Welcome

The Institution was established in 1994 through an Act of Parliament and is situated in the heart of the City of Windhoek, Namibia. Since then, the University has grown to become a top performing higher education institution.

NUST currently has over 13,000 students studying on a full-time, part-time and distance education basis. The university consists of four Faculties, namely, Computing and Informatics; Commerce, Human Sciences and Education; Engineering and Spatial Sciences; Health, Applied Sciences and Natural Resources. Additionally, the institution established the Harold Pupkewitz - Graduate School of Business (HP-GSB) to provide world-class business education that meets Namibia, SADC and Africa's socio-economic development needs.

The university endeavour to meet international standards through its values of integrity, efficiency, diversity, passion, agility, and fairness. In today's fast-paced world, where technology is constantly evolving, we have been granted an opportunity to revitalise higher education landscape for the post-COVID generation. There is no doubt that futuristic trends emerged, and that COVID-19 pandemic

has accelerated our digital transformation agenda. We are thus, proud to have successfully integrated a fully operational online mode of teaching, learning and assessment, which further expanded access and convenience for the student community.

Our campus has wireless Internet connections at most places, enabling students to use their own devices to access the Student Kiosk, Webmail and online lessons to optimise their studies and research activities on site.

To harness a culture towards an engaging ecosystem, all our programmes incorporate an element of internship or work integrated learning to develop our students' competencies on a local and international level, through collaborative projects such as the B360 Education Partnerships.

Finally, our qualifications are globally recognised, and are constantly subjected to a rigorous development, assessment, and endorsement processes, inclusive of benchmarking and quality assurance audits.

Applying to NUST

Application Due Dates:

Ordinary Applications:

Friday, 30 September 2022

Mature Age Entry:

Wednesday, 31 August 2022 (no late applications will be considered)

Late Applications:

01 to 28 October 2022

Non-Refundable Application Fees:

Manual Applications:

- Undergraduate Studies: N\$ 240
- Postgraduate Studies: N\$ 360
- Late Applications: N\$ 690

Online Application: Free

Payment Options:

Please DO NOT send cash in the post. We also DO NOT accept postal orders. Rather make a deposit through the bank.

Banking Details:

Namibia University of Science and Technology, First National Bank, Account Number: 55500126319, Branch Code: Corporate Branch, 281872, International Swift Code: FIRNNANX. Original deposit slips MUST accompany the application form (keep a copy of the deposit slip for your own record).

Cash Payments:

Cash payments can be made at the Student Administrative Service Centre, 13 Jackson Kaujeua Street, Windhoek, or at any NUST Regional Centre.

Admission Point Scale

NUST uses the Admission Point Scale to facilitate admission based on your school-leaving results. Your school-leaving subject symbols or percentages are converted into points, then added up to determine if you have obtained the minimum number of points required to be considered for entry into your preferred programme of study.

Note:

1. English is always counted in the calculation of points.
2. Mathematical Literacy (NSC) is not accepted for programmes requiring Mathematics as an admission requirement

The National Qualifications Framework (NQF)

The National Qualifications Framework is a register of all relevant and legal qualifications in Namibia kept by the Namibia Qualifications Authority. The NQF is made up of ten Levels, each representing a different Level of complexity in learning and/or the application of knowledge and skills learnt.

NQF Level	Type of Qualification at NUST
10	Doctorate
9	Master
8	Honours, Professional Bachelor Degree, Postgraduate Diploma, Postgraduate Certificate
7	Bachelor Degree
6	Diploma
5	Certificate

Types of Applications and Admission Requirements

Type	Who should apply?	Minimum Admission Requirements
Undergraduate Studies		
General Admission Requirements	Applicants in possession with a final year school-leaving certificate or current Grade 11 (Namibia only) or Grade 12 learners.	25 points in 5 subjects including a minimum E-Symbol in English on NSSC Ordinary Level.
Mature Age Entry Scheme	Applicants who do not meet the General Admission Requirements, but who have passed at least Grade 10/ Standard 8.	Applicants must: <ul style="list-style-type: none"> - have reached the age of 23 years on 1 January of the academic year for which admission is sought; - have at least a Junior Secondary Certificate (Standard 8/Grade 10); - show evidence that they have worked for at least three years and; - pass the NUST Numeracy and English Language Proficiency tests which will take place from 22 to 24 September 2022.
Advanced Standing		
Advanced Standing	Applicants with NQF Credits or qualifications from other accredited institutions of higher learning who would like to enter higher study levels within a programme.	Admission with advanced standing shall be considered under the following conditions: <ul style="list-style-type: none"> · NQF Credits must make up at least the equivalent of one study period (one semester or one year) of the programme for which advanced standing is applied for; and · NQF Credits must not be older than eight years and must be presented in an official original academic transcript from the institution concerned
Postgraduate Studies		
Honours Degree		At least a Bachelor's degree at NQF Level 7 or equivalent
Master Degree		At least a Bachelor Honours degree at NQF Level 8 or equivalent
Doctoral Degree		At least a Master's Degree at NQF Level 9 or equivalent
Notes: <ol style="list-style-type: none"> 1. Individual programmes may have additional admission requirements. 2. For additional admission requirements please consult the relevant NUST Yearbook. 		

Rules for Applying

General Rules:

- Before you apply to NUST please familiarise yourself with the programmes/qualifications on offer as well as the admission requirements.
- Submit only ONE application. Make sure that you complete the entire application form.
- Incomplete applications will not be considered for admission.
- All documents as stipulated on page 9 of this Guide must be enclosed with your application.
- We do not accept faxed copies of application forms or supporting documents.
- You will need a **valid email** address since all admission correspondence to you will be conducted via email.
- After registration, you will be assigned with a free NUST email address, where all your future correspondence will be sent to. No private emails will be used for correspondence after registration.

Applying for Undergraduate Studies:

You are welcome to apply **FOR FREE** online. See page 8 for further details.

