FACULTY OF COMMERCE, HUMAN SCIENCES AND EDUCATION

PROSPECTUS 2024

*(Note: The final interpretation of all regulations in this Prospectus for the **Faculty of Commerce, Human Sciences and Education** shall be vested in Council)*

NOTE

The Prospectus for the **Faculty of Commerce, Human Sciences and Education** is valid for 2024 only. Curricula and Syllabi may be amended for 2025. It is obtainable free of charge from:

The Registrar
Namibia University of Science and Technology (NUST)
Private Bag 13388, Windhoek, NAMIBIA

Location: 13 Jackson Kaujeua Street, Windhoek

Telephone: (+264-61) 207 2008 / 2118

Fax: (+264-61) 207 9118

Website: www.nust.na

E-mail: registrar@nust.na

Although the information contained in this Prospectus has been compiled as accurately as possible, Council and Senate accept no responsibility for any errors and omissions, which may occur. The University retains the right to amend regulations or conditions without prior notice.

Due to the rapidly changing external environment that many programmes operate in, and the University's desire to remain constantly relevant in its offerings, some programmes may be significantly amended after publication of this Prospectus. Please consult our website for the latest versions of our curricula, syllabi and academic regulations.

The fact that particulars of a specific programme, field of study, subject, or course have been included in this Prospectus does not necessarily mean that such a programme, field of study, subject, or course will be offered in the academic year 2024.

SCHOOL OF COMMERCE AND MANAGEMENT SCIENCES

DEPARTMENT OF ECONOMICS, ACCOUNTING AND FINANCE

CODE: 71

QUALIFICATIONS OFFERED

Bachelor of Economics (Revised - Phased in 2018)	07BECO
Bachelor of Accounting (Revised Curriculum – Phasing in 2024)	07BGAC
Bachelor of Accounting (Old Curriculum – Phasing out 2026)	07BOAC
Bachelor of Accounting (Chartered Accountancy) (Revised Curriculum-Phasing in 2024)	07BCAC
Bachelor of Accounting (Chartered Accountancy) (Old Curriculum-Phasing out 2023)	07BACC

BACHELOR OF ECONOMICS

07BECO

(Revised Curriculum – Phased in 2018)

NQF Level: 7

NQF Credits: 379

NQF Qualification ID: Q0285

Description

The Bachelor of Economics provides a systematic and coherent introduction to the knowledge, principles, concepts, data, theories and problem-solving techniques of the economics discipline. The programme will enable students to acquire cognitive/intellectual skills, practical skills and key transferable skills and to apply these skills in solving economic problems that face the public and private sectors, as well as the overall economy.

The Bachelor of Economics specifically aims at:

- * providing students with a good foundation in the fundamental concepts, theories and frameworks of economics;
- * developing the ability of students to analyse information from a wide range of sources;
- * equipping students with the requisite skills to work effectively as individuals and as members of teams, and,
- * enabling students to communicate effectively in the workplace.

Criteria for Admission

Candidates may be admitted to this programme if they meet the General Admission Requirements of the Namibia University of Science and Technology. In addition, students should have a minimum D symbols in Grade 12/NSSCO Mathematics and English as a second language.

Mature age candidates will be considered provided they meet the requirements and pass the mature age entrance examinations of the Namibia University of Science and Technology.

Articulation Arrangements

Transfer of credits will be dealt with according to NUST's regulations on Recognition of Prior Learning. These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit that can be granted is 50 % of the credits for a qualification. Students who complete the Bachelor of Economics successfully will be able to pursue further studies in Economics, or a related cognate area of learning, at NQF level 8.

Mode of Delivery

This programme will be offered on the full time, part-time and distance modes of study.

Requirements for Qualification Award

The Bachelor of Economics will be awarded to candidates credited with a minimum of 365 NQF credits and who have met the detailed qualification requirements as outlined below. In addition, candidates must meet the administrative and financial requirements as spelt out in Part 1 of the NUST Yearbook.

Transition Arrangements

The revised Bachelor of Economics will be phased out in 2018 with minimal disruption to existing students' learning progression. The last intake of 1st year students for the current programme is the 2017 intake.

Students who are registered in 2016 for the 1st year of the old curriculum, and who do not meet the rules for progression to the 2nd year at the end of 2016, will be required to change their registration to the revised programme (revised curriculum), and will be granted credits on a course-by-course basis in accordance with information in the Table below. Similarly, students who are registered in 2016 for the 1st year of the old curriculum, and who meet the minimum requirements for progression to the 2nd year at the end of 2016, will also be required to transition to the revised programme (revised curriculum). Students who are registered in 2016 for the 2nd year of the old curriculum will be required to complete their studies, based on the requirements of the old curriculum.

The revised three-year Bachelor of Economics (revised curriculum) will take effect from January 2018 with the implementation of the 1st and 2nd years. The revised programme will be fully implemented by 2019. Courses will only be offered based on the new/revised syllabi in 2018 (1st and 2nd year), 2019 (3rd year). Students who fail any of the courses on the old curriculum will be required to repeat such courses based on the syllabi of new/revised corresponding courses (please refer to the Table, below, for information on the new/revised corresponding courses to be done, if courses on the old curriculum are failed).

BACHELOR OF ACCOUNTING (Revised Curriculum– Phasing in 2024)

07BGAC

NQF Credits: 372

Description

The Bachelor of Accounting degree represents a coherent introduction to the broad knowledge, concepts, and problem-solving techniques in the areas of accounting and finance. The degree aims to equip students with the required cognitive/intellectual, practical, and key transferable skills, and apply these to complex accounting and financial issues in the different contexts of business organisations to produce employable graduates in the competitive marketplace in government, commerce and industry.

The Diploma in Accounting and Finance, as a first exit level prepares students for self-directed application of knowledge and skills in dealing with accounting issues in different types of organisations.

Criteria for Admission

Candidates may be admitted to this programme if they meet the General Admission Requirements of the Namibia University of Science and Technology (NUST) and comply with the additional requirements below:

- a minimum of 30 points out of five (5) subjects which includes at least a C symbol in Mathematics / Accounting, based on the NUST Admission Points System, using a combination of NSSC Ordinary/IGCSE Level and/or NSSC – AS/HIGCSE Level or equivalent. A prospective candidate must also have a minimum of a C symbol at NSSC Ordinary Level in English as a Second Language or a D symbol in English as a First Language.
- Candidates who meet the Mature Age Entry requirements of the Namibia University of Science and Technology (NUST) may be considered, but will be required to comply with the additional requirements below:
 - obtain at least 60% in both English and mathematics proficiency tests.
 - two years of work experience in accounting and finance related fields.

Articulation Arrangements

Transfer of credits will be treated according to NUST regulations on Recognition of Prior Learning (RPL). These regulations provide for course-by-course credits and credit transfer by volume under certain academic conditions. The maximum credit that can be granted is 50% of the credits for a qualification. No exemptions will be awarded for NQF Level 7 courses.

Subject to the minimum requirements, graduates of the Bachelor of Accounting degree will ordinarily be able to pursue further studies at NQF Level 8 in a similar or a related cognate area of learning, at NQF Level 8.

Graduates will be encouraged to pursue professional qualifications such as becoming Chartered Management Accountants, Chartered Financial Analysts (CFA), Chartered Accountants (CA) and Chartered Secretaries.

Furthermore, the content of the NUST Bachelor of Accounting degree is aligned to the content of the Association of Chartered Certified Accountants (ACCA) so that NUST Bachelor of Accounting graduates can receive more exemptions from the professional body. NUST graduates currently qualify to receive exemptions from 4 (four) ACCA modules.

Mode of Delivery

This programme will be offered on full-time and part-time modes through flexible delivery options and methodologies in accordance with NUST rules and regulation.

Requirements for Qualification Award

The Bachelor of Accounting will be awarded to candidates credited with a minimum of 372 NQF credits and who have met the detailed requirements as set out below. In addition, students are required to meet the administrative and financial requirements as stated in as spelt out in the NUST General Rules and Regulations Prospectus.

Transition Arrangements

This programme replaces the current Bachelor of Accounting programme. The last intake for the out-phasing programme is January 2023. The revised curriculum will be phased-in starting January 2024 with no disruption to existing students' learning progression.

Students who are registered in 2023 for the 1st year of the out-phasing programme (old curriculum), and who fail more than 50% of the courses at the end of 2023, will be required to change their registration to the revised curriculum in 2024. These students will be granted credits on a course-by-course basis in accordance with information in the Table below. Equally, students who are registered in 2023 for the 1st year of the out-phasing programme (old curriculum) and who meets the requirements to progress to 2nd year at

the end of 2023, will be required to change their registration to the revised curriculum in 2024. These group of students however, will be required to register for two courses namely *Information Competence* and *Introduction to Business Management* in addition to their 2nd year workload.

Students who are registered in 2023 for the 2nd year of the out-phasing programme (old curriculum) and who meet all requirements to progress to 3rd year will be required to complete their studies, based on the requirements of the old curriculum in 2024.

The Bachelor of Accounting (revised curriculum) takes effect from January 2024 with a concurrent implementation of 1st and 2nd year in 2024, whereas 3rd year will be implemented in 2025. Students who fail any of the courses on the old curriculum will be required to repeat such courses based on the syllabi of new/revised corresponding courses (please refer to the Table below, for information on the new/revised corresponding courses to be done, if courses on the old curriculum are failed).

The old curriculum of the Bachelor of Accounting will be completely phased out by the end of 2026, after which students must automatically switch to the revised curriculum, and fulfil all requirements based on the new curriculum.

**BACHELOR OF ACCOUNTING
(Old Curriculum– Phasing out 2026)**

07BOAC

NQF Level: 7

NQF Credits: 398

NQF Qualification ID: Q0300

Description

The Bachelor of Accounting is intended for students who wish to work as accountants in various types of businesses including pursuing further academic studies. The degree represents a coherent introduction to the broad knowledge, concepts and problem-solving techniques in the areas of Management Accounting, Financial Accounting, Taxation and Auditing. Students will have the opportunity to develop the required cognitive/intellectual skills, practical skills and key transferable skills, and apply these to complex accounting issues in the context of different business organisations. The Diploma in Accounting and Finance, as a first exit level, prepares students for self-directed application and knowledge and skills in dealing with accounting issues in different types of organisations including manufacturing concerns.

Criteria for Admission

Candidates may be admitted to this programme if they meet the General Admission Requirements of the Namibia University of Science and Technology and comply with the additional requirements below:

- * a minimum of 25 points out of five (5) subjects which includes Mathematics/Accounting and English, based on the University's Admission Point System, using a combination of NSSC Ordinary Level and/or NSSC Higher Level subjects with at least a "E" symbol at NSSC Ordinary Level in English and at least a "D" symbol at NSSC Ordinary Level in Mathematics or Accounting.

Candidates who meet the Mature Age Entry requirements of the Namibia University of Science and Technology may be considered, but will be required to comply with the additional requirements below.

- * Obtain at least 50% for the English Proficiency test and 60% for the Mathematics proficiency test.

Articulation Arrangements

Transfer of credits will be dealt with according to the University's regulations on Recognition of Prior Learning. These regulations provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit that can be granted is 50% of the credits for a qualification.

Subject to the minimum requirements, graduates of the Bachelor of Accounting will ordinarily be able to pursue further studies at NQF Level 8 by enrolling for the Postgraduate Certificate in the Theory of Accountancy (PG CTA). Other study opportunities include a Bachelor of Accounting Honours degree or admission to professional examinations for the Association of Chartered Certified Accountants (ACCA), Chartered Institute of Management Accountant (CIMA), Chartered Financial Analyst (CFA) and the Institute of Chartered Secretaries – Southern Africa (ICSA).

Mode of Delivery

This programme will be offered on the full-time, part-time and distance modes in accordance with University's rules and regulations.

Requirements for Qualification Award

The Bachelor of Accounting will be awarded to candidates credited with a minimum of 398 NQF credits and who have met the detailed programme/qualification requirements as set out below. In addition, students should meet the administrative and financial requirements spelt out in Part 1 of the NUST Prospectus.

Teaching and Learning Strategies

The requirements of the NQF underline the acquisition of cognitive skills and competencies exceeding the knowledge and understanding of subject-specific knowledge items and professional/technical competencies. Thus, the qualification focuses on the engagement of students in an interactive learning process in order to provide for the development of generic cognitive and intellectual skills, key transferable skills, and, as the case may be, subject-specific and/or professional/technically practical skills. This learning process will be facilitated both inside and outside the lecture room, requiring specific tasks to be carried out by the student. This facilitation will make use of, inter alia, tutorials, case studies, problem based learning and individual and/or group work. The progress of learning embedded in such tasks will be monitored, recorded and assessed.

This programme also includes a component of Work Integrated Learning (WIL) that requires students to integrate and apply the knowledge obtained in the four major areas of Financial Accounting, Management Accounting, Auditing and Taxation, which together with the stimulated office environment created in the Computerised Accounting Laboratories.

WIL shall be offered on a 3-week continuous full-time and part-time block-release in the sixth semester. Students shall also have the opportunity to take the course through the distance mode. WIL, also referred to as Cooperative Education, is the process of integrating work experiences with learning in a way traditional education cannot do. It provides students with opportunities to:

- * Execute tasks associated with accounting and finance rather than just reading about them;
- * Network with professionals and build relationships that can assist students in their future endeavours while providing a professional environment;
- * Have access to companies/firms for full time positions after graduation once good working relationships have been established;
- * Interact with people from diverse backgrounds and develop interpersonal skills that are not possible in a classroom environment;

WIL is important in improving the characteristics of the graduates to meet industry's needs in line with the University's vision and Strategic Plan (PSP-4). It offers opportunity for innovation and creative when students are able to experiment in the work place with what they have learnt in class. This experience is enhanced through the completion of well-structured, monitored and assessed industry-based accounting and finance-related assignments/projects right from their first year through to their third year.

Assessment Strategies

Students will be assessed through continuous and summative assessment. These assessments will focus on the achievement of qualification outcomes and take the form of problem-solving exercises, case studies, report writing, practical application of skills and competencies, tutorials and questioning (tests and/or examinations). Students will write tests/assignments and end-of-semester examination in each course during which their knowledge and understanding of selected course content, their application of concepts and principles, as well as their ability to integrate the contents of different course topics and even different courses (i.e. disciplines) will be assessed. The continuous assessment is made up of least two class tests and/or assignments and shall depend on the mode of study. Continuous assessment and the end-of-semester examination will contribute as follows to the final mark for all core courses in Accounting and Finance.

Full-time and Part-time Modes

Continuous assessment: 40% of the final mark

Final examination: 60% of the final mark

Distance Mode

Continuous Assessment: 40% of the final mark

Final Examination: 60% of the final mark

A candidate will gain admission to the examination by obtaining a continuous assessment mark of at least 40%. In order to pass a course, students need a final mark of at least 50% subject to a sub-minimum of 40% in the examination. Due to the highly technical/practical nature of the accounting sub-systems and the constantly changing international accounting standards, candidates will only be allowed one supplementary (2nd opportunity) examination. There will not be any further opportunities.

Assessment of WIL

- * A report shall be structured by the Departmental Co-ordinator indicating the tasks that will be performed in specific work places in collaboration with the Director of the Centre for Cooperative Education (CCE) and the representative of the selected organisation.
- * Students are prepared for WIL by the CCE (both the selected organisation and NUST requirements shall be discussed and agreed upon during such sessions).
- * Industry visits are done by the Director and the Departmental Representative to ensure that the agreed tasks are assigned to students and also to monitor each student's progress.
- * Students shall write reports that are presented to the selected organisation and NUST representatives in addition to completing the report.
- * Upon completion of WIL, the assessment results shall be as follows:

Basis	%
Portfolio comprising: Self Reflection Report, Personal Dev. Plan, Log sheets & Tasks schedules	50
Performance Evaluation Report by Industry Mentor & Departmental representative visits	30
Presentation by Student	20
Total	<u>100</u>

Transition Arrangements

There is no significant transition arrangement as the review resulted in minor changes to the programme. However, students who have failed either or both of the two revised courses, Auditing 200 and Taxation 200 will have to complete the new courses.

**BACHELOR OF ACCOUNTING (CHARTERED ACCOUNTANCY)
(Revised Curriculum – Phasing in 2024)**

07BCAC

NQF Credits: 397

Description

The Bachelor of Accounting (Chartered Accountancy) degree is intended for students who wish to pursue a career in accounting and related fields, in and out of public practice as Chartered Accountants (CA’s). The program exposes students to the broad knowledge, concepts, and problem-solving techniques in the core areas of Financial Accounting; Financial Management and Cost Accounting; Taxation and Auditing as well as the skills required of an entry-level CA to cope with the 4th and future industrial revolutions.

The programme aims to produce CA’s, having the potential to be responsible leaders, who behave ethically and create sustainable value for a wide range of stakeholders within an organizational context. This will be achieved by demonstrating technical competencies as well as professional values and attitudes and enabling competencies. The degree aims to equip students with the required cognitive; intellectual; practical; and key transferable skills to apply these to complex accounting issues in the context of different business organisations.

