

WE ARE HIRING

Faculty of Computing and Informatics

Department: Computer Science

Senior Lecturer/ Associate Professor: Communication Networks

Requirements

A Doctorate (NQF Level 10) for a Senior lecturer in Computer Science or a related field with at least six (6) years of lecturing experience at tertiary education level and/or industry experience or an equivalent combination of relevant professional experience. Excellent English communication Skills (oral and written). Proven competence in successful sourcing of research or project funding from third party sources, successful initiation and management of research projects, curriculum development and strong management/organisational and mentorship skills. Competence to teach the following courses: IPv6 Addressing, Internet of Things, Software Defined Networking, Network Protocols, and Modelling and Simulation of Networks. Competence to establish professional networks and to maintain links with the industry, as well as experience in developing postgraduate programmes, strong management skills and a proven record of raising substantial research funding. A credible record of lecturing, peer-reviewed publications, community engagement, programme coordination, as well as supervision of students (research) at both under- and post- graduate levels.

Lecturer: Communication Networks and Systems Administration

Requirements

A Master's degree (NQF Level 9) in Computer Science or related field with at least four (4) years of lecturing experience in Communication Networks or Systems Administration at tertiary education level or an equivalent combination of relevant professional experience in Software Development/Engineering. A Doctorate will be an advantage. Excellent English communication skills (oral and written). Competence to teach the following courses: Data Networks, Systems Administration, Database Administration, Datacentre Infrastructure Management, and Software Defined Networking at Honours level. Competence to establish professional networks and to maintain links with the industry, as well as experience in developing under-graduate programmes. Supervision of students' research project/mini thesis is essential. A credible record of lecturing, peer-reviewed publications and community engagement will be an added advantage.