Note: Applicants who applies via the Mature Age Entry Scheme, Advanced Standing or Resumption of Studies, must download the application form from our website at www.nust.na, complete it and submit physically or email to admissions@nust.na.

Applications for Postgraduate Studies:

Applicants for postgraduate studies can download the application form from our website at www.nust.na, complete it and submit it physically or email to admissions@nust.na.

Online Applications

How do I apply online?

Online Applications will only be accepted for undergraduate studies. Applications for special considerations like Advanced Standing, Resumption of Studies, Mature Age Entry and Postgraduate Studies must be done manually.

- Log on to the NUST Website at www.nust.na and click on the "Admissions" link.
- Click on "online application" and choose the type of application e.g. Undergraduate, Postgraduate etc.

- Read the Notes at the top of each page before you continue to the next page.
- Some fields have drop-down lists to choose from.
- **Part A and B**, should be completed by first-time applicants only.
- Should you already have a student number from NUST, please login as a "Registered User."

Our Admission Officers are on standby to assist you, should you have any problems you can send an email to admissions@nust.na or call +264 61 207 2999

Part A

Complete your Biographical Information

You must provide us with a valid email address.

Part B

Create your Pin Number

Remember your reference number and pin. The pin should not start with a zero (0) and it should not contain double digits

Part C

Complete your Application

The system will automatically take you to the STUDENT KIOSK to complete your application

COMPLETE STEPS 1 TO 7

Step 1: Ensure that your biographical information is correct. Enter your email address. All correspondence will be via email.

Step 2: The acceptance of the Declaration and Undertaking is mandatory and serves as your electronic signature. The indicator will be stored on your student file and can be used as a Legal Agreement in a dispute/disciplinary matter. This form must be printed, signed and uploaded. (If you are under the age of 18, it must also be signed by your parents or legal guardian).

Step 3: If you have any disability, kindly complete this step – if not, you may skip it.

Step 4: Capture your Grade 12 results. Your results must be converted in to symbols / grades.

Step 5: If you have post-grade 12 qualifications, you can complete this step. If not, you may skip this step.

Step 6: Choose the programme which you would like to study. First choice must be indicated by the number 1 and Second choice by the number 2. If you would like to change your programme of study you are welcome to send us an email.

Final Step: Your application will be incomplete without the necessary documents being uploaded.

Click on How to upload your documents to ensure that you have uploaded all your documents.

Please ensure that your documents are in .pdf format.

Certified copies of documents that must accompany your application:

- Identity Document/Birth Certificate (Namibian citizens); Passport (non-Namibian citizens);
- Proof of payment (e.g. original bank deposit slip) or receipt for applying manually;
- Latest school results e.g. Namibian Senior Secondary Certificate (NSSC);
- Current Grade 11 and 12 learners must apply with their mid-term 2022 results;
- Declaration and undertaking - If you are under the age of 18, the form must be co-signed by your legal guardian or parent.

In addition to the above-mentioned documents, the following applicants must also submit the indicated documents:

Mature Age Entry Scheme Applicants: Reference letter from employer. Indicating your years of experience as well as the job title.

- **Postgraduate Applicants:** Certified copies of qualification(s) obtained after Grade 12 (e.g. Diploma, Degree, etc.) and Original Academic Record/Transcripts. For Masters' and Doctoral Programmes applicants must also attach a proposal motivational letter and CV with at least three referees.
- **Advanced Standing Applicants:** Original Academic Record transcripts and complete syllabi.
- **Foreign Applicants:** Latest qualification in original language and a translation if the qualification is in a language other than English, NQA Evaluation if the qualification is obtained outside the SADC Region.

Final Selection

Final selection for a programme will take place during January to February 2023, based on the final examination results of all qualifying candidates for that programme.

All qualifying candidates will report on campus on dates as determined by the Registrar and will participate in such specific selection processes as may be determined by the Department concerned.

A qualifying candidate is a candidate who has properly submitted an application for studies, who has met the general admission requirements and who has met the specific admission requirements for a programme.

The final selection process will generally not be applicable to students who wish to study on a distance education mode, but may be so applied in exceptional cases. Notices will be given in such cases.

Registration

Registration of students who have been selected and who have applied during the application period in 2022 takes place during February 2023. The dates will be stipulated in your admission letter. You are expected to report for registration on the exact date as indicated on your admission letter otherwise you may forfeit your place.

Tuition Fees

For information regarding fees and subjects kindly see our Fees Booklet at www.nust.na.

Tuition fees DO NOT include other expenses such as books (except study guides for distance education students), stationery, accommodation, transport, etc.

Enquiries regarding payment of application fees:

Student Debtors

T: +264 61 207 2888

E: studentdebtors@nust.na

Hostel Accommodation

Three hostels on campus provide a bed capacity of 417 to both male and female full-time students. Due to limited spaces available, preference is given to students residing outside the boundaries of the City of Windhoek. The Kitchen Services provide students with a wide range of nutritional meals served at breakfast, lunch and dinner. All residence students will be levied 50% of the meal fees per semester which is payable whether meals are taken or not. Application forms for Hostel Accommodation can be found on the NUST Website at www.nust.na. Registration for residence is done per semester.

Other Student Activities

- **Sport and Culture:** Sports provides a platform for students to participate in a variety of sport codes while cultural activities encourage cultural heritage including a week-long cultural festival, crowning of "Mr and Miss NUST" and other activities.
- **Job-placement Services:** Provide students with career guidance counselling e.g. Workshops in CV writing and job-hunting skills, career guidance programmes e.g. annual Career Fair, graduate recruitment programme and job placement of students.
- **Health Services Clinic:** Provides primary health care, focuses on the prevention of illness and promotes a healthy lifestyle and general hygiene.
- **Social Welfare Services:** Focuses on social problems and promotes mental health for students. Various workshops take place throughout the year, on topics ranging from relationships, sexual harassment, stress management, alcohol and substance abuse, etc.
- **Student Counselling and HIV/AIDS Coordination Services:** Provides academic and HIV pre- and post-test counselling. Various events take place throughout the year e.g. Leadership workshops, HIV/AIDS Awareness Campaign, HIV/AIDS Peer Counselling Training etc.