Criteria for Admission

Candidates may be admitted to this programme if they meet the General Admission Requirements of the Namibia University of Science and Technology (NUST) provided that they have obtained **35** aggregate points on the NUST evaluation scale over the **best five (5)** subjects, which must include Mathematics and English. In addition, candidates must comply with the following additional requirements below:

Admission based on Namibian School Leaving Certificates 2021 onwards.

Prospective students should have a minimum of 35 points out of five (5) subjects which include English and Mathematics subject to the following requirements:

Subject	NSSCO/IGCSE/O-Level	AS Level / NSSCAS	NSSCH/A-Level/HIGCSE
English	C (minimum)	e (minimum)	4 or E (minimum)
Mathematics	C (minimum)	d (minimum)	3 or E (minimum)
	Where a student obtained a “C” symbol or higher on the NSSCO/IGCSE/O-Level in accounting then a “D” symbol in mathematics would be acceptable.	Where a student obtained a “D” symbol or higher on the AS-level/NSSCAS in accounting then a “E” symbol in mathematics would be acceptable.	Where a student obtained a “level 2” symbol or higher on the NSSCH/A-level/HIGCSE in accounting then a “Level 4” symbol in mathematics would be acceptable.

- A prospective student with English on NSSCO/ IGCSE/ O-Level must obtain a minimum of a C symbol in English as a Second Language or a D symbol in English as a First Language. The entrance requirement for English on AS-level, applies equally to students who have English either as a First, or as a Second language.
- All prospective students who are accepted into the programme without any prior exposure to Accounting, will be required to complete an Introduction to Accounting module within the Financial Accounting course, once their first year of studies commences.
- Prospective international students will be evaluated in terms of the above table based on equivalent scores.

Obtaining the minimum number of points on the admission scale, however, does not guarantee admission. Admission is based on available capacity within the department and is awarded based on merit. In cases where the demand exceeds capacity, preference shall be given to the students with the higher number of points as calculated based on the NUST point scale guided by matters of equity as outlined by the National Policy.

Articulation Arrangements

Transfer of credits will be treated according to NUST regulations on Recognition of Prior Learning (RPL). These regulations provide for course-by-course credits and credit transfer by volume under certain academic conditions. The maximum credits that can be granted is 50% of the credits for a qualification.

Subject to the minimum requirements, graduates of the Bachelor of Accounting (Chartered Accountancy) will ordinarily be able to pursue further studies at NQF Level 8. Students are not expected to complete the work integrated learning (WIL) course, however, on successful completion of the degree graduates are encouraged to sign a training contract with an accredited training office to undergo a structured training programme as required by ICAN to prepare them as CAs in the future.

Mode of Delivery

This programme will be offered on full-time mode through flexible course content delivery options and methodologies in accordance with NUST rules and regulation.

Requirements for Qualification Award

The Bachelor of Accounting (Chartered Accountancy) will be awarded to candidates credited with a minimum of 397 NQF credits and who have met the detailed requirements as set out below. In addition, students are required to meet the administrative and financial requirements as spelt out the NUST general rules and regulations.

Semester progression requirements

All students are required to obtain a cumulative weighted average semester mark of 45% per whole year module. Failing which, students are required to attend the mid-year academic intervention program (winter school) in an attempt at improving their cumulative weighted average semester mark.

Academic intervention program (winter school)

Each year the department will host an academic intervention program during the university's June/July midyear recess. This intervention is known as the "winter school". The winter school aims to identify sub-performing students and offer remedial action timeously. The programme will provide additional teaching, learning and assessment opportunities. Students failing to meet the semester progression requirements are required to attend the winter school (i.e., compulsory attendance for students with a weighted average midyear mark **below 45%**).

However, winter school is open to all students who wish to improve their cumulative weighted average semester mark, (attendance is voluntary for students who obtained **above 45%**). The winter school assessment will act as a supplementary assessment opportunity for assessment 3 (the mid-year examination). Therefore, the winter school result will replace the assessment 3 mark. Where students are unsuccessful in improving their cumulative weighted average semester mark, the mark pre-winter school will remain as is. The above academic intervention arrangements are subject to changes at the section's discretion.

Assessment strategies

Students will undergo continuous and final assessments to evaluate their progress. These assessments will specifically measure the attainment of course and qualification objectives, which encompass the students' demonstration of professional values and attitudes, as well as their development of enabling skills and technical competencies.

The assessments will encompass various methods such as presentations, problem-solving tasks, case studies, written reports, interactive tutorials, questioning (tests and/or exams), digitalbased projects and the practical application of skills and competencies. The ability to integrate the principles of different course topics and even different courses (i.e., disciplines) will be assessed periodically. These practical applications may include but are not limited to personal declaration of ethical principles, group work assignments and presentations, compilation of portfolios of evidence, engagement in community service activities, and integrated rubric-based assessments. Assessments will be delivered through a hybrid or blended mode that combines the use of the e-assessment tools and physical assessments.

Quality Assurance Requirements

Each course (please refer to the Detailed Qualification Requirements) will have one or more examiners and one or more moderators. Moderators will be identified both internally and externally. The required minimum qualification of the moderator should be a master's degree in a related field of study or a professional qualification in Accounting; Auditing; Tax or Finance (registered with ICAN/SAICA or the Public Accountants and Auditors Board (PAAB) in Namibia).

BACHELOR OF ACCOUNTING (CHARTERED ACCOUNTANCY)
(Phasing out 2026)

07BACC

NQF Level:

NQF Credits: 397

NQF Qualification ID:

Description

The Bachelor of Accounting (Chartered Accountancy) is intended for students who wish to pursue careers in Accounting in the public practice (chartered accountant), including auditing and taxation. The programme represents a coherent introduction to the broad knowledge, concepts and problem-solving techniques in the core areas of Management Accounting, Financial Accounting, Taxation and Auditing. Students will have the opportunity to develop the required cognitive/intellectual skills, practical skills and key transferable skills, and apply these to complex accounting issues in public practice mainly in the auditing firms.

The Bachelor of Accounting (Chartered Accountancy) specifically aims at:

- providing students with a sound foundation in the fundamental concepts, theories and frameworks of the four sub-systems of accounting;
- developing the ability of students to analyse information from a wide range of sources;
- equipping students with the requisite skills to work effectively as individuals and as members of a team;
- enabling students to communicate effectively in the workplace.

The programme also intends to provide a diverse range of skills and competencies that are both discipline-specific and job-related and facilitates the development of highly generic cognitive and intellectual skills that would enable graduates to apply their knowledge and learnt competencies to the practices of Auditing, Taxation, Financial and Management Accounting at a more complex level compared to the general programme, taking into consideration international generally accepted accounting practices.

Criteria for Admission

Candidates may be admitted to this programme if they meet the General Admission Requirements of the Polytechnic of Namibia and comply with the additional requirements below:

- a minimum of 30 points out of five (5) subjects which include Mathematics and English, based on the Polytechnic Admission Point System, using a combination of NSSC Ordinary Level and/or NSSC Higher Level subjects, with at least an E symbol at NSSC Ordinary Level in English and at least a D symbol at NSSC Ordinary Level in Mathematics.
- the Department reserves the right to amend the admission requirements as and when necessary

Candidates who meet the Mature Age Entry requirements of the Polytechnic of Namibia may be considered.

Articulation Arrangements

Transfer of credits will be dealt with according to the Polytechnic's regulations on Recognition of Prior Learning. These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions.

Subject to the minimum requirements, graduates of the Bachelor of Accounting (Chartered Accountancy) will ordinarily be able to pursue further studies at NQF Level 8 by enrolling for the Postgraduate Certificate in the Theory of Accountancy (PGCTA).

Mode of Delivery

The programme will be offered on the full-time mode in the initial period of three years. Part-time and distance modes will be considered thereafter in accordance with PoN rules and regulations.

Requirements for Qualification Award

The Bachelor of Accounting (Chartered Accountancy) will be awarded to candidates credited with a minimum of 397 NQF credits and who have met the detailed programme/qualification requirements as set out below. In addition, students should meet the administrative and financial requirements spelt out in the Yearbook (Part 1) of the Polytechnic of Namibia.

Students are not expected to be on the internship (WIL) but, on completion graduates will be expected to be attached to recognised audit firms as trainees (articleship) for a minimum of three years and undergo a structured training to prepare as chartered accountants in the future.

Assessment strategies

Students will be assessed through continuous and summative assessment. These assessments will focus on the achievement of qualification outcomes and take the form of problem-solving exercises, practical structured case studies, report writing, practical application of skills and competencies, tutorials and questioning (tests and/or examinations). Students will write tests/assignments and an end-of-semester examination in each course during which their knowledge and understanding of selected course content, their application of concepts and principles, as well as their ability to integrate the contents of different course topics and even different courses (i.e. disciplines) will be assessed.

The continuous assessment is made up of at least two class tests and/or assignments including an assessment of attendance of classes and/or tutorials depending on the mode of study. More weighting is given to continuous assessments in the core courses. Continuous assessment and the end-of-semester examination will contribute as follows to the final mark for all core courses of this programme as follows:

Full-time and Part-time modes:

Continuous Assessment: 50% of the final mark
 Final examination: 50% of the final mark

A candidate will gain admission to the examination by obtaining a continuous assessment mark of at least 40%. In order to pass a course, students need a final mark of at least 50% subject to a sub-minimum of 40% in the examination.

Due to the highly technical/practical nature of the accounting sub-systems and the constantly changing International Accounting Standards, candidates will only be allowed one supplementary (2nd opportunity) examination. A candidate must obtain a sub-minimum of at least 40% in the examination for all the level 7 courses in order to qualify for a 2nd opportunity examination. There will not be any further opportunities.

Transition Arrangements

The new Bachelor of Accounting (Chartered Accountancy) will take effect from January 2016 for all first year students and will be completely phased in by 2018. There will be no intake for the Bachelor of Accounting (Chartered Accountancy- old curriculum in 2016). Third-year students enrolled for The Bachelor of Accounting (Chartered Accountancy) – Old Programme – in 2015 will be granted time until the end of 2017 to complete the old degree. Should they fail to do so, they will be allowed to transition to the new programme, but will be required to complete the core Accounting courses listed in Table 15.1 below.

Students who are registered for 1st year in 2015, and have passed and meet the admission criteria for the new programme may transition to the new curriculum and will be given credits for service and institutional courses. However they will be required to take Financial Accounting 100 under the new curriculum.

Students who are registered for 1st year in 2015, and have failed and meet the admission criteria for the new programme may transition to the new curriculum and will be given credits for service and institutional courses. However they will be required to take Financial Accounting 100 under the new curriculum.

The students in the above two categories will lose credits for Financial Accounting 101 and Financial Accounting 102, should they have passed these in 2015.

Students who are registered for 2nd year in 2015, and have passed and wish to transition to the new curriculum, may apply to transition to the new curriculum subject to determination by the department on a case by case basis but will be required to take all new courses under the new curriculum with no equivalents.

Courses with no equivalents under the new curriculum

QUALIFICATIONS OFFERED

Diploma in the Theory of Accounting (ADTA) (Revised - Phased in 2016)

07DTOA

DIPLOMA IN THE THEORY OF ACCOUNTING (ADTA)

07DTOA

(Revised – Phased in 2016)

NQF Level: 7

NQF Credits: 120

NQF Qualification ID: Q0251

Description

This programme is purposefully designed to prepare students who completed their Accounting degrees (NQF Level 7 or equivalent) at institutions that are not accredited by SAICA, and/or the Institute of Chartered Accountants in Namibia (ICAN), to enter a Post-Graduate Certificate in the Theory of Accounting (PG CTA), which is required by SAICA and ICAN for entry to Part 1 of the Qualifying Examinations (QE1) leading to the Chartered Accountant (Namibia) (CA, NAM). Furthermore, the programme targets students who completed their Accounting degrees (NQF Level 7 or equivalent) at a SAICA/ICAN accredited tertiary institution, but did not qualify for entry into the PG CTA. Students will be equipped with the cognitive/intellectual, practical and key/transferable skills required for admission into the PG CTA.

Values and Attitudes

On completing the programme, students should be able to conduct themselves in an ethical and professional manner and comply with business laws and regulations. In particular, according to the Code of Ethics of the International Federation of Accountants, students must:

- display honesty (integrity), social responsibility (consideration of the public interest), competence, objectivity and professional demeanour by their timeliness, due care, courteousness, respect, responsible actions and reliability;
- pursue excellence (continual improvement and life-long learning) and independence;
- maintain the confidentiality of client information.

Criteria for Admission

In order to be considered for admission to this programme, students should have passed an appropriate Bachelor's degree at NQF Level 7, or equivalent, and should have passed or have been exempted from the following courses or their equivalents within the last three years:

Financial Accounting 3
Management Accounting and Finance 3
Auditing 3
Taxation 3 (Namibian)
Quantitative Methods/Specialised Statistics
Company Law (Namibian)
Accounting Information Systems

Exceptions may be based on the Recognition of Prior Learning (RPL) and candidates must demonstrate that they possess the necessary learning abilities to succeed in the programme.

Programme Duration

Ordinarily the Diploma in the Theory of Accounting (ADTA) programme will be covered over a minimum period of one (1) year.

Articulation Arrangements

Transfer of credits will be dealt with according to the Polytechnic's regulations on recognition of prior learning (RPL). These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions.

Students who complete this programme successfully, that is, obtain a final mark of at least 55% for Advanced Financial Accounting and at least 50% for all other courses, will qualify for entry into a Post-Graduate Certificate in the Theory of Accountancy (PG CTA) and, if successful, will be admitted to Part 1 of ICAN's Qualification Examination towards the Chartered Accountant (Namibia), (CA, NAM).

Mode of Delivery

The programme will be offered on the full-time and part-time modes of study. The distance mode may also be considered in due course to accommodate regional students.

Requirements for Qualification Award

This qualification will be awarded to students credited with a minimum of 120 credits (all at NQF Level 7) in accordance with the requirements set out below.

In addition, students must meet the administrative and financial requirements as spelt out in the Year Book (prospectus) of the Polytechnic of Namibia.

As earlier stated in paragraph 11 above, to complete the ADTA programme, students must obtain a final mark of 55% for Advanced Financial Accounting and 50% for all other courses in the same academic year. Students who are unable to complete the programme in the year-end examination may write the second opportunity examination to complete the programme, based on the requirements of each subject.

Students who fail an academic year, that is, do not pass all four courses in the same academic year (including second opportunity examinations), cannot continue on the CTA route unless they register for all four courses the next year. Students who passed some courses may, however, retain the credits for such courses and re-do the outstanding courses the following year in order to obtain the ADTA qualification. Students who fail two consecutive academic years will not be allowed to re-register for the programme.

Assessment strategies

Students will be assessed through continuous and summative assessment. These assessments will focus on the achievement of qualification outcomes and take the form of problem solving exercises, case studies, report writing, practical application of skills and competencies, tutorials and questioning (tests and/or examinations).

Students will write tests and examinations during the academic year through which their knowledge and understanding of selected course content, their application of concepts and principles as well as their ability to integrate the contents of different course topics and even different courses (that is disciplines) are assessed.

Students will receive the following feedback on their assessments and tutorials in all four courses:

- complete suggested solutions to all tutorial questions and all tests,
- markers' comments when results are released,
- students may review their marked tests and consult lecturers to discuss their performance and find ways to solve their problems.

ICAN's open book policy will be followed which basically allows students access to the professional body's handbook, including international accounting statements (IAS/IFRS), auditing statements (ISA) and applicable statutes during tests and examinations. Students' final marks in all four courses will comprise 70% examination mark and 30% year mark.

Students' year marks in all four courses will comprise 50% of the two best out of three formal tests written during the current academic year and 50% of the mid-year examination. To obtain admission to the final examination a student must obtain a year mark of at least 45% in Advanced Financial Accounting and 40% in the other courses.

Transfer of Credits from Other Institutions

Transfer of credits will be dealt with according to the University's regulations on recognition of prior learning (RPL). These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions.

Programme Timetable

The programme schedule is detailed by week and modules and shows the distribution of how time will be spent on structured studies (lectures) at the University and unstructured studies required between the consecutive weeks. The following arrangement will be followed:

Lectures will be offered over weekends to both full-time and part-time students as far as possible. Tests will be conducted Fridays and Saturdays as far as possible.

(Revised – Phased in 2020)**

07BBMN

NQF Level:

NQF Credits: 375

NQF Qualification ID:

Description

The Bachelor of Business Management provides a methodical and logical introduction to the broad knowledge, principles, concepts, data and theories in the business management domain. The programme exposes students to business and functional disciplines, the interdependence of these disciplines and the larger role of business in society. Students will acquire cognitive skills and key transferable skills that are necessary for addressing pressing challenges in the current Namibian market and economy. Furthermore, they will develop essential graduate attributes to enhance practical problem-solving, critical thinking, good communication, teamwork and culturally sensitive global and responsible citizenship.

Criteria for Admission

Candidates may be admitted to this programme if they meet the General Admission Requirements of the Namibia University of Science and Technology (NUST) (GI2.1 in Part 1 of NUST Yearbook). In addition, students should have a minimum D symbol in Grade 12/NSSCO Mathematics.

