Welcome to Eenhana Satellite Campus

At the welcome to the Namibia University of Science and Technology Eenhana Satellite Campus in the Ohangwena region. It is your right and a best decision to study at Eenhana Satellite campus we highly recognise the importance of transforming lives; engagement and research; embracing technological innovation, and promoting a culture of productivity through community engagement projects and industry benchmarked experiences. The Campus is well resourced with modern facilities for teaching and learning, and projects itself to grow in both programme offerings and research output for sustainable development. Although the Campus does not have accommodation facilities, accommodation in the surrounding areas are very affordable, and NUST offers free transport from and to Campus.

Students can pursue qualifications ranging from certificates to postgraduate degrees across all four faculties of the University at this Campus.

The Campus will also be offering quality industry relevant short courses for skills development; continuing professional development and filling gaps in your professional knowledge to help you navigate through the knowledge economy.

Our staff members contribute to the development of the community through providing workshops on new skills needed to meet the challenges and community engagement activities. The student community engages in sports and cultural activities to develop a great sense of identity.

Dr Lukas Shikulo
Head of Campus
