FEEDBACK TUTORIAL LETTER: ASSIGNMENT 2

Dear Student

This letter serves to give you some guidelines as to where you made mistakes in this second assessment and how to correct your errors. Please read through it carefully and make the necessary adjustments.

The PowerPoint assessment was structured in such a way that it allowed you to not only showcase your practical skills but even more so the knowledge you have gained over the past units and your understanding of the work covered.

Many of you did a great job and really used your own initiatives to make a well-rounded presentation with the aid of the marking grid. Yet others did poorly because they just quickly did it and didn't have enough slides, correct cover page (with all the required information on the slide), table of contents, introduction, good/sufficient context, conclusion or even any references (in-text and at the end of the slides). I have attached the marking grid so please go through it and make sure you adhere to these guidelines the next time you need to prepare a PowerPoint presentation.

If you have any questions regarding the marking of your assignments, please do not hesitate to contact me.

Regards

Ms Deoni Olivier

| COVER PAGE = 5       | • Institutional Name  
                       • Departmental Name  
                       • Topic Title  
                       • Subject name  
                       • Student surname and initials  
                       • Student number  
                       • Lecturer  
                       • Date of submission |      |
|                      | • Layout  
                       • Numbering Of Sections  
                       • Page Number Column  
                       • Page Numbers in Relation To Body And Headings Of In Text |      |
| TABLE OF CONTENTS = 5| • APA Method consistently and correctly used throughout  
                       • Using as many sources as necessary to substantiate your content |      |
| REFERENCE = 10       | • Introducing and defining the topic  
                       • Logic of interpretation |      |
| INTRODUCTION = 5     | • Division into sections, sub-sections, sub-sub-sections  
                       • Logic of divisions |      |
| BODY = 5             | • Knowledge and understanding of the topic  
                       • Logic of conclusions  
                       • Presentation of supporting arguments  
                       • In text referencing |      |
| CONTENT = 10         | • Brief summary  
                       • Logical conclusion based on what you have written |      |
| CONCLUSION = 5       | • Correct format, consistency  
                       • Alphabetical  
                       • List only sources actually used  
                       • Choose sources carefully – are they relevant to your topic  
                       • Good “mix” of sources (books, journals, web-based material, official documents, interviews, etc.) |      |
| LIST OF SOURCES = 5  |                                                                     |      |
