

Dear RME811S Distance Students

Trust that you are all doing well under current difficult times. This is to let you know and confirm that the submission date for your proposals has now been extended to 10th of July 2020 and submission is to be done online. It, therefore, means that those who have already submitted can have a relook if they so wish, and those who have not can do so on or before the aforesaid date. There is ample time for you to ensure that you are able to submit online now, not after the submission deadline is closed on the system.

Please note that all distance students must submit their research proposals on MyNUST. All distance students are linked and grouped according to their Research Supervisor. Should you have problems in submitting your Research Proposal, please communicate urgently to Ms. Brenda Kaumbangere at [bkaumbangere@nust.na](mailto:bkaumbangere@nust.na) and Ms. Bernadette Cloete at [bcloete@nust.na](mailto:bcloete@nust.na)

Best of luck