Mature age candidates will be considered provided they meet the mature entry' requirements and pass the mature age entrance examinations of NUST (GI2.2 in Part 1 of NUST Yearbook).

Articulation Arrangements

Transfer of credits will be dealt with according to NUST's regulations on Recognition of Prior Learning. These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. The maximum credit that can be granted is 50% of the credits required for a qualification.

Students who successfully complete the Bachelor of Business Management will ordinarily be able to pursue further studies in Business Management, or a related cognate area of learning, at NQF level 8.

Mode of Delivery

This programme will be offered on full time, part-time and distance modes of study in accordance with NUST rules and regulations.

Requirements for Qualification Award

The Bachelor of Business Management will be awarded to students credited with a minimum of 375 NQF credits, and who meet the detailed requirements below. In addition, students must meet the administrative and financial requirements as spelt out in Part 1 of Namibia University of Science and Technology (NUST) Yearbook.

Transition Arrangements

There are no significant changes between the current versions of the Bachelor of Business Management (old curriculum) and the Bachelor of Business Management (revised curriculum).

The Bachelor of Business Management (old curriculum) will be phased out by 2022 with minimal disruption to existing students' learning progression. The last intake of 1st year students for the out-phasing programme (old curriculum) was in January 2019.

Students who are registered in 2019 for the 1st and 2nd year of the out-phasing programme (old curriculum), and who fail more than 50% of the courses at the end of 2019, will be required to change their registration to the Bachelor of Business Management (revised curriculum) in 2020. Students who are registered in 2019 for the 1st year of the out-phasing programme (old curriculum) and who meet all requirements to progress to 2nd year will be required to transition to the revised curriculum in 2020.

Students who are registered in 2019 for the 2nd year of the out-phasing programme (old curriculum) and who meet all requirements to progress to 3rd year curriculum will be required to complete their studies, based on the requirements of the old curriculum. Similarly, students who are registered in 2019 for the 3rd year of the old curriculum will be required to complete their studies, based on the requirements of the old curriculum.

The Bachelor of Business Management (revised curriculum) takes effect from January 2020 with concurrent implementation of 1st and 2nd year, while the 3rd year takes effect from 2021. Courses will only be offered based on the new/revised syllabi in 2020. Students who fail any of the courses on the old curriculum will be required to repeat such courses based on the syllabi of new/revised corresponding courses (please refer to Table 15.1, below, for information on the new/revised corresponding courses to be done, if courses on the old curriculum are failed).

The deadline for the complete phasing out of the Bachelor of Business Management (old curriculum) is 2022, after which students must automatically change registration to the revised programme (revised curriculum) and fulfil all requirements of the new curriculum.

**BACHELOR OF ENTREPRENEURSHIP AND INNOVATION MANAGEMENT
(Revised – Phased in 2023)**

07BOEN

NQF Credits: 376

Description

The Bachelor of Entrepreneurship and Innovation Management aims at developing entrepreneurial knowledge and culture among students. The programme is designed to re-orientate students' thinking about starting and managing their own businesses, thereby creating jobs for themselves and others. The programme will focus on enabling students to identify and evaluate local and global business opportunities; create new independent business ventures or new ventures within existing firms; developing creative thinking, identifying and implementing innovative ideas, and understand ethical and social responsibility of entrepreneurs.

Criteria for Admission

Applicants will be admitted to this programme if they meet the General Admission Requirements of the Namibia University of Science and Technology (GI2.1 in Part 1 of NUST Yearbook). In addition, minimum E symbol in Mathematics Grade 12 at NSSCO level is required.

Mature age candidates will be considered provided they pass the mature age entrance examinations of the Namibia University of Science and Technology (GI2.2 in Part 1 of the NUST Yearbook).

Articulation Arrangements

Transfer of credits will be dealt with according to the Namibia University of Science and Technology's regulations on Recognition of Prior Learning. These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. The maximum credit that can be granted is 50 % of the credits for a qualification.

Students who complete the Bachelor of Entrepreneurship and Innovation Management successfully will ordinarily be able to pursue further studies in Entrepreneurship, or a related cognate area of learning, at NQF level 8.

Mode of Delivery

This programme will be offered on a full-time and Part-time mode of study in accordance with Namibia University of Science and Technology's rules and regulations.

Requirements for Qualification Award

The Bachelor of Entrepreneurship and Innovation Management will be awarded to students credited with a minimum of 376 NQF credits, and who meet the detailed requirements below. In addition, students must meet the administrative and financial requirements of the Namibia University of Science and Technology Yearbook.

Transition Arrangements

The Bachelor of Entrepreneurship (old curriculum) will be phased out completely by 2027 with minimal disruption to existing students' learning progression. The last intake of 1st year students for the out-phasing programme (old curriculum) was in January 2022.

Students who are registered in 2022 for the 1st year of the out-phasing programme (old curriculum), and who fail more than 50% of the courses at the end of 2022, will be required to change their registration to the Bachelor of Entrepreneurship and Innovation Management (revised curriculum) in 2023. These students will be granted credits on a course-by-course basis in accordance with information in the Table below. Students who are registered in 2022 for the 1st year of the out-phasing programme (old curriculum) will be required to continue their studies, based on the requirements of the old curriculum in 2023.

Students who are registered in 2022 for the 2nd year of the out-phasing programme (old curriculum) and who meet all requirements to progress to 3rd year curriculum will be required to complete their studies, based on the requirements of the old curriculum. Similarly, students who are registered in 2022 for the 3rd year of the old curriculum will be required to complete their studies, based on the requirements of the old curriculum.

The Bachelor of Entrepreneurship and Innovation Management (revised curriculum) takes effect from January 2023 with implementation of 1st year in 2023, 2nd year in 2024 and 3rd year in 2025. Courses will only be offered based on the new/revised syllabi in 2023 (1st year courses). Students who fail any of the courses on the old curriculum will be required to repeat such courses based on the syllabi of new/revised corresponding courses (please refer to the Table below, for information on the new/revised corresponding courses to be done, if courses on the old curriculum are failed).

The deadline for the complete phasing out of the Bachelor of Entrepreneurship (old curriculum) is 2027, after which students must automatically change registration to the revised programme (revised curriculum) and fulfil all requirements of the new curriculum.

**BACHELOR OF ENTREPRENEURSHIP
(Old Curriculum - Phasing out 2027)**

07BENT

NQF Level: 7

NQF Credits: 395

NQF Qualification ID: Q0895

Description

The Bachelor of Entrepreneurship aims at developing an entrepreneurial knowledge and culture among students. The programme is purposely designed to re-orientate students' thinking into starting and managing their own businesses, thereby creating jobs for themselves and others. The programme will provide students with a systematic and coherent introduction to the key concepts, theories and problem-solving techniques needed to conceptualise, create and manage entrepreneurial ventures.

Criteria for Admission

Applicants will be admitted to this programme if they meet the General Admission Requirements of the Namibia University of Science and Technology. In addition, Mathematics at NSSC Ordinary or Higher level (IGCSE or HIGSCE) is recommended.

Mature age candidates will be considered provided they meet the requirements and pass the mature age entrance examinations of the Namibia University of Science and Technology.

Articulation Arrangements

Transfer of credits will be dealt with according to the Polytechnic's regulations on Recognition of Prior Learning. These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit that can be granted is 50 % of the credits for a qualification.

Students who complete the Bachelor of Entrepreneurship successfully will ordinarily be able to pursue further studies in Entrepreneurship, or a related cognate area of learning, at NQF level 8.

Mode of Delivery

This programme will be offered on the full-time mode of study in accordance with Polytechnic of Namibia's rules and regulations. The programme may be offered on part-time mode of study at a later stage should there be a sustainable demand.

Requirements for Qualification Award

The Bachelor of Entrepreneurship will be awarded to students credited with a minimum of 395 NQF credits, and who meet the detailed requirements below. In addition, students must meet the administrative and financial requirements as spelt out in the NUST rules and regulations.

Transition Arrangements

Since no new students were enrolled in 2013 and 2014, the students from the old curriculum, who have not completed their requirements for the programme, are given until 2015 to complete.

The old curriculum will be phased out in 2015. All students with outstanding pro-learning requirements should complete them during the 2015 academic year. The concerned students will be officially informed.

Students who were registered in 2012 for the 1st year of the out-phasing programme (old curriculum), and who fail more than 50% of the courses at the end of 2015, will be required to change their registration to the revised programme (new curriculum) and will be granted credits on a course-by-course basis in accordance with information in Table 15.1 below.

The new intake for the Bachelor of Entrepreneurship degree starts in January 2016. The new programme is significantly different from the previous programme, both in content and methodology.

The old curriculum will be phased out in 2015. All students with outstanding pro-learning requirements should complete them during the 2014 academic year.

Quality Assurance requirements

Each course (please refer to the Detailed Qualification Requirements) will have one or more examiners and one moderator. Moderators will be identified both internally and externally. The required minimum qualification of the moderator should be at least a Bachelor Honours degree or the equivalent in a related field of studies or the person must be a well-respected expert in the field. Lecturing staff will set and mark tests and/or examinations which will, together with relevant study material of that particular course and other material containing course learning outcomes in the context of the qualification learning outcomes, be forwarded to the moderator for moderation purpose, therefore, ensuring quality of the assessment and the qualification as a whole. Courses at NQF Level 7, the exit level for the programme, will be externally moderated.

**BACHELOR OF HUMAN RESOURCES MANAGEMENT
(Revised Curriculum - Phased in 2022)**

07HRM

NQF Level: 7

NQF Credits: 385

NQF Qualification ID: Q2314

Description

The Bachelor of Human Resources Management is designed to produce professionals who can perform Human Resources Management activities effectively in the new world of work. The programme will enable graduates to adapt to continuously changing workplace environments, while fostering an understanding of how learnt competencies affect development of professional human resources management, taking into consideration international best practices and standards.

Criteria for Admission

Candidates may be admitted to the Bachelor of Human Resources Management if they meet Namibia University of Science and Technology's General Admission requirements as indicated in the latest version of the Yearbook. The University's general admission requirements are contained in the Prospectus revised periodically.

Candidates who meet the Mature Age Entry requirements of the University will also be considered for admission.

Articulation Arrangement

Transfer of credits will be dealt with according to the NUST'S regulations on Recognition of Prior Learning. These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit that can be granted is 50% of the credits for a qualification. Graduates of the Bachelor of Human Resources Management will be able to pursue further studies in Human Resources Management, or a related cognate area of learning, at NQF level 8.

Mode of Delivery

The programme will be offered on full time, part time and distance mode of study in accordance with Namibia University of Science and Technology rules and regulations. These modes will incorporate a blended mode of study i.e. face-to-face as well as E- Learning.

Requirements for Qualification Award

The Bachelor of Human Resources Management will be awarded to students credited with a minimum of 385 NQF credits. In addition, students must meet the administrative and financial requirements as spelt out in the Prospectus of the Namibia University of Science and Technology.

Transition Arrangements

The Bachelor of Human Resources Management (Old curriculum) will be phased out systematically by 2026, with minimal disruption to existing students' learning progression. The last intake of 1st year students for the out-phasing programme (old curriculum) was in January 2021.

Students who are registered in 2021 for the first year of the phased-out programme (old curriculum) and who fail more than 50% of courses at the end of 2021 will be required to change their registration to the revised programme in 2022 and will be granted credits on a course-by-course basis following information in the Table below.

Students who are registered in 2021 for the first year of the phased-out programme (old curriculum) and who meets the requirements to progress to 2nd at the end of 2021, will be required to complete their studies based on the requirements of the old curriculum in 2022. More so, students who are registered in 2nd and 3rd year of the out-phasing programme (old curriculum) in 2021 will also be required to complete their studies based on the requirements of the old curriculum in 2022 and will be granted credits on a course-by-course basis following information in the Table below.

The revised Bachelor of Human Resources Management (new curriculum) will take effect from January 2022. Courses will only be offered based on the new/revised curriculum in 2022 (1st year), 2023 (2nd year) and 2024 (3rd year). Students who fail any of the courses on the old curriculum will be required to repeat such courses based on the syllabi of new/revised corresponding courses.

Please refer to the Table below, for detailed information on the new/revised corresponding courses to be done if courses on the old curriculum are failed.

The deadline for complete phasing out of the Bachelor of Human Resources Management (old curriculum) is 2026, after which students must automatically switch to the revised programme (new curriculum) and fulfil all requirements based on the new curriculum.

**BACHELOR OF HUMAN RESOURCES MANAGEMENT
(Old Curriculum - Phasing out 2026)**

07HRMB

NQF Level: 7

NQF Credits: 393

NQF Qualification ID: Q0255

Description

The Bachelor of Human Resources Management is purposefully designed to produce professionals who are capable of performing Human Resources Management activities effectively in diverse contexts. The programme provides a systematic and coherent introduction to the main theories, broad principles, concepts, data, and problem-solving techniques in the main cognate area of learning.

Further, this programme is designed to equip students with cognitive/intellectual skills, key transferable skills, practical skills, and a broad understanding of the role of human resources management in organisations and in terms of country/national competitiveness. The will enable graduates to adapt to continuously changing workplace environments, while fostering an understanding of how learnt competencies affect development of professional human resources management, taking into consideration international best practices and standards.

Criteria for Admission

Candidates may be admitted to the Bachelor of Human Resources Management if they meet the Namibia University of Science and Technology General Admission Requirements.

Candidates who meet the Mature Age Entry requirements of NUST will also be considered for admission.

Articulation Arrangements

This qualification articulates horizontally with other qualifications registered at level 7 of the Namibian Qualification Framework (NQF). It also vertically articulates with Bachelor in Human Resources Management or any other equivalent/relevant qualification registered at level 7 on NQF.

Transfer of credits will be dealt with according to the Polytechnic's regulations on Recognition of Prior Learning. These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit that can be granted is 50 % of the credits for a qualification. Graduates of the Bachelor of Human Resources Management will be able to pursue further studies in Human Resources Management, or a related cognate area of learning, at NQF level 8.

Mode of Delivery

The programme will be delivered on the full-time, part-time, distance mode of study incorporating methodologies such as e-learning.

Requirements for Qualification Award

The Bachelor of Human Resources Management will be awarded to students credited with a minimum of 393 NQF credits. In addition, students must meet the administrative and financial requirements as spelt out in the Polytechnic of Namibia Prospectus.

Transition Arrangements

The Bachelor of Human Resources Management (21BHUR) will be phased out systematically until 2019 with minimal disruption to existing students' learning progression. Arrangements have been made to phase out the programme by allowing students to finish the diploma programme and then seek admission to Honours programme.

The existing 07BHRM will be phased out systematically with least disruption to learning progression. Students who are in the first year 2015 will automatically transition to new curriculum whether they fail or pass any of the first year courses. Students in second (2nd) in 2015 will transition to new curriculum. If a student passes Performance Management and Productivity Measures (PMP612S) s/he will get credit waiver for the course but will be required to do the course Human Resources for Line Managers (Code to be confirmed) in addition to all 3rd year courses.

Students who are in third (3rd) year in 2015 continue with the current curriculum and finish studies in 2016. These students will only be affected by changes in curriculum if they fail any of the 3rd year courses. Consideration will be done on a case by case basis. The last intake of 1st year students for the out-phasing programme (07BHRM) will be in January 2015.

The revised Bachelor of Human Resources Management (new curriculum) will take effect from January 2016 and will be phased in completely by 2017. Courses will only be offered based on the new/revised curriculum in 2016 (1st year), 2016 (2nd year) and 2017 (3rd year). Students who fail any of the courses on the old curriculum will be required to repeat such courses based on the syllabi of new/revised corresponding courses. Please refer to the Table below, for detailed information on the new/revised corresponding courses to be done if courses on the old curriculum are failed.

**BACHELOR OF BUSINESS AND INFORMATION ADMINISTRATION
(Phased in 2017)**

07BBIA

NQF Level: 7

NQF Credits: 388

NQF Qualification ID: Q0273

Description

The Bachelor of Business & Information Administration aims at equipping students with broad cognitive/intellectual skills, key transferable skills, and practical skills, which would enable students to operate effectively as office administrators in general and the medical field. The programme is designed to provide a diverse range of skills and competencies that are discipline specific, job related and that would enable graduates to adapt to continuously changing workplace environments. The programme fosters an understanding of how learnt competencies affect development of professional skills. Students will have the opportunity to develop the required practical as well as key transferable skills, and apply these to address/solve Business & Information Administration related problems/challenges in the context of an organisation, a country or individual end-user.

Criteria for Admission

Candidates may be admitted to this programme if they meet the General Admission Requirements of the Namibia University of Science and Technology.

Mature Age candidates will be considered provided they meet the requirements and pass the mature age entrance examinations as required by the Namibia University of Science and Technology.

Applications will be scanned and possible exemption methods will be introduced for students with former knowledge of Business Applications.

Candidates who qualify to be exempted from Business Applications 1A will undertake a proper pre-assessment which will test their practical knowledge on the following:

- Keyboard competence and accuracy
- Speed ability of 15 w.p.m.
- Basic knowledge of MS Word

The passing mark for this assessment is 50 %.

Holders of the NUST Diploma in Office Management and Technology may be admitted into the programme with advanced standing on a course-by-course credit at the discretion of the Department.