Other Services Offered:

- **E-Learning:** E-Learning is a method of learning utilising electronic technologies to access educational curricula outside of a traditional classroom. This means you can study anywhere and at any time, which is a real plus for those students who have a busy schedule.
- **Free web-based email and student web service:** Allows students access to student records, financial statements, examination time-tables etc.
- **Different Societies/Clubs:** NUST Debating Society, Religious Societies, Women in Engineering Society, Aids Awareness Club etc

Centre for Open and Lifelong Learning (COLL)

Quality distance education that works for you...wherever, whenever!

Balance your work and personal life whilst meeting your lifelong learning needs in a flexible, supportive and interactive learning environment. This can be achieved by enrolling through the distance education mode of study.

The NUST distance education model embeds a holistic approach to serve a broad profile of students through technology-enhanced learning using print, multi-media and e-Learning methods of delivery.

World-class course content is offered across ten Regional Centres country-wide, with decentralised student support services, which include: online registration, online tutorials, weekend face-to-face tutorials, week-long vacation schools, access to the library and computer lab facilities.

Welcome to Eenhana Satellite Campus

Welcome to the Namibia University of Science and Technology Eenhana Satellite Campus in Ohangwena region. It is your right and a best decision to study at Eenhana Satellite campus as we highly recognize the importance of transforming lives; engagement and research; embracing technological innovation, and promoting a culture of productivity through community engagement projects and industry benchmarked experiences. The satellite campus is well resourced with modern facilities for teaching and learning, and projects itself to grow in both programme offerings and research output for sustainable development.

The Satellite campus offers certificates to postgraduate qualifications from across the four faculties of the university. Here, we host programmes in the areas of Science, Technology, Engineering and Mathematics (STEM); Technical Vocation Education and Training (TVET); Business management; Criminal Justice; Languages and

Communications; Computing and Informatics; Procurement and Supply chain management; Business management; Agriculture and Horticulture among others. The campus will also be offering quality industry relevant short courses for skills development; continuing professional development and filling gaps in your professional knowledge to help you navigate through the knowledge economy.

The staff members of the satellite campus contribute to the development of the community through providing workshops on new skills needed to meet the challenges and community engagement activities. The student community engages in sports and cultural activities to develop a great sense of identity.

Message from the Executive Dean

Welcome to the Faculty of Computing and Informatics.

The Faculty of Computing and Informatics is a leader in embracing technology changes and ensuring the students are trained on current trends for smooth integration into their job roles. The period of 2021 to 2025 presents both challenges and opportunities for growth, innovation and rethinking our processes. We believe it will be a season of integrating key trends in our curriculum, in response to global challenges in the context of 4 IR to address NDGs and well UNSDGs. Technology is the heart of digital transformation in all spheres of our lives, we believe education driven by robust current technology is the best enabling tool for teaching, learning, research, innovation, collaboration and community engagement. Our vision will be achieved through educating innovative leaders and advancing computing and media knowledge through excellent education, research and community engagement and service to the benefit of society. Our focus areas are Computing which includes Computer Science, Communication Networks, Systems Administration, and Artificial Intelligence; Cyber Security, Information Security, Digital Forensics, Network Security, Systems Security and Software Security as well as Software Engineering, Human-Computer Interaction, Data Science and Software

Development, and Informatics which include Business, Health, Web Informatics and Multimedia; Journalism and Multimedia Technologies. FCI offers a complete set of degree programmes comprising Bachelors, Honours, Master and Doctorate.

The faculty also hosts the India-Namibia Centre of Excellence in Information Technology (INCEIT) in partnership with the government of India through its Centre for Development of Advanced Computing (C-DAC).

INCEIT offers students with the following Certificates on NQF Level 7 in the computing field: Certificate in Ethical Hacking and Information Security, Certificate in Advanced Web Technologies and Certificate in Big Data Technologies, Certificate in Python Programming (Beginners level) and Certificate in Python Programming (Advanced level). More information about the programs' intake, dates, and admission requirements can be found on our website at <http://fci.nust.na>.

Undergraduate Programmes			
Minimum Admission Requirement(s): A minimum of 25 points in five (5) subjects on the NUST Admission Point Scale including an E-symbol in English on NSSC Ordinary Level.			
Mode of Studies: Full-time or Part- time (Main Campus – Windhoek only) Duration: 3 Years			
Programme	Programme Code	Admission Requirement(s)	Illustration of Career Possibilities
Bachelor of Computer Science	07BCMS	D-symbol in Mathematics on NSSCO or an e-symbol on NSSCAS	Systems Administrator, Communication Networks Specialist, Computer Network Architect
Bachelor of Computer Science in Cyber Security	07BCCY	C-symbol in Mathematics on NSSCO or an e-symbol on NSSCAS	Security Software Developer, Cyber Security Consultant, Cryptanalyst, Cyber Security Analyst or Cyber Security Administrator
Bachelor of Informatics	07BAIT	D-symbol in Mathematics on NSSCO or an e-symbol on NSSCAS	Informatics Specialist, analyst Programmer, Systems Analyst, Information Architect, Web and Data Analyst.
Bachelor of Journalism and Media Technology	07BJOU	D-symbol or better in English on NSCO. A pass in a special English test as well as a journalism related general knowledge test. Entry via the mature age entry scheme is accepted with a minimum pass rate of 50% in the English Proficiency and Mathematics tests.	Journalist, Public Relations Practitioner, Communication Specialist, Media Designer, Photographer/Videographer, Entrepreneur in the media industry.

