Instructions for the assignment

This was an essay type question and students were expected to use the format shown below;

Introduction 5 marks

The student is expected to give a succinct introduction on the impact of COVID 19 in the work place and the need to counter the spread thereof. Students were expected to refer to a specific organisation in the introduction. Some students did not do that and got less marks.

Objectives 5 mark

The objectives should be specific to the chosen company and should focus on;

✓ Awareness
✓ Prevention, and
✓ Testing

Some students did not list or number clear objectives and lost marks that way.

Activity Plan 30 marks

The student should design an activity plan along the lines shown below;

<table>
<thead>
<tr>
<th>Activity</th>
<th>Objective</th>
<th>Responsibility</th>
<th>Resources Required</th>
<th>Timeframe</th>
<th>Evaluation</th>
</tr>
</thead>
</table>

Students who got the highest marks followed instructions and presented clear activity plans in tabular format.

Implementation 5 marks

The student needed to discuss implementation issues such as management commitment, any change in policies, role clarity, resources, reporting, evaluation etc. Most students did fairly well on this part but there were students who left out the part entirely thus getting no marks.

References 5 marks

The student needs to show evidence of wide reading especially current articles on COVID 19 from the internet and use APA referencing accurately.

Total 50 marks

Students were expected to focus on the activity plan.

General Comments for students