Articulation Arrangements

Transfer of credits will be dealt with according to the NUST regulations on Recognition of Prior Learning. These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit that can be granted is 50 % of the credits for a qualification.

Graduates of the Bachelor of Business & Information Administration programme will be able to pursue further studies in Business & Information Administration or related disciplines at NQF Level 8.

Mode of Delivery

The programme shall be available on full time, part time, and distance modes in accordance with NUST rules and regulations. These may also be offered in a flexible delivery mode depending on the needs of students and availability of technology.

Requirements for Qualification Award

The Bachelor of Business & Information Administration will be awarded to students credited with a minimum of 388 NQF credits. Students are able to specialise in Business Administration or Medical Administration. In addition, students must meet the administrative and financial requirements as spelt out in the NUST Prospectus.

Transition Arrangements

The revised programme takes effect from January 2017. The existing 3-year Bachelor of Office Management & Technology degree programme will be phased out systematically with minimal disruption to existing students' learning progression and the deadline for complete phasing out of this programme is 2021.

The last intakes for the final year of the out-phasing programme (old curriculum/07 BOMT), will be in 2018. The last cohort of students, to be registered for the final year in 2018, would have until 2021 to complete the out-phasing programme (old curriculum/07 BOMT). Students who registered in 2016 will have until 2018 to complete the existing programme.

Students who fail any of the courses in the old curriculum will be provided with two opportunities to pass the failed courses. After first and second opportunities, such failed courses in the old programme will only be offered on the new curriculum effective from January 2017.

Students who are registered in 2016 for the 1st year of the out-phasing programme (old curriculum/07 BOMT), and who fail more than 50% of the programme at the end of the year, will be required to change their registration to the new programmes and will be granted credits on a course-by-course basis in accordance with information in the Table below.

Students enrolled for the existing programme may also opt to transition to the new programme, if they so wish, but will be required to make up specific deficiencies in accordance with the detailed requirements for the new curriculum. Students will be advised accordingly as to which courses to make-up based on the new curriculum.

Students who fail any of the courses on the old curriculum will be required to repeat the failed courses based on the syllabi of new/revised corresponding courses. Please refer to the Table below, for detailed information on the new/revised corresponding courses to be done if courses on the old curriculum are failed.

The deadline for complete phasing out of the existing programme is 2021, after which students must automatically switch to the new programme and make up for all outstanding courses based on the requirements of the new curriculum. If a student, who is registered on the existing programme, fails more than half the work load in any particular year his/her registration will automatically be changed to the new programme. The switch will consider courses already taken and their equivalents.

The deadline for complete phasing out of the Bachelor of Office Management & Technology (old curriculum/07 BOMT) is 2021 after which students must automatically switch to the new programme and fulfil all requirements based of the new curriculum.

Please Note

The Table above, only highlights new/revised courses in the Bachelor of Business & Information Administration that should be done if courses on the Bachelor of Office Management & Technology (old curriculum) are failed. Service courses from other Departments are excluded, but the rules of relevant Departments apply to this programme as well.

Teaching and Learning Strategies

The requirements of the NQF underline the acquisition of cognitive skills and competencies exceeding the knowledge and understanding of subject specific knowledge items and professional/technical competencies. Thus, the programme focuses on the engagement of students in an interactive learning process in order to provide for the development of generic cognitive and intellectual skills, key transferable skills, and, as the case may be, subject specific and/or professional/technical/practical skills.

This learning process will be facilitated both in and outside the classroom, requiring specific tasks to be carried out by the student. This facilitation will make use of, practical projects, tutorials, case studies, problem based learning and individual and/or group work. The progress of learning embedded in such tasks will be monitored, recorded and assessed.

This programme also includes a component of Work Integrated Learning (WIL) which aims at integrating work experiences with learning in a way traditional education cannot do. It provides students with opportunities to:

- Execute tasks associated with Office Management rather than just reading them. It also allows students to assess their interests in the office/administrative environment.
- Network with professionals and build relationships that can assist students in future endeavours while providing a professional environment.
- Interact with people from diverse backgrounds and develop interpersonal skills that are not possible only in a classroom environment.

A three way partnership will be established for purposes of WIL between the Namibia University of Science and Technology (academic staff and students), industry (private sector) and the public sector (Employers).

**BACHELOR OF PUBLIC MANAGEMENT
(Revised - Phased in 2021)**

07BPMA

NQF Level: 7

NQF Credits: 366

NQF Qualification ID: Q0679

Description

The Bachelor of Public Management is purposefully designed to train generalists for employment predominately in the public sector and civil society organisations, while also catering for the needs of the private sector. The programme provides a systematic and coherent introduction to the main theories, broad principles, concepts, data, and problem-solving techniques in the main cognate area of learning.

The programme's main emphasis is on governance and leadership in the varied, complex, and challenging settings of public action such as multi-level policy, governance and management processes, hybrid social enterprises, and public-private partnerships. On successful completion of the programme, graduates will acquire the relevant knowledge and skills in leadership, ethics, management of public and non-profit organisations, and public policy formulation.

Criteria for Admission

Candidates will be considered for admission to this programme, if they meet the General Admission Requirements of NUST.

Mature Age candidates will be considered provided they meet the requirements and pass the mature age entrance examinations of NUST. Mature Age candidates need to achieve 40% for English and Mathematics in the mature age entry examinations and have been employed for a minimum of three years in the relevant sectors.

Articulation Arrangements

Transfer of credits will be dealt with according to NUST's regulations on Recognition of Prior Learning. These provide for course-by-course credits, as well as credit transfer by volume under certain academic conditions (NUST Yearbook). Maximum credit that can be granted is 50 % of the credits for a qualification.

Students who graduate with the Bachelor of Public Management will be able to pursue further studies in Public Management, or a related field at NQF level 8.

Mode of Delivery

This programme will be offered on the Full-time, Part-time and Distance modes of study, in accordance with NUST's rules and regulations.

Requirements for Qualification Award

The Bachelor of Public Management will be awarded to students credited with a minimum of 366 credits, and who have met the detailed requirements below. In addition, students should meet the administrative and financial requirements spelt out in the NUST rules and regulations.

Transition Arrangements

The review of the Bachelor of Public Management (old curriculum) resulted in minimal changes. In this context, there is no significant difference between the old and the revised curriculum. The Bachelor of Public Management (old curriculum) will be phased out completely by the end of 2020. The last intake of 1st year students for the out-phasing programme (old curriculum) was in January 2020.

Students who are registered in 2020 for the 1st 2nd and 3rd year of the out-phasing programme (07BPMN), and who fail more than 50% of the courses at the end of the year, will be required to change their registration to the revised programme (new curriculum), and will be granted credits on a course-by-course basis in accordance with information in the table below.

The Bachelor of Public Management (revised curriculum) will take effect from January 2021 with concurrent implementation of 1st, 2nd and 3rd year. This implies that, courses will only be offered based on the new/revised syllabi in 2021. Students who fail any of the courses on the old curriculum will be required to repeat such courses based on the syllabi of new/revised corresponding courses (please refer to the Table below, for information on the new/revised corresponding courses to be done, if courses on the old curriculum are failed).

The deadline for the complete phasing out of the Bachelor of Public Management (old curriculum) is 2020, after which students must automatically change registration to the revised programme (revised curriculum) and fulfil all requirements of the new curriculum.

Assessment strategies

Continuous and summative assessment will be applied. These assessments will focus on the achievement of qualification outcomes and take the form of eAssessment, problem-solving exercises, individual or team level assignments, presentations, case studies, reports, practical application of skills and competencies, tutorials, practical projects and questioning (tests and/or examinations).

Some of the assessments may be done online. In accordance with NUST policy on Diversified Continuous Assessment, each course will have a minimum of four assessment events.

Courses that are examination-based will have at least two formal assessments.

The WIL component requires an attendance and activities list, supervisor's report and a portfolio to be compiled by the student. The student is monitored and assessed regularly throughout the semester. Final Assessment is done at the end of the semester and moderated externally.

07BHOM

Bachelor of Tourism Innovation & Development (Phased in 2019)

07BTID

Bachelor of Culinary Arts (Phased in 2019)

07BCNA

BACHELOR OF HOSPITALITY MANAGEMENT

07BHOM

(Revised – Phased in 2019)

NQF Level: 7

NQF Credits: 381

NQF Qualification ID: Q1176

Description

The Bachelor of Hospitality Management seeks to enable students to demonstrate a systematic, professional, scientific and technical knowledge, skills, and values needed to make decisions in the hospitality industry. The revised programme, will provide a systematic introduction to the major concepts, theories and problem-solving techniques of Hospitality Management to prepare students to diverse industry positions. The focus is on applied education for specialised industry positions with the emphasis on creating an operational base for planning and developing an understanding of the managerial aspects of the hospitality and industry.

This programme enable students to exit with the Certificate in Hospitality Operations at NQF Level 5, as first exit level upon successful completion of year 1. This Certificate allows the student to perform major operational activities in the various departments of hospitality establishments with minor supervisory activities. Further, it allows the student to pursue a career at a more temperate pace and allows for both professional and academic growth and development in the industry.

Criteria for Admission

Applicants must meet the General Admission Requirements of the Namibia University of Science and Technology to be considered for admission to this programme.

Graduates with a Diploma in Hotel Management from Polytechnic of Namibia, may be admitted to the Bachelor of Hospitality Management based on advance standing. Courses completed under the Diploma in Hotel Management may be granted credits on a course-by-course basis, and students will be required to complete all outstanding courses as per the requirements of the revised Bachelor of Hospitality Management programme (*kindly refer to credit transfer table below*).

However, acceptance of these applicants into the bachelor’s degree programme would be considered on a case-by-case basis on the recommendation of the Head of Department in consultation with the office of the Registrar.

Credit transfer towards the revised Bachelor of Hospitality Management

Diploma in Hotel Management (Old Courses)	Bachelor of Hospitality Management (Revised curriculum)
Safety, Security and First Aid	Safety, Security and First Aid
Food and Beverage Operations and Management 1	Food and Beverage Operations
Food and Beverage Operations Management 2	Food and Beverage Operations
Basic Hotel Information Systems	Basic Hotel Information Systems

In addition, all candidates will be required to attend an interview as the final stage in the admissions process.

Mature age candidates, will be considered provided they meet the requirements and pass the mature age entrance examinations of the Namibia University of Science and Technology.

Articulation Arrangements

Transfer of credits will be dealt with according to the Namibia University of Science and Technology rules and regulations on recognition of prior learning (RPL).

These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit transfer that can be granted, is 50% of the total credits for a qualification. Graduates of the Bachelor of Hospitality Management degree programme will be able to pursue further studies in Hospitality Management, or a related cognate area of learning, at NQF level 8.

Mode of Delivery

This programme will be offered on the full-time mode and part time mode should the need arise and in accordance with Namibia University of Science and Technology rules and regulations.

Requirements for Qualification Award

The Bachelor of Hospitality Management is awarded to students credited with a minimum of 381 NQF credits. In addition, students must meet the administrative and financial requirements as spelt out in the University’s Yearbook, General Information and Regulations Part 1.

Transition Arrangements

The existing Bachelor of Hospitality Management programme will be phased out systematically until 2023 with minimal disruption to existing students’ learning progression. The last intake of 1st year students for the existing programme was in January 2018. The last intake for the 3rd year of the existing programme will be in 2020. The last cohort of students to be registered for the 3rd year in 2018, would have until 2023 to complete the out-phasing programme.

Students who are registered in 2018 for the 1st year of the current programme (old curriculum), and who fail more than 50% of the courses at the end of the year, will be required to change their registration to the new programme and will be granted credits on a course-by-course basis in accordance with information in the Table below:

The revised three-year Bachelor of Hospitality Management (new curriculum) takes effect from January 2019 and will be completely phased in by 2021. Courses will only be offered based on the new/revised syllabi in 2019 (1st year), 2020 (2nd year) and 2021 (3rd year). Students who are admitted into the examination but fail any of the courses in the existing curriculum will be granted one opportunity to pass such failed courses but will be required to repeat the failed courses based on the new/revised syllabi in accordance with the aforementioned implementation arrangements.

If a student fails to pass the courses after being given the opportunities, he/she will be required to repeat the equivalent failed courses in the new curriculum. Please refer to the Table below, for detailed information on the new/revised courses to be done if courses on the existing curriculum are failed.

The deadline for complete phasing out of the Bachelor of Hospitality Management (old curriculum) is 2023 after which students must automatically change registration to the revised programme (new curriculum) and fulfil all requirements of the new curriculum.

NB: Exemption may not be granted, for part of a course. Therefore, in cases where more than one course in the old curriculum is replaced by one course in the revised curriculum, students who have failed any of the corresponding courses in the old curriculum will have to do the entire new course in the revised curriculum.

Special Arrangements

Teaching, learning strategies

The requirements of the NQF underline the acquisition of cognitive skills and competencies exceeding the knowledge and understanding of subject specific knowledge items and professional/technical competencies. Thus, the qualification focuses on the engagement of students in an interactive learning process to provide for the development of generic cognitive and intellectual skills, key transferable skills, and subject specific and/or professional/technical practical skills. This learning process will be facilitated both in and outside the classroom, requiring specific tasks to be carried out by the student. This facilitation will make use of face to face class, practical projects, tutorials, case studies, problem-based learning, e-learning, self-directed learning, and individual and/or group work. The progress of learning embedded in such tasks will be monitored, assessed and recorded.

Applied Hotel Operations

Professional Excellence (PE) is applicable to all students registered for the Bachelor of Hospitality Management as well as the Bachelor of Tourism Management from 1st till 3rd year. Professional Excellence is a program embedded in various key courses and aims to develop critical crossfield outcomes in our graduates. “PE” will address aspects of professional conduct, personal discipline, professional demeanour, class attendance and other characteristics required by the hospitality and tourism industry. This program also forms an integral part in the assessment strategies of core courses.

WIL I: Internal Hotel Operations will be done in the second year or as soon as a student has passed all required lower level subjects. WIL I is subject to the Hotel Operational Duty Roster and thus the academic time table, cannot be adhered to. (3rd semester). WIL I will take place on the Hotel School premises.

WIL II: External Hotel Operations. In the 6th semester students will be attached to the hospitality industry for experiential learning. An agreement detailing all prescribed criteria, will be drawn up between the relevant establishment and the student (employment contract). The department of Hospitality and Tourism will identify and appoint an establishment liaison who will collaborate with the Cooperative Education Unit (CEU). On completion of the course, students must provide a final detailed written report and present it to a panel of internal and external evaluators. The final semester mark, is compiled out of interim written report marks as well as the evaluators’ mark.

**BACHELOR OF TOURISM AND DEVELOPMENT
(Phased in 2019)**

07BTID

NQF Level: 7

NQF Credits: 409

NQF Qualification ID: Q2135

Description

The purpose of this programme is to equip students with broad knowledge, professional, and technical skills and values relevant for a career in tourism operation and management. The programme provides a comprehensive and systematic introduction to the major concepts, innovative strategies, theories and problem-solving techniques needed to prepare students for diverse positions within the tourism industry. Special emphasis is placed on creating an interdisciplinary base for theoretical and practical education, policy analysis, planning, marketing as well as research. This will enhance and, deepen the students' understanding of the complex nature of the tourism industry. Students may be able to specialise in either Tourism Operations or Travel Operations.

Criteria for Admission

To be considered for admission to this programme, applicants must have C in English language as well as meet the General Admission Requirements of NUST. In addition, applicants will be required to attend an interview as the final stage in the admissions process.

Mature age candidates will be considered provided they meet the requirements and pass the mature age entrance examinations of NUST.

Articulation Arrangements

The transfer of credits will be dealt with according to NUST's rules and regulations on Recognition of Prior Learning. These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit transfer that can be granted is 50% of the credits for a qualification. Graduates of the Bachelor of Tourism Innovation and Development will under normal circumstances be able to pursue further studies in tourism management, or a related cognate area of learning, at NQF level 8.

Mode of Delivery

This programme will be offered on the full-time mode of study in accordance with NUST rules and regulations.

Requirements for Qualification Award

The Bachelor of Tourism Innovation and Development will be awarded to students credited with a minimum of 409 NQF credits, and who meet the detailed requirements below. In addition, students must meet the administrative and financial requirements as spelt out in the NUST general rules and regulations.

Transition Arrangements

The last intake of 1st year students for the existing programme (old curriculum) was in January 2018. The Bachelor of Tourism Management programme (old curriculum) will be phased out in 2023 with minimal disruption to existing students' learning progression. The last cohort of students, registered for the in 2018, have until 2023 to complete the out-phasing programme.

Students who are registered in 2018 for the 1st year of the old curriculum (Bachelor of Tourism Management - 7BTOM) and who fail more than 50% of the courses at the end of the year, will be required to change their registration to the new programme and will be granted credits on a course-by-course basis in accordance with information in the Table below.