*Mode of Studies:

FM - Full Time, PM - Part Time, DI - Distance

Postgraduate Programmes				
Programme	Programme Code	Admission Requirement(s)	Mode	Duration (Years)
Bachelor of Computer Science Honours: <ul style="list-style-type: none"> • Communication Networks • Software Development • Information Security • Digital Forensics 	08BCCH 08BCHS 08BHIF 08BHDS	A Bachelor degree in Computer Science on NQF Level 7 worth at least 360 credits. Applicants need to attach <ul style="list-style-type: none"> • A professional resume, highlighting professional and practical computing experience • Written proposal/motivation for under taking further studies 	PM	1
Bachelor of Informatics Honours: <ul style="list-style-type: none"> • Web Informatics • Business Informatics 	08BIHW 08BIFB	A Bachelor degree in Informatics or an equivalent qualification at NQF Level 7 worth at least 360 credits. Applicants must submit a professional resume highlighting practical and professional Computing and IT experience.	PM1	1
Bachelor of Journalism and Media Technology Honours	08BJOH	A Bachelor of Journalism and Media Technology or equivalent qualification at NQF Level 7.	PM	1
Postgraduate Certificate in Informatics (Information Systems Audit)	08PGIN	A three-year advanced diploma or Bachelor degree or an equivalent qualification at NQF Level 7. Two years relevant working experience.	PM	1
Master of Computer Science	09MACS	A Bachelor Honours Degree on NQF Level 8 related to computer science. Applicants must provide evidence of having conducted supervised research.	FM/PM	2
Master of Data Science	09MADS	A Bachelor Honours Degree or equivalent qualification at NQF Level 8 in any one of the following fields: Computer Science, Informatics, Information Systems, Statistics, Engineering, Mathematics or Physics	FM/PM	2
Master of Informatics	09MAIN	A Bachelor Honours degree at NQF Level 8 or equivalent qualification. Applicants must provide evidence of having conducted supervised research.	FM/PM	2
Master of Journalism and Media Technology	09MJMT	A Bachelor of Journalism and Media Technology at NQF Level 8. Applicants must provide evidence of having conducted supervised research.	FM/Block sessions	2
Doctor of Philosophy in Computer Science	10DPCS	A Master of Computer Science or related degree on NQF Level 9. Applicants must provide evidence of having conducted supervised research on this level.	FM/PM	3
Doctor of Philosophy in Informatics	10DPIN	A Master of Informatics or related degree at NQF Level 9. Applicants must provide evidence of having conducted supervised research on this level	FM/PM	3

Message from the Executive Dean

A career choice may well be one of the most crucial decisions every person has to make. Every young person, particularly those coming from high school, finds themselves in this somewhat unfamiliar decision-making space, all too often presenting itself as rather a life-defining dilemma. It is often a series of closed doors beyond which one does not know what awaits, and yet one is compelled to take a chance to open at least one of them to discover and trudge a potentially long and arduous journey. Indeed, a career decision is a difficult decision. I am heartened by your interest in taking the next bold step in your educational and professional journey at our faculty. I am pleased to introduce you to an exciting career gateway, namely the engineering profession, offered by the Faculty of Engineering and Spatial Sciences at the Namibia University of Science and Technology.

Ours is a unique faculty that attracts Namibia and the world's sharpest minds to come as they are and leave the university as the world's most promising career engineers. Our state-of-the-art facilities, internationally benchmarked curriculum, and internationally acclaimed staff members, offer the ultimate experience in engineering education. We pledge to shape every student into an industry-ready graduate engineer in their

respective field of specialization, ripe for a technologically advanced world. With an emphasis on interdisciplinarity, independent learning ability, innovation, and design, our professional degree programs equip our students to confidently grab their space in an ever-evolving industry and inscribe an indelible contribution to the engineering profession. Our rich alumni network that continues to challenge and dominate the frontiers of industry and commerce is testimony to this assertion. More importantly, our degree programs recognise the reality that the modern engineering professional needs to be multi-skilled, thus earning our graduates the ability to dove-tail into a diverse workplace and maneuver the complexities of modern-day society. In essence, we offer a perfect platform for students to thrive.

The faculty currently consists of seven departments, namely:

Department of Architecture and Spatial Planning;
 Department of Civil and Environmental Engineering;
 Department of Electrical and Computer Engineering;
 Department of Geo-Spatial Sciences and Technology.
 Department of Land and Property Science;
 Department of Mechanical and Marine Engineering; and
 Department of Mining and Process Engineering.

Our InSTEM (Introduction to Science, Technology, Engineering, and Mathematics) programme provides students who do not meet our entry criteria to upgrade their STEM competencies to a sufficient level to enter our professional degree programmes. Please feel free to enquire about our InSTEM programme that serves as the bridging programme into our professional undergraduate degree programmes.

As a Faculty, we aim to establish ourselves as the partner of choice for industry, community, government, and academia. We remain mindful of the guiding principle that for any country to develop technologically and economically, there must be a strong link between its industry, government & academic institutions, and society. The COVID-19 pandemic remains a challenge that we continue to grapple with. However, I am glad to inform our prospective students that we have managed to continue to successfully deliver our mandate despite the challenges caused by the pandemic. We have migrated from the face-to-face mode of delivery at every juncture the necessity to do so has arisen. We continue to make frantic efforts to capacitate our teaching staff with the requisite skills to deliver learning content through

multiple teaching modes effectively. Our commitment, despite these challenges, remains to elevate our teaching and research space, allowing for the addition of dry labs and the use of 3D printers across all departments in the faculty.

We pride ourselves as faculty that engages and encourages our students to play a more active role in the leadership and educational success of the faculty. Technology has diminished the effect of geographical distances, and it is in our best interest to produce globally competitive graduates. The Fourth Industrial Revolution (4IR) is a reality that we have embraced as a unique opportunity to be welcomed, not a problem to be confronted. We will expand our curricula to incorporate social and emotional learning (SEL) to enhance student intrapersonal, interpersonal, and cognitive competence.

