance Officers, Health Information System Officer/ Manager.

Message from the Executive Dean

The Faculty of Commerce, Human Sciences and Education (FCHSE) contributes to scholarship through applied research and instructional development. It provides students with the background necessary to pursue advanced studies in Linguistics, Criminal Justice, Policing, Communication, Education, National and Foreign Languages, TVET, Business Administration, Human Resources, Marketing, Accounting and Finance, Economics, Entrepreneurship, Procurement, Logistics & Transport, Sport Management, Hospitality and Tourism, Business Information Administration, Governance and Public Administration and related fields.

The faculty takes pride in its diverse, collegial, and inclusive atmosphere. Its educational programmes, both at the undergraduate and graduate levels, are carefully crafted to equip students with the intellectual adaptability needed to thrive in a constantly evolving business environment. Moreover, the faculty not only supports employers by developing marketable skills in potential employees but also enhances the competitive

edge of local businesses. This is achieved through various avenues, including continuing educational courses, certifications, and consulting services offered through the Harold Pupkewitz Graduate School of Business (HPGSB) and its Executive Development Programme unit, the Namibian-German Centre for Logistics (NGCL), the Hotel School, the Namibia Graduate School of Accounting (NGSA), and the individual contributions of the faculty.

Having cultivated strong collaborative relationships with public and private sector institutions and industries, the faculty has played a significant role in building a robust and effective higher education system in Namibia. Emphasising staff professional development, scholarly productivity, and service, the faculty aims to benefit all stakeholders, including students, alumni, donors, regional businesses, and the Republic of Namibia. Additionally, the faculty actively promotes the internationalisation of higher education through a dedicated and continuous internationalisation strategy.