The revised Bachelor of Tourism Innovation and Development will take effect from January 2019 and will be completely phased in by 2021. Courses will only be offered based on the new/revised syllabi in 2019 (1st year), 2020 (2nd year) and 2021 (3rd year). Students who are admitted into the examination but fail any of the courses on the old curriculum will only be granted two opportunities to pass such courses (there will be no retention of semester marks). Students who fail any of the courses on the old curriculum will be required to repeat the failed courses based on syllabi of new/revised corresponding courses. Please refer to the Table below, for detailed information on the new/revised corresponding courses to be done if courses on the old curriculum are failed.

The deadline for complete phasing out of the existing Bachelor of Tourism Management is 2023 after which students must automatically switch to the new programme and fulfil all requirements based in the new curriculum.

BACHELOR OF CULINARY ARTS
(Phased in 2019)

07BCNA

NQF Level: 7

NQF Credits: 405

NQF Qualification ID: Q1175

Description

The Bachelor of Culinary Arts to provide students with the theoretical and practical principles and aspects of culinary arts, including hot and cold kitchen, charcuterie, patisserie and kitchen management. The degree aims to equip students with knowledge, professional, scientific and technical skills and values to pursue a career in Culinary Arts. The programme provides a comprehensive and systematic introduction to the major concepts, theories and problem-solving techniques required during food preparations. The programme further prepares students for diverse industry positions. This programme provides students with an ideal way of learning the art of food preparation and presentation skills.

This programme allows students to exit with the Certificate in Hospitality Operations at NQF Level 5, as a first exit level upon successful completion of year 1. This Certificate allows the student to perform major operational activities in the various departments of hospitality establishments with minor supervisory activities. Further, it allows the student to pursue a career at a more temperate pace and allows for both professional and academic growth and development in the industry.

Criteria for Admission

Applicants must meet the General Admission Requirements of the Namibia University of Science and Technology to be considered for admission to this program. In addition, all candidates will be required to attend an interview as the final stage in the admissions process. Students could be required to provide evidence of work experience in a commercial kitchen.

Mature age candidates will be considered provided they meet the requirements and pass the mature age entrance examinations of the Namibia University of Science and Technology.

Graduates with a Diploma in Hotel Management from Polytechnic of Namibia can be admitted to the Bachelor of Culinary Arts based on advance standing. Courses completed under the Diploma in Hotel Management may be granted credits on a course-by-course basis, and students will be required to complete all outstanding courses as per the requirements of the Bachelor of Culinary Arts.

Transfer of Credits will be dealt with according to the Namibia University of Science and Technology rules and regulations on recognition of prior learning. These provide for course by course credits as well as credit transfer by volume under certain academic conditions. Maximum credit transfer that can be granted is 50% of the credits for a qualification.

Articulation Arrangements

Graduates of the Bachelor of Culinary Arts degree program will be able to pursue further studies in Culinary Arts, or a related cognate area of learning such as the Bachelor of Hospitality and Tourism Honours at NQF level 8.

Mode of Delivery

This programme will be offered on the full-time mode of study in accordance with Namibia University of Science and Technology rules and regulations.

Requirements for Qualification Award:

The Bachelor of Culinary Arts will be awarded to students credited with a minimum of 405 NQF credits. In addition, students must meet the administrative and financial requirements as spelt out in General Rules and Regulations.

Transition Arrangements

This is a new programme/qualification that does not replace any existing programme/ qualification(s). Transition arrangements are, therefore, not applicable.

Progression Rule

Students will only be allowed to register for Work Integrated Learning I and II courses after passing all lower level courses.

**BACHELOR OF MARKETING
(Revised Curriculum – Phasing in 2024)**

07BMAK

NQF Credits: 367

Description

The Bachelor of Marketing aims to equip students with the knowledge and skills necessary to succeed in the rapidly evolving marketing landscape. The programme combines foundational marketing principles with a focus also on digital marketing strategies, tactics, and tools. The primary objective of this program is to produce graduates who are competent and skilled in performing a broad spectrum of routine, complex, and multidimensional marketing tasks and responsibilities with minimal or no supervision.

The programme aims at developing a strong understanding of marketing principles and their application in the digital world, providing students with the ability to design and implement effective marketing campaigns across a variety of platforms, and developing critical thinking and problem-solving skills necessary to analyse data and evaluate the success of digital marketing efforts.

Criteria for Admission

Candidates may be considered for admission to this programme if they meet the General Admission Requirements of the Namibia University of Science and Technology.

In addition, candidates are required to have passed Mathematics with at least a D-symbol at NSSC Ordinary Level or a 4 at NSSC Higher Level or an E at AS Level. Applicants who come from the FCHSE bridging programme may be considered for admission if they have passed with at least 50%.

Mature age candidates will be considered provided they meet the requirements and pass the mature age entrance examinations of the Namibia University of Science and Technology.

Articulation Arrangements

Transfer of credits will be dealt with according to the Namibia University of Science and Technology regulations on Recognition of Prior Learning (RPL). These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. The maximum credit that can be granted is 50% of the credits for a qualification.

Students who successfully complete the Bachelor of Marketing will ordinarily be able to pursue further studies at NQF Level 8 in Marketing, or a related cognate area of learning.

Mode of Delivery

This programme is delivered on full-time and part-time, using the hybrid system in accordance with NUST rules and regulations.

Requirements for Qualification Award

The Bachelor of Marketing will be awarded to students credited with a minimum of 363 NQF credits. In addition, students must meet the administrative and financial requirements as spelt out in the Prospectus of the Namibia University of Science and Technology of Namibia.

Transition Arrangements

The Bachelor of Marketing (old curriculum) will be phased out systematically until 2026 with minimal disruption to existing students' learning progression. The last intake of 1st year students for the out-phasing programme (old curriculum) was in January 2023.

Students who are registered in 2023 for the 1st year of the out-phasing programme (old curriculum), and who fail more than 50% of the courses at the end of the year, will be required to change their registration to the new programme and will be granted credits on a course-by-course basis in accordance with information in the Table below. Students who are registered in 2023 for the 1st year of

the out-phasing programme (old curriculum) and who meet all requirements to progress to the 2nd year in 2024 will be allowed to transition to the revised programme (new curriculum).

The revised Bachelor of Marketing (New curriculum) will take effect from January 2024 with the concurrent implementation of the 1st and 2nd year in 2024 and the implementation of the 3rd year in 2025. Courses will only be offered based on the new/revised syllabi in 2024 (1st and 2nd year) and 2025 (3rd year).

Students who are admitted into the examination but fail any of the courses on the old curriculum will only be granted two opportunities to pass such courses in accordance with the NUST general rules. Students who fail any of the courses on the old curriculum will be required to repeat the failed courses based on syllabi of new/revised corresponding courses. Please refer to the Table below for detailed information on the new/revised corresponding courses to be done if courses on the old curriculum are failed.

The deadline for completing phasing out of the Bachelor of Marketing (old curriculum) is 2026 after which students must automatically switch to the new programme and fulfil all requirements based of the new curriculum.

BACHELOR OF MARKETING
(Old Curriculum - Phasing out 2026)

07MARB

NQF Level: 7

NQF Credits: 367

NQF Qualification ID: Q0266

Description

The Bachelor of Marketing programme provides a systematic and coherent introduction to the knowledge, principles, concepts, data, theories and problem-solving techniques within the field of marketing. The programme has been designed to respond to both the local and international contexts as students will explore the ways in which marketing roles exist and function within Namibia and in developing societies more generally.

The programme will enable students to acquire a blend of cognitive and intellectual skills, as well as more hands-on practical and key transferable skills, and to apply these competencies in addressing marketing challenges in Namibia and the international community. Students need an understanding of the complex global marketplace and its inherent technologies. This requires students to be digitally literate to operate in the highly demanding technological market place. Technology-based products are growing. Students need to fit in. Businesses organisations need graduates with the digital literacy skills to operate marketing and sales technology.

Criteria for Admission

Candidates may be considered for admission to this programme if they meet the General Admission Requirements of the Namibia University of Science and Technology. In addition, candidates are required to have passed Mathematics with at least a D-symbol at NSSC Ordinary Level or a 4 at NSSC Higher Level.

Mature age candidates will be considered provided they meet the requirements and pass the mature age entrance examinations of the Namibia University of Science and Technology.

Articulation Arrangements

Transfer of credits will be dealt with according to the Namibia University of Science and Technology regulations on Recognition of Prior Learning (RPL). These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit that can be granted is 50 % of the credits for a qualification. Students who successfully complete the Bachelor of Marketing will ordinarily be able to pursue further studies at NQF Level 8 in Marketing, or a related cognate area of learning.

Mode of Delivery

The programme will be offered on full-time, part-time, and distance modes in accordance with NUST rules and regulations, blended learning approaches using technology will be encouraged.

Requirements for Qualification Award

The Bachelor of Marketing will be awarded to students credited with a minimum of 367 NQF credits. In addition, students must meet the administrative and financial requirements as spelt out in the Prospectus of the Namibia University of Science and Technology of Namibia.

Transition Arrangements

The Bachelor of Marketing (old curriculum), will be phased out systematically until 2023 with minimal disruption to existing students' learning progression. The last intake of 1st year students for the out-phasing programme (old curriculum) was in January 2018. The last intake for the final year of the out-phasing programme (old curriculum), will be in 2019. The last cohort of students, to be registered for the final year in 2019, would have until 2023 to complete the out-phasing programme (old curriculum).

Students who are registered in 2018 for the 1st year of the out-phasing programme (old curriculum), and who fail more than 50% of the courses at the end of the year, will be required to change their registration to the new programme and will be granted credits on a course-by-course basis in accordance with information in the Table below. Students who are registered in 2018 for the 1st year of the out-phasing programme (old curriculum) and who meet all requirements to progress to the 2nd year in 2019 will be allowed to transition to the revised programme (new curriculum).

The revised Bachelor of Marketing (New curriculum) will take effect from January 2019 with the concurrent implementation of the 1st and 2nd year in 2019 and the implementation of the 3rd year in 2020. Courses will only be offered based on the new/revised syllabi in 2019 (1st and 2nd year) and 2020 (3rd year). Students who are admitted into the examination but fail any of the courses on the old curriculum will only be granted two opportunities to pass such courses in accordance with the NUST general rules.

Students who fail any of the courses on the old curriculum will be required to repeat the failed courses based on syllabi of new/revised corresponding courses. Please refer to the Table on the next page, for detailed information on the new/revised corresponding courses to be done if courses on the old curriculum are failed. The deadline for complete phasing out of the Bachelor of Marketing (old curriculum) is 2023 after which students must automatically switch to the new programme and fulfil all requirements based of the new curriculum.

**BACHELOR OF TRANSPORT MANAGEMENT
(Revised Phased in 2020)**

07BTRA

NQF Level: 7

NQF Credits: 390

NQF Qualification ID: Q0458

Description

The Bachelor of Transport Management programme aims at developing the student's applied and cognitive competencies in the acquisition of knowledge, interpretation, understanding, and applications of transportation management principles. Through this programme, students will be able to solve real-life transportation management problems including but not limited to road/land, air, and waterways. The programme is designed to respond to both the local and international contexts, as students will explore how Transport roles and functions exist within Namibia and in developing societies.

The programme aims at producing transport graduates who can competently manage transportation tasks and duties as well as make transport-related decisions within the scope of their responsibilities. Graduates would be able to appraise and manage the synergy between transport and other functional areas of management in an organisation. Graduates will be able to use relevant transport information in the process of making effective and efficient transport decisions, managing themselves and others.

Criteria for Admission

Candidates may be considered for admission to this programme if they meet the General Admission Requirements of the Namibia University of Science and Technology. In addition, candidates are required to have passed Mathematics with at least an E-symbol at NSSC Ordinary Level or a 4 at NSSC Higher Level.

Mature age candidates will be considered provided they meet the requirements and pass the mature age entrance examinations of NUST. Only applicants that scored 50% and above in English and Mathematics in the Mature Age Entry Test will be considered.

Articulation Arrangements

Transfer of credits will be dealt with according to the NUST's regulations on Recognition of Prior Learning (RPL). These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. The maximum credit that can be granted is 50% of the credits for a qualification.

Students who complete the Bachelor of Transport Management will ordinarily be able to pursue further studies at NQF Level 8 in Transport Management, or a related cognate area of learning.

Mode of Delivery

This programme will be offered on full time, part-time and distance modes of study per NUST rules and regulations.

Requirements for Qualification Award

The Bachelor of Transport Management will be awarded to students credited with a minimum of **364 NQF** credits. In addition, students must meet the administrative and financial requirements as spelled out in the Prospectus of NUST.

Transition Arrangements

The Bachelor of Transport Management (07BTMM Phased-in 2017 - "Old – Discontinued") curriculum has been phased-out completely in December 2019 following the directive from the NCHE. This is so to ensure continued relevance and fit for purpose.

The revised Bachelor of Transport Management replacing the old-discontinued programme will be implemented at all level i.e. Year 1, 2 and 3, at the beginning of 2020 academic year as follows:

- * Students who were registered for the first time (1st year) to the old- discontinued curriculum in 2019 and who have failed more than 50% of the courses at the end of the year 2019, will be required to change their registration to the revised programme and will be granted credits on a course-by-course basis as per information in Table 15.1
- * Students who were registered in 2019 for the 1st year of the phased-out programme (Old – Discontinued" curriculum) and who meet all requirements to progress to the 2nd year in 2020, will be required to transition to the revised programme, but stand to lose the credits for "Business Ethics". To meet the requirements of the revised programme, students in this category, however, will be required to pick- up credits for 1st year newly introduced courses namely: *Transport Policy and Planning; GIS for Transportation and CAD for Transportation1**.
- * Similarly, students who were registered in 2019 for the 2nd year of the phased-out programme (Old – Discontinued" curriculum) and who meet all requirements to progress to the 3rd year in 2020, will be required to transition to the revised programme. To meet the requirements of the revised programme, students in this category, however, will be required to pick- up credits for a newly introduced *Intelligent Transportation Systems, Transport Policy, and Planning; GIS for Transportation and CAD for Transportation course2**.
- * Students who were registered in 2019 for the 3rd year of the phased-out programme (Old – Discontinued" curriculum) and who failed any course/s, will be allowed to complete the failed course/s on COLL for the year 2020

only, thereafter, will be required to repeat such course based on the syllabi of new/revised corresponding courses as outlined in the table below.

* Courses will only be offered based on the revised syllabi for year 1, 2 and 3 in 2020. Students who fail any of the courses (Old – Discontinued” curriculum) will be required to repeat such courses based on the syllabi of the corresponding courses in the revised curriculum (Please refer to the Table below).

* All students transitioning from 07BTRM who have not done GIS for Transportation, CAD for Transportation, Transport Policy and Planning and Intelligent Transportation Systems will be required to complete these courses on a block session in Semesters two, four, and six.

**BACHELOR OF SPORT MANAGEMENT
(Revised Curriculum - Phased in 2022)**

07BSMN

NQF Level: 7

NQF Credits: 364

NQF Qualification ID: Q2312

Description

The Bachelor of Sport Management programme aims to produce graduates who can competently manage and administer sports businesses and sport business-related tasks and duties in private and/or public establishments and make effective decisions within the scope of their responsibilities. Similarly, the degree will provide students with a solid foundation and diverse range of skills and competencies in sport-related business fundamentals, including general management, marketing, governance, legal issues, event and facility management, etc.

Furthermore, this programme will equip student to apply relevant sport management principles, concepts, and tools to effectively and efficiently make business decisions in the areas of: sport sponsorship, events management, outsourcing and insourcing of duties and responsibilities, etc., and, managing themselves and others while providing mentorship and coaching to subordinates. In the same vein, students would be able to appraise and manage the synergy between sport, marketing, business, management, and other functional management areas in a sporting organisation.

Criteria for Admission

Candidates may be considered for admission to this programme if they meet the General Admission Requirements of NUST.

Mature age candidates will be considered if they meet the requirements and pass the mature age entrance examinations of NUST - with a minimum of 50% in English and Mathematics.

Articulation Arrangements

Transfer of credits will be dealt with according to the University's regulations on Recognition of Prior Learning (RPL). These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. The maximum credit that can be granted is 50 % of the credits for a qualification.

Students who complete the Bachelor of Sport Management will ordinarily pursue further studies at NQF Level 8 in Sport Management or a related cognate area of learning.

Mode of Delivery

The programme will be offered in full-time, part-time, and distance modes, following NUST's rules and regulations.

Requirements for Qualification Award

The Bachelor of Sport Management will be awarded to students credited with a minimum of 364 NQF credits. In addition, students must meet the administrative and financial requirements as spelled out in the NUST Prospectus.

Transition Arrangements

The Bachelor of Sport Management (revised curriculum) takes effect from January 2022, with minimum disruption to existing students' learning progression. The last intake of 1st year students for the programme (old curriculum) was in January 2021.

Students who are registered in 2021 for the 1st year of the old curriculum, and who do not meet the rules for progression (failed more than 50%) to the 2nd year at the end of 2021, will be required to change their registration to the revised programme (revised curriculum), and will be granted credits on a course-by-course basis in accordance with information in the Table below. Equally, students who are registered in 2021 for the 1st year of the old curriculum, and who meet the minimum requirements for progression to the 2nd year at the end of 2021, will also be required to transition to the revised programme (revised curriculum).

Students however, who are registered in 2021 for the 2nd, and 3rd year of the old curriculum will be required to complete their studies, based on the requirements of the old curriculum.