Once again, I wish you well as you navigate the difficult path of making a career choice. I hope to interact with you when you become a part of our modern campus and take up the most productive yet exciting journey of your life.

Undergraduate Programmes			
Mode of Studies: Full-time or Part- time (Main Campus – Windhoek only)		Duration: 4 Years	
Engineering Departments			
Programme	Programme Code	Admission Requirement(s)	Illustration of Career Possibilities
Introduction to Science, Technology, Engineering and Mathematics (one year programme)	04STEM	25 points in 5 subjects including D symbols in Mathematics and Physical Science or Physics and Chemistry. Applicants who wants to pursue studies in health ad Applied Sciences as well natural resources should also have minimum D symbol in Biology.	Bridging programme
Bachelor of Technology in Civil Engineering	07BECV	A minimum of 30 points in five subjects including a Grade 3 on NSSCH or A-symbol on NSSCO in Mathematics, Physical Science or Physics and Chemistry	Engineering technologists in fields like construction, manufacturing, product design, testing, technical services and sales etc.
Bachelor of Technology in Power Engineering	07BPEN		Engineering technologists in areas of power distribution to domestic to large commercial complexes.
Bachelor of Technology in Electronic Engineering	07BELL		Engineering technologists in areas of telecommunications and radio/TV broadcasting, repair of electronic equipment and systems.
Bachelor of Technology in Mechanical Engineering	07BMEC		Engineering technologists in areas of mechanical engineering like mechanical design, energy conversion, materials testing, manufacturing processes, product safety and reliability etc.
Bachelor of Engineering in Civil Engineering	08BCEN	A minimum of 37 points in five subjects including Grade 3 in Physical Science and Mathematics on NSSCH or d-symbols on NSSCAS in Chemistry, Physics and Mathematics.	Professional Engineer (structural, transportation, water and geotechnical engineering)
Bachelor of Chemical Engineering	08BECE		Chemical Engineer, Environmental and Safety Practitioners, Risk Managers in Financial and Investment projects, Process Engineer, Quality Control engineer, Plant or Refinery Manager
Bachelor of Engineering in Mining	08BMEG		Mining Engineer, Consultant, Junior Lecturer, researcher, Environmental and Safety Practitioners, Banking and Insurance Risk Managers, Project Engineer, Mine Manager
Bachelor of Engineering in Metallurgy	08BEMT		Professional Engineers in the areas of power distribution.
Bachelor of Engineering: Electrical Power	08BEEP		Professional Engineers in areas of telecommunications and radio/TV broadcasting, design or electronic equipment and systems.
Bachelor of Engineering in Electronics and Telecommunication	08BEET		Professional Engineers in areas of mechanical engineering regarding mechanical design, materials testing, manufacturing processes, product safety and reliability
Bachelor of Engineering in Mechanical Engineering	08BEME		Industrial Managers in private and public sectors such as manufacturing, mining, consultations, banking, healthcare, transport and agriculture.
Bachelor of Engineering in Industrial Engineering	08BIND		

Undergraduate Programmes

Minimum Admission requirements: A minimum of 25 points in five subjects including an E-symbol in English on NSSCO.

Mode of Studies: Full-time (Main Campus – Windhoek only) Duration: 3 Years

Architecture and Spatial Sciences Department

Programme	Programme Code	Admission Requirement(s)	Illustration of Career Possibilities
Bachelor of Architecture	07BARC	30 Points in five subjects of which 12 points must be in English and Mathematics and 18 points for any of three subjects out of the following: Arts and Craft, Biology, Economics, Fine Art, Geography, Literature, Physical Science, Physics or Technical Drawings	Architectural Technologist.
Diploma in Geomatics	06DGEO	C symbol in Mathematics at NSSCO and a pass in Geography or Physical Science related subject.	Employment in Cadastral and Engineering Surveying, mining surveying, GIS, Digital Cartography, Drafting, Land Administration.
Bachelor of Geomatics	07BGEO	30 points in five subjects including A symbol in Mathematics on NSSCO and B symbol in Physical Science or Physics and Grade 3 or d symbol on NSSCAS.	Technical Surveyor
Bachelor of Geoinformation Technology	07BGEI	C symbol on NSSCO in Geography, Mathematics and Physical Science or Physics	Scientist in various fields such as geosciences, geography, GIS, remote sensing, databases, programming and computing, etc.
Bachelor of Land Administration	07BLAM	E symbol in Mathematics	Land Administrators, Land Registration Officers, Land Technicians, Social Survey Clerks, Land Analysts, etc.
Diploma in Property Studies	06DPRS	E symbol in Mathematics	Registration with Namibia Property Valuers Professional Council (NPVPC) as Candidate Valuers to work in Real estate, ministry of Land Reform, Urban and Rural Development, Municipalities, etc.
Bachelor of Property Studies	08BPRS	30 points in five subjects including at least a D symbol in Mathematics	
Bachelor of Regional and Rural Development	07BRAR	A minimum of 30 points in five subjects including a D symbol in English and Mathematics on NSSCO.	Positions in regional and local government institutions, development organizations and private consultancy firms involved in the development of rural areas.
Bachelor of Quantity Surveying	07BOQS	A minimum of 30 points in five subjects including a minimum of 12 points for English and Mathematics and 18 points in any three subjects out of the following: Chemistry, Biology, Economics, Physics, Physical Science, Technical Drawings. No symbol must be lower than a C on NSSCO.	Candidate Quantity Surveying Technologist
Bachelor of Town and Regional Planning	07BTAR	A minimum of 30 points in 5 subjects including 12 points for English and Mathematics. No symbol should be lower than a C symbol on NSSCO.	Land Use Planning Officers in the public and private sectors as well as NGOs.

