Dear Student

The Economics Department has revised its curriculum for the 2016 academic year. This revision has necessitated a revision of the content for Intermediate Microeconomics (IMI611S).

The course development for the study guide is in progress. However, I make available the following supplementary material to aid you in your studies.

THIS MATERIAL HAS TO BE USED IN CONJUNCTION WITH YOUR TUTORIAL LETTER AND STUDY GUIDE.

I wish to emphasise that the study guide is not exhaustive. You should also read the supplementary material alongside the prescribed textbook to ensure that you are successful in this course.

Some topics presented in the study guide may not be relevant to the revised curriculum. Where topics are not relevant you will be informed through the COLL communication channels.

I wish you the best of luck for the course.

Regards