The revised Bachelor of Sport Management (revised curriculum) will take effect from January 2022 with the implementation of the 1st and 2nd years only. The revised programme will be fully implemented by 2023. Courses will only be offered based on the new/revised syllabi in 2022 (1st and 2nd year), and 2023 (3rd year). Students who fail any of the courses on the old curriculum will be required to repeat such courses based on the syllabi of new/revised corresponding courses (please refer to the Table below, for information on the new/revised corresponding courses to be done, if courses on the old curriculum are failed).

The deadline for complete phasing out of the Bachelor of Sport Management (old curriculum) is 2025 after which students must automatically change registration to the revised programme (new curriculum) and fulfil all requirements of the new curriculum.

MPR711S	Media and Public Relations	MPR711S	Media and Public Relations

Assessment strategies

Students will be assessed through continuous formative and summative assessments with the option of eAssessment where appropriate, particularly in the covid-19 era. These assessments will focus on the achievement of competencies and take the form of problem-solving exercises, individual/group assignments and presentations, case studies, report writing, practical application of skills and competencies, tutorials, practical projects, field work, events management and questioning (tests and/or examinations). The use of validating end-of-term assessments may be minimised to free students' intellectual capacity for broader cognitive development. Assessment through tests and/or examinations will be restricted to situations where it is necessary to establish that a previous specific outcome can be repeated or a specific skill can be transferred. Following NUST's policy on diversified continuous assessment, each course assessed using Continuous Assessment will only have a minimum of four assessments. Courses assessed using a combination of continuous assessment and a final end-of-semester examination must have at least two assessments.

Special Assessment Rules

All courses in this programme offered within the Department of Marketing and Logistics (Sport Management) shall have a **50-50** ratio in Continuous Assessments and the final end-of-semester examination. An exception to this rule is made for service courses offered by other departments.

All courses in the programme offered by the Department have diverse assessment methods, including open book tests and industry-based projects.

Assessment for Sport Management-WIL A portfolio shall be structured by the departmental coordinator indicating the tasks performed in specific workplaces in collaboration with the Director of the Centre for Cooperative Education and the company's representative. Students are prepared for WIL by the Cooperative Education Unit (CEU), i.e., the industry requirements and NUST requirements are discussed and agreed upon.

The Director and the Departmental Representative do industry visits to ensure that the agreed tasks are assigned to students and monitor students' progress. In addition to completing the portfolio, students write reports to the Industry and NUST representatives.

Upon completion of WIL, the assessment results will be as follows:

- 50% Portfolio
- 10% Visit by Departmental Representative to monitor and mentor students
- 20% Mentor
- 20% Presentation

**BACHELOR OF SPORT MANAGEMENT
(Old Curriculum - Phasing out 2025)**

07BOSM

NQF Level: 7

NQF Credits: 364

NQF Qualification ID: Q0960

Description

The Bachelor of Sport Management programme aims at producing graduates who can competently manage and administer sports businesses and sport business-related tasks and duties in private and/or public establishments as well as make effective decisions within the scope of their responsibilities. Similarly, the degree will provide students with a solid foundation and diverse range of skills and competencies in sport-related business fundamentals including general management, marketing, governance, legal issues, and event and facility management, etc.

Through this programme, students will be able to apply relevant sport management principles, concepts and tools to effectively and efficiently make business decisions in the areas of sport sponsorship, events management, outsourcing and insourcing of duties and responsibilities, etc., as well as, managing themselves and others, while providing mentorship and coaching to subordinates. In the same vein, students would be able to appraise and manage the synergy between sport, marketing, business, management and other functional areas of management in a sporting organisation.

The overall purpose of this programme is to produce graduates who are competent and proficient in performing a wide spectrum of routine, complex and multi-dimensional management and management-related tasks, marketing, marketing-related duties and responsibilities, and achieve reliable results with minimal or no supervision.

Criteria for Admission

Candidates may be considered for admission to this programme if they meet the General Admission Requirements of NUST.

Mature age candidates will be considered provided they meet the requirements and pass the mature age entrance examinations of NUST (GI2.2 in the Prospectus/Year Book) - with a minimum of 50% in both English and Mathematics.

Applicants who have successfully completed the entire bridging programme for Sport Management offered by NUST, through CED, will also be eligible for admission into the degree.

Articulation Arrangements

Transfer of credits will be dealt with according to the University's regulations on Recognition of Prior Learning (RPL). These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit that can be granted is 50 % of the credits for a qualification.

Students who successfully complete the Bachelor of Sport Management **will ordinarily** be able to pursue further studies at NQF Level 8 in Sport Management or a related cognate area of learning.

Mode of Delivery

The programme will be offered on full-time and part-time modes, in accordance with NUST's rules and regulations. The programme will also be available on distance mode at a time to be determined by the Centre for Open and Life-long Learning (COLL) of the Institution.

Requirements for Qualification Award

The Bachelor of Sport Management will be awarded to students credited with a minimum of **362** NQF credits. In addition, students must meet the administrative and financial requirements as spelt out in the NUST Prospectus.

Transition Arrangements

This is a new programme that does not replace any existing programme(s). The new programme takes effect from January 2017.

**BACHELOR OF LOGISTICS AND SUPPLY CHAIN MANAGEMENT
(Phasing out 2025)**

07BLSC

NQF Level: 7

NQF Credits: 361

NQF Qualification ID: Q2094

Description

The Bachelor of Logistics and Supply Chain Management is a three year degree programme aimed at producing graduates who can competently manage logistics and supply chain management related tasks for business competitiveness in both public and private sectors. Students will be exposed to relevant logistics and supply chain management techniques, information systems for efficient supply chain decisions in areas such as strategic sourcing, reduction of costs in local and global logistics, managing supply chain risks and timely delivery of value added products, responsive to customer specific requirements.

Students will acquire both theoretical knowledge and practical applications through work related and simulation programmes, including new subjects such as Environmental and Humanitarian Logistics, Global Logistics and Supply Chain Management, Procurement Management and Information Technology in Logistics.

Criteria for Admission

Candidates may be considered for admission to this programme if they meet the General Admission Requirements of the Namibia University of Science and Technology. In addition, candidates are required to have passed Mathematics with at least an E-symbol at NSSC Ordinary Level or a 4 at NSSC Higher Level.

Mature age candidates will be considered provided they meet the requirements and pass the mature age entrance examinations of the Namibia University of Science and Technology.

Articulation Arrangements

Transfer of credits will be dealt with according to the Namibia University of Science and Technology regulations on Recognition of Prior Learning (RPL). These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit that can be granted is 50 % of the credits for a qualification.

Students who successfully complete the Bachelor of Logistics and Supply Chain Management will ordinarily be able to pursue further studies in Logistics and Supply Chain Management, or a related cognate area of learning, at NQF Level 8.

Mode of Delivery

The programme will be offered on full-time, part-time, and distance modes in accordance with Namibia University of Science and Technology rules and regulations.

Requirements for Qualification Award

The Bachelor of Logistics and Supply Chain Management will be awarded to students credited with a minimum of 362 NQF credits. In addition, students must meet the administrative and financial requirements as spelt out in the Prospectus of the Namibia University of Science and Technology.

Transition Arrangements

The revised Bachelor of Logistics and Supply Chain Management programme takes effect from January 2017, and will be implemented incrementally on a year by year basis. The revised programme will be phased in completely by the end of the 2019 academic year. The Bachelor of Logistics and Supply Chain Management (old curriculum) programme will be phased out systematically with minimal disruption to existing students' learning progression.

Students who are registered in 2016 for the first year of the phased-out programme (old curriculum) and who fail more than 50% of courses at the end of 2016, will be required to change their registration to the revised programme in 2017, and will be granted credits on a course-by-course basis in accordance with information in the Table below.

Courses will then be offered based on the revised syllabi only in 2017 (1st year), 2018 (2nd year) and 2019 (3rd year). Students who fail any of the courses in the old curriculum will be required to repeat such courses based on the corresponding subjects in the revised programme. Please refer to the Table below for detailed information on the new or revised corresponding courses to be done if students fail courses in the old curriculum.

The deadline for complete phasing out of the Bachelor of Logistics and Supply Chain Management (old curriculum) is 2021 after which students must automatically switch to the new programme and meet all requirements based on the new curriculum.

**BACHELOR OF PROCUREMENT AND SUPPLY CHAIN MANAGEMENT
(Revised Programme – Phased in 2022)**

07BPSM

NQF Level: 7

NQF Credits: 361

NQF Qualification ID: Q2303

Description

The Bachelor of Procurement and Supply Chain Management programme provides a systematic and comprehensive introduction of principles, concepts, theories and problem-solving techniques within Procurement and Supply Chain Management. Businesses and government agencies require people skilled in supply chain and procurement management to coordinate the flow of materials, finances, and information within and between companies. Procurement and Supply chain management specialists are equipped with strategies that make business and governments 3 competitive within a global economy, thus improving service delivery while reducing costs for employers. In the same vein, the Bachelor of Procurement and Supply Chain Management aims at producing graduates who can competently manage procurement and supply chain management tasks and duties as well as make informed decisions within the scope of their responsibilities.

The programme will further, enable students to acquire knowledge and a more hands-on practical approach and key transferable skills relevant to addressing procurement and logistics challenges in Namibia and the international community. Graduates would be able to appraise and manage the synergy between procurement, logistics, and other functional areas of supply chain management in an organisation. Upon successfully completing the programme, graduates will be able to find employment in both the private and public sectors as procurement and supply chain management practitioner or manager.

Criteria for Admission

Candidates may be considered for admission to this programme if they meet the General Admission Requirements of the Namibia University of Science and Technology. In addition, candidates are required to have passed Mathematics with at least an D- symbol at NSSC Ordinary Level or grade 4 at NSSC Higher Level, or equivalent.

Mature age candidates will be considered provided they meet the requirements and pass the mature age entrance examinations of the Namibia University of Science and Technology.

Articulation Arrangements

Transfer of credits will be dealt with according to the Namibia University of Science and Technology regulations on Recognition of Prior Learning (RPL). These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. The maximum credit that can be granted is 50 % of the credits for a qualification.

Students who complete the Bachelor of Procurement and Supply Chain Management will ordinarily be able to pursue further studies in Procurement and Supply Chain Management, or a related cognate area of learning, at NQF Level 8.

Mode of Delivery

The programme will be offered on full-time, part-time, and distance as well as hybrid and blended learning modes following Namibia University of Science and Technology rules and regulations.

Requirements for Qualification Award

The Bachelor of Procurement and Supply Chain Management will be awarded to students credited with a minimum of 361 NQF credits. In addition, students must meet the administrative and financial requirements as spelt out in the Prospectus of the Namibia University of Science and Technology.

Transition Arrangements:

The Bachelor of Procurement and Supply Chain Management programme takes effect from January 2022 and will be implemented incrementally on year by year basis. The revised programme will be phased in completely by the end of the 2024 academic year. The Bachelor of Logistics and Supply Chain Management (old curriculum) programme will be phased out systematically by 2025 with minimal disruption to existing students' learning progression.

Students who are registered in 2020 for the first year of the phased-out programme (old curriculum) and who fail more than 50% of courses at the end of 2020, will be required to change their registration to the revised programme in 2021 and will be granted credits on a course-by-course basis following information in Table 15.1 below. Courses will then be offered based on the revised syllabi only in 2021 (1st year), 2022 (2nd year) and 2023 (3rd year). Students who fail any of the courses in the old curriculum will be required to repeat such courses based on the corresponding subjects in the revised programme. Please refer to the Table below for detailed information on the new or revised corresponding courses to be done if students fail courses in the old curriculum.

The deadline for the complete phasing out of the Bachelor of Logistics and Supply Chain Management (old curriculum) is 2025 after which students must automatically switch to the new programme and meet all requirements based on the new curriculum.

Note: Exemption may not be granted for part of a course. Hence, in cases where more than one course in the old curriculum is replaced by one course in the revised curriculum, students who have failed any of the corresponding courses in the old curriculum will have to do the entire new course in the revised curriculum.

Please Note:

The Table above highlights new/revised courses in the revised Bachelor of Procurement and Supply Chain Management that should be done if courses on the old curriculum are failed, some of the Service courses from other Departments are excluded, but the rules of relevant Departments apply to this programme as well. The following core courses in Bachelor of Logistics and Supply Chain Management (old curriculum) which do not have corresponding new/revised courses in the revised curriculum, will be offered until the old curriculum is phased out entirely in 2021:

- * Information Competence (ICT521S)

SCHOOL OF HUMAN SCIENCES AND EDUCATION

INSTITUTIONAL CORE COURSES

ENGLISH COURSES

If no English courses were completed in the past eight (8) years, the Grade 12 results would be used to place the student. The student may approach the Department to request for a possible exemption. Students who have done English courses Modules 1-6 at NUST/Poly, and their results are eight (8) years and older, have to write a placement test or a Mature Age Test. Please refer any OTHER CONCERNS (also foreign courses) to the Department at Ext. 2443,

Language Section – the following English Communication Service Courses are offered

- * Principles of English Language Use (PLU411S)
- * English in Practice (EPR511S)
- * English for Academic Purposes (EAP511S)
- * Professional Writing (PWR611S)
- * Professional Communication (PCO611S)

Exit Level English Communication Service Courses

The English Communication/Service courses offered by the Department of Technical and Vocation Education and Training are exit level courses, subject to the requirements of the respective programmes across the institution.

Exit Level Service Courses are:

- * English for Academic Purposes (EAP511S)
 - * Professional Writing (PWR611S)
 - * Professional Communication (PCO611S)
1. On condition there is a sufficient number of registered students in a course, a course shall be offered every semester. A limited number of students shall be registered every semester for each class, subject to the availability of staff.
 2. The English Communication exit level service courses Professional Communication (PCO611S) AND Professional Writing (PWR611S) require a pass in English for Academic Purposes (EAP511S) and/or relevant exemption.
 3. Students who have English qualifications from other institutions and those with qualifications from institutions where English was the language of instruction are required to consult the department before registering for an English Service course in the department.
 4. English for Academic Purposes (EAP511S) is compulsory, subject to the provisions for exemption.
 5. Professional Writing (PWR611S) and Professional Communication (PCO611S) are compulsory, subject to the requirements of the respective degree programmes across the institution.
 6. Professional Writing (PWR611S) and Professional Communication (PCO611S) may be taken in any order or simultaneously depending on the student's load and major programme or orientation.

Progression Rule

A student shall not be allowed to register for a higher English Communication Service course unless s/he has taken and passed a lower course or has been exempted from it. In addition, students are requested to familiarise themselves with requirements of the programme they register for as the progression rule may vary.

Attendance

80% attendance of lectures is compulsory. Failure to attend 80% of the lectures without prior notification and arrangement with the relevant lecturer can result in failure of the course. Each week, full-time and part-time students shall be required to attend classes as stipulated in the course outline of each course. As proof of attendance, students shall be required to sign an attendance list.

Assessment

Full-time, Part-time Students

Continuous Assessment/Evaluation: 60% of the final mark final examination: 40% of the final mark. A candidate will gain admission to the examination by obtaining a continuous assessment mark of at least 40%. In order to pass the subject a student needs a final mark of at least 50%. A student needs to obtain a minimum of 40% for the examination paper.

EUROPEAN LANGUAGES

French 1A (BAF111S) and 1B (BAF112S), Basic German 1A (GER110S) and 1B (GER120S), Basic Portuguese 1A (BAP111S) and 1B (BAP112S), Basic Spanish 1A (BAS111S) and 1B (BAS112S). The Department of Technical and Vocational Education and Training shall offer basic European language courses in French, German, Portuguese and Spanish as required by various degree programmes.

Credit Bearing

Basic French 1A (BAF111S) and 1B (BAF112S)

Basic German 1A (GER110S) and 1B (GER120S)
 Basic Portuguese 1A (BAP111S) and 1B (BAP112S)
 Basic Spanish 1A (BAS111S) and 1B (BAS112S)

The Department of Technical and Vocational Education and Training shall offer basic foreign language courses in French, German, Portuguese and Spanish as required by various degree programmes. The Foreign Language courses shall consist of two modules, 1A and 1B offered during the 1st and 2nd semester of each academic year. Each course shall consist of 100 hours per semester. Contact hours for these courses shall be conducted in two two-hour sessions per week. At the end of each course, students shall sit for a written examination. The language proficiency of the foreign languages modules 1A and 1B shall correspond to the A1.1 and A1.2 levels respectively as defined in the “Common European Framework of Reference for Languages”(CEFR).

FOREIGN AND NATIONAL LANGUAGES (NON-FORMAL)

In addition to the English Communication/Service courses offered for formal qualifications, non-formal language proficiency courses in, for example, English, Afrikaans, French, German, Spanish, Portuguese and Oshikwanyama, Oshidonga and Otjiherero shall be offered on a regular basis. Other languages shall be accommodated subjected to certain limitations. Tailor-made courses in Language and Communication in any of the languages taught by the faculty may be negotiated for closed groups. The languages shall be offered at different levels, depending on the students’ knowledge and/or proficiency in the language. The duration of each level shall be 75 hours. Classes are normally presented after hours in two two-hour sessions per week, provided there are at least ten registered students per course. At the end of each 75-hour course (4 months), students sit for oral and written examinations. Certificates are issued to students who attend regularly and achieve a minimum mark of 50%. Registration fees are included in the course fees. For details, contact the Co-ordinator, Ms J. Hunter, or the Administrator, Ms Monia Mundjindi, Foreign and National Languages.