Postgraduate Programmes				
Engineering Department				
Programme	Programme Code	Admission Requirement(s)	Mode	Duration (Years)
Master of Engineering in Civil Engineering	09MECE	A relevant Bachelor of Civil Engineering degree or equivalent qualification at NQF Level 8.	FM/PM	2
Master of Environmental Engineering	09MEEN	A relevant Bachelor of Engineering degree at NQF Level 8.	FM/PM	2
Master of Integrated Water Resources Management	09MIRW	A relevant Bachelor of Engineering degree at NQF Level 8	PM	2
Master of Engineering in Metallurgy	09MMET	A Bachelor of Engineering degree in Metallurgy or an equivalent qualification at NQF Level 8	FM/PM	2
Master of Sustainable Energy Systems	09MSES	A Bachelor degree at NQF Level 8 in the following fields: Mechanical, Industrial, Electrical, Mining, Metallurgy, Agriculture, Chemical Engineering.	FM/PM	2
Master of Industrial Engineering	09MIEN	A relevant Bachelor of Engineering degree at NQF Level 8 with a research component. Applicant must be employed or self-employed.	FM/PM	2
Doctor of Philosophy in Engineering	10DRPE	A relevant Masters degree in the field of Engineering or equivalent at NQF Level 9.	FM/PM	3
Postgraduate Programmes				
Architecture and Spatial Science Department				
Programme	Programme Code	Admission Requirement(s)	Mode	Duration (Years)
Bachelor of Architecture Honours	08BARH	A Bachelor of Architecture or an equivalent qualification at NQF Level 7.	FM	1
Bachelor of Geomatics Honours	08GEOH	A Bachelor of Geomatics or an equivalent qualification at NQF Level 7.	FM	1
Bachelor of Geoinformation Technology Honours	08HBGI	A Bachelor of Geoinformation Technology or an equivalent qualification at NQF Level 7.	FM	1
Bachelor of Land Administration Honours	08BHLA	A Bachelor of Land Administration or an equivalent qualification at NQF Level 7.	FM	1
Bachelor of Regional and Rural Development Honours	08BRDH	A Bachelor of Regional and Rural Development or an equivalent qualification at NQF Level 7.	FM	1
Bachelor of Urban and Regional Planning Honours	08BURH	A Bachelor of Town and Regional Planning or an equivalent qualification at NQF Level 7.	FM	1
Master of Architecture	09MARC	A Bachelor of Architecture Honours or an equivalent qualification at NQF Level 8, worth at least 480 NQF Credits.	FM	2
Master of Landscape Architecture	09MOLA	A Bachelor of Architecture Honours or an equivalent qualification at NQF Level 8.	FM	2
Master of Geoinformation Science and Earth Observation	09MGEO	A Bachelor of Geoinformation Technology Honours or equivalent qualification at NQF Level 8.	FM/Block sessions	2
Master of Spatial Sciences	09MSPS	A Bachelor Honours degree at NQF Level 8 in fields related to spatial sciences.	Research	2
Master of Urban Design	09MOUD	A Bachelor Honours degree in Architecture, Town and Regional Planning or Regional and Rural Development at NQF Level 8. Applicants must have at least two years practical experience as a candidate professional.	Block sessions	2
Doctor of Philosophy in Spatial Sciences	10DPSS	A NQF Level 9 qualification in Spatial Science related subjects. Must have conducted supervised research at master degree level.	FM/PM	3

Message from the Executive Dean

Dear Prospective Student,

Welcome to the Faculty of Health, Applied Sciences and Natural Resources. The Faculty is a very important knowledge-partner that contributes remarkably to the development of the country in various ways. The Faculty is adequately equipped with state-of-the-art facilities for teaching and learning as well as for research. The Faculty consists of three departments, namely: The Departments of Applied Sciences, Health Sciences and Agriculture and Natural Resource Sciences.

We offer degree programmes in Biological, Health, Mathematical and Physical Sciences. Our qualifications range from undergraduate degrees through honours and masters, up to doctoral degrees in some cases.

As part of the training, our students spend some time with our industry partners where they integrate their academic learning with practical applications in the workplace. The staff members and students of the Faculty also contribute to the uplifting of the community through the Faculty's intensive community engagement programme.

For further information visit our website at fhas.nust.na. We are looking forward to welcoming you to the Faculty as our new student.

Undergraduate Programmes

Minimum Admission Requirement(s): A minimum of 25 points in five subjects including an E symbol in English on NSSCO. Admission via the Mature Age Entry Scheme are not accepted unless so indicated. This option is only for applicants with relevant experience in medical fields.

Mode of Studies: Full-time (Main Campus – Windhoek only) **Duration:** 3 - 4 Years