In addition to the English Communication/Service courses offered for formal qualifications, non-formal language proficiency courses in for example, English, Afrikaans, French, German, Spanish, Portuguese and Oshikwanyama, Oshindonga and Oshihero shall be offered on a regular basis. Other languages shall be accommodated subject to certain limitations. Tailor-made courses in Language and Communication in any of the languages taught by the faculty may be negotiated for closed groups. The languages shall be offered at different levels, depending on the students’ knowledge and/or proficiency in the language. The duration of each level shall be 75 hours.

Classes are normally presented after hours in two two-hour sessions per week, provided there are at least ten registered students per course. At the end of each 75-hour course (4months), students sit for oral and written examinations. Certificates are issued to students who:

1. Attend regularly and
2. achieve a minimum mark of 50%

Registration fees are included in the course fees. For details, contact the FNL Co-ordinator, Ms J Hunter or the FNL Administrator, Ms Monica Mundjindi, Foreign and National Languages.

NQF Level:

NQF Credits: 369

NQF Qualification ID:

Description

The Bachelor of Communication is purposefully designed to produce professionals who are capable of communicating effectively in multicultural contexts. The programme provides a systematic and coherent introduction to the main theories, broad principles, concepts, data, and problem-solving techniques in the main cognate area of learning. Students will be equipped with both theoretical knowledge and practical skills that are greatly needed in communication administration and management.

Criteria for Admission

Candidates will be considered for admission to this programme, if they meet the General Admission Requirements of the Namibia University of Science and Technology (NUST). In addition, candidates should have a minimum C-symbol in Grade 12/NSSCO English.

Candidates who meet the minimum admission requirements will be required to write a Final Selection English test (not a placement test) which they should pass with at least 60% to be considered for admission into the programme.

Mature age candidates will be considered provided they meet the requirements and pass the mature age entrance examinations of NUST (GI2.2 in Part 1 of NUST Yearbook).

Articulation Arrangements

Transfer of credits will be dealt with according to NUST's regulations on Recognition of Prior Learning. These provide for course-by-course credits, as well as credit transfer by volume under certain academic conditions (NUST Yearbook). Maximum credit that can be granted is 50 % of the credits for a qualification.

Students who graduate with the Bachelor of Communication will be able to pursue further studies in Communication, or a related field at NQF level 8.

Mode of Delivery

This programme will be offered on full-time, part-time and distance modes of study, in accordance with NUST rules and regulations.

Requirements for Qualification Award

The Bachelor of Communication will be awarded to students credited with a minimum of 370 credits, and who have met the detailed requirements below. In addition, students should meet the administrative and financial requirements spelt out in Part 1 of the NUST Yearbook.

Transition Arrangements

The Bachelor of Communication (07BACO) will be phased out systematically until 2023, with minimal disruption to existing students' learning progression. The last intake of 1st year students for the out-phasing programme (07BACO) was in January 2020.

Students who are registered in 2020 for the 1st year of the out-phasing programme (07BACO), and who fail more than 50% of the courses at the end of the year, will be required to change their registration to the revised programme (new curriculum), and will be granted credits on a course-by-course basis in accordance with information in the table below.

The Bachelor of Communication (revised curriculum) will take effect from January 2021, and will completely phased by 2023. Courses will be offered based on the syllabi of the new/revised courses in 2021 (1st year), 2022 (2nd Year) and 2023 (3rd year). Students who fail any of the courses in the old curriculum will be required to repeat failed courses based on the syllabi of new/revised corresponding courses. Please refer to the Table below, for detailed information on the new/updated corresponding courses.

The deadline for phasing out of the Bachelor of Communication (07BACO) is 2023, after which students must automatically switch to the revised programme and fulfil all requirements based on the new curriculum.

**BACHELOR OF ENGLISH AND LINGUISTICS
(Revised – Phased in 2021)**

07BENL

NQF Level:

NQF Credits: 396

NQF Qualification ID:

Description

The Bachelor of English and Linguistics provides a methodical and logical introduction to the broad knowledge, principles, concepts, data, theories and problem-solving techniques in the language domain. The programme will enable students to acquire transferable language skills.

Overall the Bachelor of English and Linguistics aims at: providing students with a sound foundation in the fundamental concepts and theories of English and Linguistics; developing the ability of students to analyse information from a wide range of sources; promoting national development through the teaching of English and Linguistics; aligning English teaching standards at the tertiary level with Information Communication Technology produced by the Ministry of Education; producing professionals in the field of English who are competent in linguistics and literature.

Criteria for Admission

Candidates may be admitted to this programme if they meet the General Admission Requirements of the Namibia University of Science and Technology. In addition, students should have a minimum D symbol in Grade 12/NSSCO English as a Second Language.

Mature Age candidates will be considered provided they meet the requirements and pass the Mature Age entrance examinations of the NUST.

Articulation Arrangements

Transfer of credits will be dealt with according to the NUST's regulations on Recognition of Prior Learning. These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit that can be granted is 50% of the credits for a qualification.

Students who complete the Bachelor of English and Linguistics successfully will ordinarily be able to pursue further studies in English and linguistics or a related cognate area of learning, at NQF level 8.

Mode of Delivery

The intention is to offer the programme on the full-time, part-time and distance modes of study in accordance with NUST' rules and regulations.

Requirements for Qualification Award

The Bachelor of English and Linguistics degree will be awarded to candidates credited with a minimum of 382 NQF credits. In addition, students should meet the administrative and financial requirements as spelt out in Part 1 of the NUST Prospectus.

Transition Arrangements

The Bachelor of English (old curriculum) will be phased out systematically until 2021 with minimal disruption to existing students' learning progression. The last intake of 1st year students for the out-phasing programme (old curriculum) was in 2020.

Students who are registered in 2020 for the 1st year of the out-phasing programme (old curriculum), and who fail more than 50% of the courses at the end of 2020 will be required to change their registration to the revised programme (new curriculum) in 2021, and will be granted credits on a course-by-course basis in accordance with information in the Table below.

Students who are registered in 2020 for the 1st year of the out-phasing programme (old curriculum), and who meet all the requirements for progression to 2nd year in 2021, will be required to change their registration to the revised programme (new curriculum) in 2021. Students in this category, will be required to pick-up credits for the newly introduced 1st year course: *Writing for Specific Purposes*, and will be granted credits on a course-by-course basis in accordance with information in the Table below.

Additionally, students who are registered in 2020 for the 2nd year of the out-phasing programme (old curriculum), and who meet the all requirements for progression to 3rd year in 2021, will also be required to change their registration to the revised programme (new curriculum) in 2021. Students who passed any of the courses on the old curriculum will be granted credits on a course-by-course basis in accordance with information in the Table below.

However, students who are registered for 3rd year of the out-phasing programme (old curriculum) in 2020 will be allowed to complete their studies based on the requirements of the old curriculum.

The revised Bachelor of English and Linguistics (new curriculum) will take effect from January 2021 with concurrent implementation of year 1, 2 and 3. Courses will only be offered based on the new/revised syllabi in 2021 (1st 2nd and 3rd year). Students who fail any of the courses on the old curriculum will be required to repeat such courses based on the syllabi of new/revised corresponding courses. Please refer to the table below for detailed information on the new/revised corresponding courses to be done if courses on the old curriculum are failed.

The deadline for complete phasing out of the Bachelor of English (old curriculum) is 2021 after which students must automatically switch to the revised programme and fulfil all requirements based on the new curriculum.

NB: Exemption may not be granted for part of a course. Hence, in cases where more than one course in the old curriculum is replaced by one course in the revised curriculum, students who have failed any of the corresponding courses in the old curriculum will have to do the entire new course in the revised curriculum.

Please Note:

The course, *Management Communication*, does not have a corresponding course in the revised curriculum. Any student who failed this course will be required to register for it from the Bachelor of Communication. Such students have until 2021 to complete this course, thereafter would have to register for available courses on the revised curriculum.

NUST BRIDGING PROGRAMME

04NBPR

(Phased in 2023)

Description

The NUST Bridging Programme is a one year course with a maximum study period of 2 (two) years. It enables students to gain foundational knowledge in the area of Commerce and Social Sciences. Upon successful completion of the chosen stream within the Bridging Programme students will be eligible to articulate into any of the 3 year Bachelor Degrees programmes (excluding qualifications regulated by professional bodies).

Criteria for Admission

The Admission requirements to this bridging programme is a minimum of 22 points in the best 5 subjects at Namibia Senior Secondary Certificate Ordinary (NSSCO) Level or equivalent.

Mode of Delivery

This programme is offered on the full-time, part-time and Distance modes of study. The programme is also offered at all NUST Regional Centres and Satellite Campuses on the full-time mode of studies.

Articulation Arrangements

Students who complete this bridging programme will be eligible to articulate into any of the three-year Bachelor Degree programmes offered by the Faculty of Commerce, Human Sciences and Education (excluding qualifications regulated by professional bodies).

**BACHELOR OF CRIMINAL JUSTICE IN CORRECTIONAL MANAGEMENT
(Phased in 2021)**

07BCOR

NQF Level: 7

NQF Credits: 361

NQF Qualification ID: Q0164

Description

The Bachelor of Criminal Justice in Correctional Management compare penal and correctional systems from a global perspective. Students examine current issues and gain advanced knowledge of the philosophies and theories that guide correctional systems, policies, structures and functions. The programme is purposefully designed to enable students to apply best practices, administrative and legal principles in the correctional environment.

The degree offers a comprehensive study on legal principles and leadership within the correctional system. The focus is on public protection, deinstitutionalisation, offender treatment and rehabilitation, and reintegration of offenders into the society. The programme further, provides and equips students with essential knowledge on day-to-day operational and technological aspects in the correctional services environment. The programme will also enable students to demonstrate an in-depth understanding of the role of the correctional system as a sub-system within the Criminal Justice Sector in a modern society.

Criteria for Admission

Candidates may be admitted to the Bachelor of Criminal Justice in Correctional Management programme if they meet the General Admission Requirements of NUST.

Mature age candidates and/or recognition of prior learning (RPL) will be considered provided they meet the requirements of NUST.

Articulation Arrangements

Transfer of credits will be dealt with according to NUST's regulations on Recognition of Prior Learning. These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credits that can be granted is 50% of the credits for a qualification.

Graduates of this programme will ordinarily be able to pursue further studies in Criminal Justice, or a related cognate area of learning, at NQF level 8.

Mode of Delivery

This programme is offered on the part-time modes in accordance with NUST's rules and regulations.

Depending on the availability of funds, a blended mode of study utilising flexible delivery strategies, including the use of block courses, blended learning, and e-learning will be introduced, combining shorter periods (up to four weeks a semester) of face-to-face tuition.

Requirements for Qualification Award

The Bachelor of Criminal Justice in Correctional Management (Level 7) will be awarded to candidates credited with a minimum of 361 NQF credits, while the Certificate in Criminal Justice (Level 5) will be awarded to candidates with a minimum of 112 NQF credits and who have met the detailed programme/ qualification requirements as set out below. In addition, students should meet the administrative and financial requirements spelt out in the NUST general rules and regulations.

Transition Arrangements

There are no significant changes between the Bachelor of Criminal Justice in Correctional Management (old curriculum) and Bachelor of Criminal Justice in Correctional Management (revised curriculum). The Bachelor of Criminal Justice in Correctional Management (old curriculum) will be phased out completely by the end of 2020. The last intake of 1st year students for the out-phasing programme (old curriculum) was in January 2020.

Students who are registered in 2020 for the 1st year of the out-phasing programme (old curriculum), and who fail any of the courses of the curriculum at the end of the year, will be required to change their registration to the revised programme (new curriculum) in 2021. Students will be granted credits on a course-by-course basis in accordance with the information in the Table below.

Additionally, students registered in 2020 for the 1st year of the out-phasing programme (old curriculum) and who meet all requirements to progress to 2nd year by end of the year 2020, will be required to transition to the revised curriculum in 2021.

Such students however, will be required to register for the 1st year course **Introduction to Criminology (ICR511S)** in addition to all 2nd year courses. This is important to ensure that such students meets the minimum credits as required by the programme. Students registered in 2020 for the 2nd year of the out-phasing programme (old curriculum) and who meet all requirements to progress to 3rd year by end of the year 2020, will also be required to transition to the revised curriculum in 2021.

The revised Bachelor of Criminal Justice in Correctional Management (new/revised curriculum) will take effect from January 2021 with concurrent implementation of 1st, 2nd and 3rd year. Courses will only be offered based on the revised syllabi in 2021 (for year 1, 2 and 3). Students who fail any of the courses on the old curriculum will be required to repeat the failed courses based on syllabi of revised corresponding courses as detailed in the Table below.

The deadline for complete phasing out of the Bachelor of Criminal Justice in Correctional Management (old curriculum) is 2020, after which students must automatically switch to the new programme and fulfil all requirements based on the new curriculum.

**BACHELOR OF CRIMINAL JUSTICE IN POLICING
(Phased in 2021)**

07BCJP

NQF Level: 7

NQF Credits: 361

NQF Qualification ID: Q0114

Description

The Bachelor of Criminal Justice in Policing is purposefully designed to provide students with a coherent and systematic introduction to the broad concepts, principles, theories, and problem-solving techniques within the field of criminal justice with specific emphasis on competencies and standards for effective policing.

Students will be equipped with essential theoretical knowledge as well as analytical and practical skills of police operations, administration, and management within the context of the criminal justice system of Namibia and beyond. Furthermore, the programme will enable students to demonstrate an in-depth understanding of the role of policing as a sub-system of the criminal justice system in a modern society, as well as that of other law enforcement agencies such as the Namibian Correctional Service, Municipal Police, Immigration Services, Namibian Defence Force, Security Institutions, Banking and Insurance Sectors (Forensic Investigators).

Criteria for Admission

Candidates may be admitted to the Bachelor of Criminal Justice in Policing programme if they meet the General Admission Requirements of NUST.

Mature Age candidates will be considered provided they meet the requirements of NUST.

Articulation Arrangements

Transfer of credits will be dealt with according to NUST regulations on Recognition of Prior Learning. These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit that can be granted is 50 % of the credits for a qualification.

Graduates of this programme will ordinarily be able to pursue further studies in criminal justice, or a related cognate area of learning, at National Qualifications Framework (NQF) level 8.

Mode of Delivery

This programme is offered on the part-time modes in accordance with NUST rules and regulations. Depending on the availability of funds, a hybrid mode of study utilising flexible delivery strategies, including the use of block courses, blended learning, e-learning, etcetera. will be introduced, combining shorter periods (up to four weeks a semester) of face-to-face tuition.

Requirements for Qualification Award

The Bachelor of Criminal Justice in Policing will be awarded to candidates credited with a minimum of 361 NQF credits, while the Certificate in Criminal Justice (Level 5) will be awarded to candidate credited with a minimum of 112 NQF credits and who have met the detailed programme/qualification requirements as set out below. In addition, students should meet the administrative and financial requirements spelt out in the NUST general rules and regulations.

Transition Arrangements

There are no significant changes between the Bachelor of Criminal Justice in Policing (old curriculum) and Bachelor of Criminal Justice in Policing (revised curriculum). The Bachelor of Criminal Justice in Policing (old curriculum) will be phased out completely by end of the 2020. The last intake of 1st year students for the out-phasing programme (old curriculum) was in January 2020.

Students who are registered in 2020 for the 1st year of the out-phasing programme (old curriculum), and who fail more than 50% of the courses at the end of the year, will be required to change their registration to the new programme and will be granted credits on a course-by-course basis in accordance with information in the Table below.

Additionally, students who are registered in 2020 for the 1st year of the out-phasing programme (old curriculum) and who meet all requirements to progress to 2nd year by end of the year 2020, will be required to transition to the revised curriculum in 2021. Such students, however, will be required to register for the 1st year course **Introduction to Criminology (ICR511S)** in addition to 2nd year courses. This is important to ensure that such students meets the minimum credits as required by the programme.

Students registered in 2020 for the 2nd year of the out-phasing programme (old curriculum) and who meet all requirements to progress to 3rd year by end of the year 2020, will also be required to transition to the revised curriculum in 2021. Students who are admitted into the examination but fail any of the courses on general rules.

The revised Bachelor of Criminal Justice in Policing (new/revised curriculum) will take effect from January 2021 with concurrent implementation of 1 st, 2nd and 3rd year. Students who fail any of the courses on the old curriculum will be required to repeat the failed courses based on syllabi of revised corresponding courses as detailed in the Table below.

The deadline for complete phasing out of the Bachelor of Criminal Justice in Policing (old curriculum) is 2020, after which students must automatically switch to the new programme and fulfil all requirements based on the new curriculum.