Programme	Programme Code	Admission Requirement(s)		Illustration of Career Possibilities
		NSSC Old Curriculum	NSSC New Curriculum	
Bachelor of Science in Agriculture	07BAGA	E symbol in Mathematics and Biology or science related subject. Candidates can also apply via the Mature Age Entry Scheme		Farm Managers, Community Development Coordinators, Agricultural Research Officer, etc
Bachelor of Applied Mathematics and Statistics	07BAMS	B symbol in NSSC Ordinary Level or E symbol in NSSC Advanced level Mathematics. Applicants who obtained a C symbol in Mathematics in the old NSSC Ordinary Level, will be required to sit for an entrance test.		Planner, Analyst, Statistician, etc..
Bachelor of Emergency Medical Care	07BOMC	12 points for Mathematics, Biology and Physical Science. No symbol should be lower than a D. Mature Age Applicants: To score 60% in English and 50% in Mathematics of NUST	18 points for Mathematics, Biology AND EITHER Physics or Chemistry. No symbol should be lower than a B on Ordinary Level or a D on AS Level.	Registered Emergency Medical Care Technician, Advanced Life Support Practitioners (Paramedics)
Bachelor of Environmental Health Science	08BOHS	15 points for Biology, Mathematics and Physical Science. No symbols should be lower than a C.	20 points for Biology, Mathematics, Physics and Chemistry. No symbol should be lower than a C on Ordinary Level or a D on AS Level.	Registered Environmental Health Practitioner, Health Inspectors etc.
Bachelor of Health Information Systems Management	07BSHM	15 points for Biology, Mathematics and Physical Science. No symbol should be lower than a D. Mature Age Applicants: To score 60% in both English and Mathematics of NUST	20 points for Biology, Mathematics, Physics and Chemistry. No symbol should be lower than a C on Ordinary Level or a D on AS Level.	Positions in public and private sectors, municipalities, research institutions, teaching and training institutions etc.
Bachelor of Horticulture	07BHOR	C symbol in Biology or related subject and D symbol in Mathematics. Candidates can also apply via the Mature Age Entry Scheme		Crop production managers, Landscape managers, Agriculture extension officers, etc.
Bachelor of Human Nutrition	08BOHN	15 points for Biology, Mathematics and Physical Science. No symbols should be lower than a C. Mature Age Applicants: To score 50% in NUST English and Mathematics Tests.	20 points for Biology, Mathematics, Physics and Chemistry. No symbol should be lower than a C on Ordinary Level or a D on AS Level.	Registered Nutritionists
Bachelor of Medical Laboratory Sciences	08BMLS	18 points for Mathematics, Biology and Physical Science. No symbol should be lower than a C.	24 points for Mathematics, Biology, Chemistry and Physics. No symbol should be lower than a C on Ordinary Level or a D on AS Level.	Registered Medical Laboratory Scientists in clinical laboratories, food industry, water analysis etc.

*Mode of Studies:

FM - Full Time, PM - Part Time, DI - Distance

Bachelor of Natural resources Management	07BNRS	D symbol in English and Mathematics and C symbol in Biology or Geography or Agriculture. Candidates can also apply via the Mature Age Entry Scheme		Nature Conservationists, Environmental Education Officers, Research Assistants, Tour Guides, etc.	
Bachelor of Science	07BOSC	15 points for Mathematics, Biology and Physical Science. No symbol should be lower than a C.	20 points in Mathematics, Biology, Chemistry and Physics. No symbol should be lower than a C on Ordinary Level or a D on AS Level	Jobs in private and public institutions e.g. laboratories, manufacturing, food processing, agriculture etc.	
Postgraduate Programmes					
Programme	Programme Code	Admission Requirement(s)		Mode	Duration (Years)
Bachelor of Science in Agriculture Honours	08BSAH	A Bachelor of Agriculture or an equivalent qualification at NQF Level 7.		FM	1
Bachelor of Science Honours in Applied Mathematics	08BSHM	A Bachelor of Science in Applied Mathematics and Statistics or an equivalent qualification at NQF Level 7.		FM/PM	1
Bachelor of Science Honours in Applied Statistics	08BSHS	A Bachelor of Science in Applied Mathematics and Statistics or an equivalent qualification at NQF Level 7.		FM/PM	1
Bachelor of Emergency Medical Care Honours	08BMCH	A Bachelor of Emergency Medical Care or an equivalent qualification at NQF Level 7		FM	1
Bachelor of Natural Resources Management Honours	08BNRH	A Bachelor of Natural Resources Management or an equivalent qualification at NQF Level 7.		FM	1
Bachelor of Science Honours with Specializations in Applied Biology Biotechnology Applied Chemistry Applied Physics	08BOSH 08BSHB 08BSHC 08BSHP	A Bachelor of Science degree or an equivalent qualification at NQF Level 7.		FM	1
Postgraduate Diploma in Applied Radiation Science and Technology	08PGRS	A Bachelor of Science or an equivalent qualification at NQF Level 7, which incorporates physics or chemistry as a major subject.		FM	1
Master of Agribusiness Management	09MAGB	A Bachelor of Agricultural Management Honours or an equivalent qualification at NQF Level 8.		FM	2
Master of Science in Applied Mathematics	09MSAM	A Bachelor of Science Honours in Mathematics or an equivalent qualification at NQF Level 8.		FM/PM	2 ½
Master of Science in Applied Statistics	09MSAS	A Bachelor of Science Honours in Statistics or an equivalent qualification at NQF Level 8.		FM/PM	2 ½
Master of Health Sciences	09MOHS	A Bachelor Honours degree in Environmental Health Science, Biomedical Science or Emergency Medical Care or equivalent qualification at NQF Level 8.		FM/PM	2
Master of Science in Natural and Applied Sciences	09MSNA	A Bacheloro of Science in Natural and Applied Science Honours or an equivalent qualification at NQF Level 8.		FM/PM	2
Master of Natural Resources Management	09MNRT	Bachelor of Natural Resources Management Honours or an equivalent qualification at NQF Level 8.		FM/PM Research	2
Doctor of Philosophy in Health Sciences	10DOHS	A Master of Health Science or an equivalent qualification at NQF Level 9.		Research	3
Doctor of Philosophy in Mathematics	10DPSM	A Master of Science in Mathematics or an equivalent qualification at NQF Level 9.		FM/PM	3
Doctor of Philosophy in Natural Resources Sciences	10DNRS	A NQF Level 9 qualification in Natural Resources Science related subjects. Must have conducted supervised research at master degree level.		FM/PM Research	3

Message from the Executive Dean

The Faculty of Commerce, Human Sciences and Education (FCHSE) contributes to scholarship through applied research and instructional development. It provides students with the background necessary to pursue advanced studies in Linguistics, Criminal Justice, Policing, Communication, Education, National and Foreign Languages, TVET, Business Administration, Human Resources, Marketing, Accounting and Finance, Economics, Entrepreneurship, Procurement, Logistics & Transport, Sport Management, Hospitality and Tourism, Business Information Administration, Governance and Public Administration and related fields.

The Faculty prides itself with diversity, collegiality, cohesion and inclusion. The educational experience in the undergraduate and graduate levels is designed to provide

students with the intellectual flexibility to be successful in a dynamic business environment. In addition, to provide support to employer community through the development of marketable skills in potential employees, the Faculty enhances the competitive capabilities of local businesses by providing continuing education courses, certification and consulting services through the Harold Pupkewitz Graduate School of Business (HPGSB), the Centre for Enterprise Development (CED), the Namibian-German Centre for Logistics, and the individual efforts of faculty.

The Faculty has further established collaborative relationship with public and private sector institutions and industries in developing a robust and effective system of higher education in Namibia. The Faculty encourages staff professional development, scholarly productivity, and service to benefit all stakeholders: students, alumni, donors, regional businesses, and the Republic of Namibia.

Undergraduate Programmes				
Admission Requirements: A minimum of 25 points in five subjects including an E symbol in English on NSSCO.				
Mode of Studies: Full-time (FM), Part-time(PM) or Distance (DI) Duration: 3 Years				
Programme	Programme Code	Admission Requirement(s)	Mode of Studies	Illustration of Career Possibilities
Department of Accounting, Economics and Finance				
Bachelor of Accounting	07BOAC	D symbol in Mathematics or Accounting	FM/PM/DI	Middle level Accountants, Internal Auditors or Tax Assistants in the public and private sector.
Bachelor of Accounting (Chartered Accountancy)	07BACC	C symbol in Mathematics and D symbol in English	FM	Audit trainees in public practice firms while pursuing further professional programmes to become Chartered Accountants
Diploma in the Theory of Accounting	07DTOA	A relevant Bachelor degree at NQF Level 7	FM/PM	Further studies into the PG Certificate in Accounting
Bachelor of Economics	07BECO	D symbol in Mathematics	FM/PM/DI	Economist, Trainee Financial Analyst, Broker/Dealer, etc.
Department of Human Sciences				
Bachelor of Communication	07BCMM	D symbol in English	FM/PM/DI	Communication Managers, Speech Writers, Public Relations Officers, Press Liaison Officers, etc.
Bachelor of English and Linguistics	07BENL	D symbol in English	FM/PM/DI	Various positions in teaching, acting, editing, publishing, curriculum development, production of in-house magazines and newsletters, etc.
Bachelor of Criminal Justice in Correctional Management	07BCOR	-	PM	Correction Officers, Security Industry, Immigration Officer, Forensic Services, etc.
Bachelor of Criminal Justice in Policing	07BCJP	-	PM	Police Officer, Security Industry, Immigration Officer, Forensic Services etc.
Bachelor of Public Management	07BPMA	E symbol in Mathematics	FM/PM/DI	Positions in finance, economic, human resources management in public enterprises or NGOs.
Department of Technical and Vocational Education and Training				
Bachelor of Culinary Arts	07BCNA	-	FM	Chef, Caterer, Kitchen Supervisor, Entrepreneurs, etc.
Bachelor of Hospitality Management	07BHOM	-	FM	Hotel Manager, Divisional Manager, Entrepreneur, etc.

Bachelor of Tourism Innovation and Development	07BTID	-	FM	Positions in tourism industry e.g. administration officers, guest relations, events and conference coordinators, community based tourism enterprises supervisors, entrepreneurs, etc.
Diploma in Technical and Vocational Education and Training: Trainer	06DTVT	<ul style="list-style-type: none"> Applicants must be qualified in a designated trade, Have at least 3 years industrial working experience in the relevant occupational domain 	FM/PM/DI	Professional Vocational Instructor
Diploma in Technical and Vocational Education and Training: Management	06DTVM	<ul style="list-style-type: none"> Applicants must be qualified in a designated trade, Have at least 3 years industrial working experience of which 1 year should be on a managerial level at a VTC/ COSDEC/TVET institution Or TVET Trainer Diploma 	FM/PM/DI	Leadership and management positions in the TVET field.

Department of Marketing and Logistics

Bachelor of Marketing	07MARB	D symbol in Mathematics	FM/PM/DI	Middle management positions in marketing, sales, business development, etc.
Bachelor of Procurement and Supply Chain Management	07BPSM	D symbol in Mathematics	FM/PM/DI	Middle management positions in logistics, procurement, business development, etc.
Bachelor of Sport Management	07BSMN	-	FM/PM/DI	Positions as Sport Managers, Business Development Managers, Sporting Brand Managers, Sponsorship executives, etc.
Bachelor of Transport Management	07BTRA	E symbol in Mathematics	FM/PM/DI	Positions in transport management including road safety and infrastructure, transport economics, legal framework and transport operations, etc.

Department of Management

Bachelor of Business Management	07BBMN	D symbol in Mathematics	FM/PM/DI	The BBMN programme equips you with a wide variety of skills to own and or manage a small venture; as well as middle Management positions and various positions in Business Development, Purchasing, Logistics, Operations, Finance, etc.
Bachelor of Business and Information Administration	07BBIA	-	FM/PM/DI	Office Manager, Executive Secretary, personal Assistant, Litigation Typists, Front Desk Receptionists, etc.
Bachelor of Entrepreneurship	07BENT	-	FM	Entrepreneur
Bachelor of Human Resources Management	07HRM	-	FM/PM/DI	Various positions in training and development, industrial relations, career management, health and safety management, etc.

Postgraduate Programmes

Programme	Programme Code	Admission Requirement(s)	Mode of Studies	Duration (Years)
Department of Accounting, Economics and Finance				
Bachelor of Accounting Honours	08BOAH	A Bachelor of Accounting or an equivalent qualification on NQF Level 7.	PM	1
Bachelor of Economics Honours	08BEHO	A Bachelor of Economic or an equivalent qualification at NQF Level 7.	PM	1

*Mode of Studies:

FM - Full Time, PM - Part Time, DI - Distance