**NUST BRIDGING PROGRAMME – TVET AGRICULTURE
(Phased in 2023)**

04NBTA

Description

In line with its strategic imperatives, the Namibia University of Science and Technology (NUST) recognises the need to broaden its offering and to be accessible yet relevant to its stakeholders. Bridging programmes worldwide are seen as an efficient way to close the skills gap between high school and university admission.

Criteria for Admission

The Admission requirements to this bridging programme is a minimum of 22 points in the best 5 subjects at Namibia Senior Secondary Certificate Ordinary (NSSCO) Level or equivalent.

NQF Level 3 Trade qualification in Agriculture.

Mode of Delivery

This programme is offered on the full-time, part-time and Distance modes of study. The programme is also offered at all NUST Regional Centres and Satellite Campuses on the full-time mode of studies.

Articulation Arrangements

Students who successfully complete this bridging programme will be eligible to enter the BTJET programmes with specialisation in Agriculture housed in the TVET department.

**DIPLOMA IN TECHNICAL AND VOCATIONAL EDUCATION AND TRAINING: TRAINER
(Phased in 2021)**

06DTVT

NQF Level: 6

NQF Credits: 251

NQF Qualification ID: Q2017

Description

This programme aims at equipping in-service and pre-service vocational trainers with instructional competencies required for a career as trainer in a Technical and Vocational Education and Training (TVET) environment. The programme recognises the major attributes that a TVET trainer must possess at a foundational level that would enable him/her to transfer knowledge and skills to vocational trainees in a student-centred manner.

The programme provide an opportunity for artisans who wish to pursue further studies in the field of TVET and become competent trainers in their respective occupations. Additionally, students will be able to demonstrate the skills and knowledge relevant to facilitate competency-based training to individuals as well as groups, work effectively within the legislative and regulatory imperatives applicable to education and training in Namibia, and comply with the requirements of competency-based assessment. Upon completion, graduates should be able to actively participate in instructional activities and assessment of performance standards within a formal training environment such as vocational training centres and, thereby, make a contribution to the development of the national economy.

The programme aims to ensure that a broader knowledge base is created to enable the students to achieve the outcomes in an integrated manner. Upon completion of this diploma, graduates will be able to conduct training and provide mentorship at the entry level of their specialised fields of vocational education.

Criteria for Admission

Applicants will be considered for admission to this programme provided they meet the General Admission Requirements of the Namibia University of Science and Technology (NUST).

Mature age applicants will be considered provided they meet the requirements and pass the mature age entry examinations of NUST.

Additionally, potential candidates must be qualified in a designated trade, with at least three years relevant industrial experience. Pre-requisites for admission to this programme must first be obtained before registration for the programme can take place.

Articulation Arrangements

Transfer of credits will be dealt with according to the NUST Regulations on Recognition of Prior Learning (RPL). These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credits that can be granted are 50% of the credits for a qualification.

This Diploma provides opportunities for students to progress to higher qualifications in Technical and Vocational Education and Training, or studies in a related cognate area at NQF level 7.

Mode of Delivery

This programme will be offered on full-time, part-time and eLearning modes of study in accordance with NUST rules and regulations.

Requirements for Qualification Award

The Diploma in Technical and Vocational Education and Training: Trainer (NQF Level 6) will be awarded to candidates credited with a minimum of 251 NQF credits. In addition, students must meet the administrative and financial requirements as spelt out in the NUST general rules and regulations.

Transition Arrangements

The Diploma in Technical, Vocational Education, and Training: Trainer (NQF Level 6) is a revised programme replacing the Certificate in Vocational Education and Training: Trainer (NQF Level 4), and the Certificate in Vocational Education and Training (NQF Level 5) - formerly the Higher Certificate in Vocational Education and Training (NQF Level 5).

The revised Diploma will be implemented at the start of the 2020 academic year. Students who were registered in 2019 for the Certificate in Vocational Education and Training: Trainer (NQF Level 4) (old curriculum), who failed more than 50% of the courses at the end of the year 2019, will be required to change their registration to the revised programme namely the Diploma in Technical, Vocational Education, and Training: Trainer (NQF Level 6). The students will be accorded credits on a course-by-course basis in accordance with information in the Table below. Students in this category may lose credits.

Students who were registered in 2019 for the Certificate in Vocational Education and Training: Trainer (NQF Level 4) (old curriculum), and who have met the requirements to progress to the Certificate in Vocational Education and Training (NQF Level 5) - formerly the Higher Certificate in Vocational Education and Training (NQF Level 5), will be allowed to register for the 2nd year Diploma in TVET:

Trainer (NQF Level 6). Students who fall in this category will be allowed to take the following first year second semester courses: Management of TVET and Education for Sustainable Development (ESD) A in the first semester of the second year. The reason for this arrangement is because Management of TVET and Education for Sustainable Development (ESD) A have no equivalent courses in the revised programme. Students who were registered in 2019 for the Higher Certificate in Vocational Education and Training (NQF Level 5) will also be required to complete the programme based on the requirements of the old curriculum (currently the Certificate in Vocational Education and Training (NQF Level 5)).

The deadline for complete phasing out of the Certificate in Vocational Education and Training: Trainer (NQF Level 4) and the Certificate in Vocational Education and Training (NQF Level 5) is 2022 after which students must automatically change their registration to the revised Diploma and fulfil all requirements of the Diploma.

**DIPLOMA IN TECHNICAL AND VOCATIONAL EDUCATION AND TRAINING MANAGEMENT
(Revised Programme)**

06DTVM

NQF Level: 6

NQF Credits: 241

NQF Qualification ID: Q2018

Description

The programme targets current management cadre who do not possess formal management qualifications, and those who aspire to become managers within the Technical and Vocational Education and Training (TVET) sector. The knowledge embedded in this programme enables students to develop competencies and skills in this domain in a more conducive and focused manner. The programme recognises the major attributes that TVET Management must possess to be able to lead and manage staff, to perform their functional tasks in a goal directed manner while demonstrating initiative and responsibility in management within a TVET environment.

Upon completion of the programme, the students should be able to actively participate in leadership and management activities in a formal training environment such as Vocational Training Centers (VTCs), Community Skills Development Centres (COSDECs) and any other TVET organisation, and especially those using Competency-Based Education and Training (CBET) methods of instruction.

Criteria for Admission

Potential candidates must meet the General Admission Requirements of NUST (as outlined in the Prospectus) and be qualified in a designated trade, and a minimum of one-year managerial experience in a VTC/COSDEC/TVET institution before registration for the programme can take place.

Alternatively, applicants who have completed the Certificate in Technical and Vocational Education and Training: Trainer (NQF Level 5) and/or Diploma in Technical and Vocational Education and Training: Trainer (NQF Level 6) and/or similar qualifications are eligible to apply for this programme.

Mature age applicants will be considered provided they meet the requirements and pass the mature age entry examinations of NUST.

Articulation Arrangements

Transfer of credits will be dealt with according to NUST's regulations on Recognition of Prior Learning (RPL). These requirements provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit that can be granted is 50 % of the credits for a qualification.

Mode of Delivery

The programme will be delivered on full-time, part-time, distance and eLearning modes of study in accordance with NUST rules and regulations.

Requirements for Qualification

The Diploma in Technical and Vocational Education and Training: Management (NQF Level 6) will be awarded to candidates credited with a minimum of 241 NQF credits, and who have met the detailed requirements as set out below. In addition, students must meet the administrative and financial requirements as spelt out in the NUST general rules and regulations.

Transition Arrangements

The Diploma in Technical and Vocational Education and Training: Management (NQF Level 6) is a revised programme replacing the existing Diploma in Vocational Education and Training (VET) Management (NQF Level 6) qualification. The last intake of 1st year students for the out-phasing programme (old curriculum) was in January 2019. The revised Diploma will be implemented at the start of the 2020 academic year.

Students who were registered in 2019 for the first year Diploma in Vocational Education and Training (VET) Management (NQF Level 6) qualification (old curriculum), who failed more than 50% of the courses at the end of the year 2019, will be required to change their registration to the revised Diploma. The students will be accorded credits on a course-by-course basis in accordance with information in the Table below. **Students in this category may lose credits.**

Students who are registered in 2019 for the 1st year of the out-phasing programme (old curriculum) and who meet all requirements to progress to the 2nd year in 2020, will be required to complete their studies, based on the requirements of the old curriculum. Courses will only be offered based on the new/revised syllabi in 2020 (1st year), 2021 (2nd year).

The deadline for complete phasing out of the Diploma in Vocational Education, and Training (VET) Management (NQF Level 6) qualification (old curriculum) is 2022 after which students must automatically change their registration to the revised Diploma and fulfil all requirements of the Diploma.

 Master of Applied Econometrics (Phasing in 2024)

08BEHO
 08BOAH
 09MOAE

**BACHELOR OF ECONOMICS HONOURS
 (Phased in 2015)**

08BEHO

NQF Level: 8

NQF Credits: 150

NQF Qualification ID: Q0286

Description

The Bachelor of Economics Honours is an initial postgraduate specialisation degree in economics. The programme is purposefully designed to equip students with deepened and systematic knowledge and expertise in the economics discipline, and to develop their capacity to conduct supervised research of an applied nature.

The programme's main emphasis is on the evaluation and application of economic theories and economic data to solve complex economic problems that face the public and private sectors in the economy. Students are required to do a combination of compulsory and elective courses, as well as a Mini-thesis.

Criteria for Admission

To be considered for admission to the Bachelor of Economics Honours, candidates must have a Bachelor of Economics Degree or an equivalent qualification.

Articulation Arrangements

Transfer of credits will be dealt with according to the NUST's regulations on Recognition of Prior Learning. These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit that can be granted is 50% of the credits for a qualification.

Students who graduate with the Bachelor of Economics Honours will ordinarily be able to pursue further studies in Economics, or a similar/related cognate area of learning, at NQF level 9.

Mode of Delivery

This programme will be offered on the full-time, part-time and distance modes of study.

Requirements for Qualification Award

The Bachelor of Economics Honours will be awarded to students credited with a minimum of 120 credits all at NQF level 8. Students are required to do four compulsory courses (worth 60 credits), two elective courses (worth 30 credits), and a mini-thesis (worth 30 credits). In addition, students should meet the administrative and financial requirements spelt out in the Postgraduate Yearbook of the Namibia University of Science and Technology.

Transition Arrangements

The review of the Bachelor of Economics Honours has resulted in minor changes to the programme. Thus, there are no significant transition arrangements. The revised Bachelor of Economics Honours however (revised curriculum) will take effect from January 2018 and courses will only be offered based on the new/revised syllabi in 2018.

Students who fail any of the courses on the old curriculum will be required to change their registration to the revised programme (revised curriculum). Students will then be required to repeat such courses based on the syllabi of new/revised corresponding courses (please refer to Table 15.1, below, for information on the new/revised corresponding courses to be done, if courses on the old curriculum are failed).

The deadline for complete phasing out of the Bachelor of Economics Honours (old curriculum) is 2018, and thereafter students must fulfil all requirements based of the revised curriculum.

BACHELOR OF ACCOUNTING HONOURS (Phased in 2015)

08BOAH

NQF Level: 8

NQF Credits: 120

NQF Qualification ID: Q2107

Description

This programme aims to develop intellectual and practical skills in the analysis, interpretation, and application of advanced accounting, governance, auditing, and taxation and thereby enabling students to identify and solve advanced accounting related challenges in real-life situations. Further, this programme enables students to develop their capacity to conduct supervised research of an applied nature. The Bachelor of Accounting Honours is critical such that it prepares students for a career as accounting professionals or for other business careers requiring a solid understanding of financial reporting and accounting. Students will have the opportunity to develop deep cognitive/intellectual skills, transferable skills, practical skills and a thorough understanding of the accounting function in organisations.

Students who graduate with a Bachelor of Accounting Honours degree will be able to find employment in the accounting profession, public sector, commerce & industry as credit managers, accounting managers, financial managers, financial accountants, tax practitioner and public sector finance managers and accountants.

This programme may also serve as an alternative route for those students seeking to be qualified accountants through the Association of Chartered Certified Accountants (ACCA), the Chartered Institute of Management Accountants (CIMA), the Institute Of Chartered Accountants In England and Wales (ICAEAW) and others.

The programme objective is to provide career growth for students who graduate with the undergraduate accounting degrees including opening opportunities for them to pursue higher degree programmes.

Criteria for Admission

To be considered for admission to this programme, candidates must have a Bachelor of Accounting degree or equivalent qualification at NQF Level 7 from NUST or an equivalent qualification from a recognised institution, worth at least 360 NQF credits, or a pre-NQF Bachelor degree of at least three years duration from a recognised institution with specialisations in Accounting.

In addition, candidates should have passed or have been exempted from the following courses or their equivalents at an undergraduate level (NQF Level 7 or equivalent):

- * Financial Accounting
- * Managerial Accounting and Finance
- * Auditing

Further, candidates wishing to take the Taxation course as an elective in semester 2 of the programme should have passed the Taxation course at NQF level 7 or equivalent in their undergraduate programme.

The department retains the right to apply additional admission criteria as may be approved by Senate from time to time. Applicants who are admitted to the programme may be required to make up for any deficiencies, as deemed necessary by the Head of Department.

Articulation Arrangements

Transfer of credits will be dealt with according to NUST regulations on Recognition of Prior Learning (RPL). These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit that can be granted is 50% of the credits for a qualification. Students who complete the Bachelor of Accounting Honours programme will be able to pursue further studies in Accounting or a related cognate area of learning, at NQF level 9.

Mode of Delivery and Duration of the Programme

This programme will be offered on the part-time mode of study as per NUST rules and regulations.

Requirements for Qualification Award

This qualification will be awarded to students credited with a minimum of 120 NQF credits, all at NQF Level 8. Students must complete five (5) compulsory semester courses (worth 75 credits), a mini-thesis worth 30 credits and at least one elective course worth 15 credits.

Transition Arrangements

This is a new programme that does not replace any existing programme(s). Transition arrangements are, therefore, not applicable.

**MASTER OF APPLIED ECONOMETRICS
(New Curriculum - Phasing in 2024)**

09MOAE

NQF Credits: 240

Description

The Master of Applied Econometrics is a coursework and research postgraduate programme design to equip students with advanced applied econometric modelling techniques used in diverse areas of economics and finance. The programme aims to equip students with relevant skills to develop and construct quantitative models/techniques needed to address the data-driven real-world economic phenomenon.

Students will be able to analyse, interpret sophisticated economic data, and apply economic theories to assess public policy's economic impacts better. Additionally, the programme will develop students' capacity to integrate theoretical knowledge with empirical settings to unravel economic complexities in data, theories and markets. They will be able to independently synthesise knowledge in econometrics, conduct research using scientific methods, and demonstrate findings in real-life situations.

Criteria for Admission

To be considered for admission to this programme, candidates must have an Honours degree in economics at NQF Level 8 from NUST or equivalent qualification from a recognised institution with a specialisation in Economics and a research component.

In addition, candidates should have passed with a 65% average. Holders of equivalent qualifications should have passed the following courses or equivalent at an Honours or postgraduate diploma level (NQF. Level 8):

- Econometrics
- Mathematical/Quantitative Economics

The department retains the right to apply additional admission criteria as Senate may approve from time to time. Applicants who are admitted to the programme may be required to make up for any deficiencies as deemed necessary by the Head of the Department.

Articulation Arrangement:

Transfer of credits will be dealt with according to NUST regulations on Recognition of Prior Learning (RPL). These provide course-by-course credits and credit transfer by volume under certain academic conditions. The maximum credit that can be granted is 50% of the seven (7) compulsory semester courses (worth 140 credits) and two (2) electives' courses worth 40 credits for a qualification.

Students who complete the Master of Applied Econometrics programme will pursue further studies in Economics or a related cognate area of learning at NQF level 10.

Mode of Delivery

This programme will be offered in full-time and part-time modes, using hybrid and blended study modes per NUST rules and regulations.

Requirements for Qualification Award

This qualification will be awarded to candidates credited with a minimum of 240 NQF credits, all at NQF Level 9. Students must complete seven (7) compulsory semester courses (worth 140 credits), a Mini-Thesis, worth 60 credits and two (2) electives courses worth 40 credits.

In addition, students are required to meet the administrative and financial requirements as spelt out in the postgraduate prospectus of NUST.

Teaching and learning strategies

The requirements of the NQF underline the acquisition of cognitive skills and competencies exceeding the knowledge and understanding of subject-specific knowledge items and professional/technical competencies. The learning process will be based on a socio-constructivist paradigm in which learning is considered as an active, constructive activity as opposed to a passive, reproductive process. Using the MyNUST eLearning platform and Microsoft Teams, digital technologies will be utilised to assist learning via a blended learning approach. Thus, the programme focuses on students' engagement in an interactive learning process to provide for the development of generic cognitive and intellectual, key transferable, and subject-specific and practical technical skills.

Quality Assurance requirements

Each course will have one or more examiners and one moderator. All courses will be externally moderated; thus, moderators will be identified externally. The required minimum qualification of the moderator should be a Doctoral degree in a related field of study, or the person must be a well-respected expert in the field of Economics/Econometrics. Lecturing staff will set and mark the assessments, which will be forwarded to the moderator for moderation purposes, ensuring the assessment's quality and qualification.

The mini-thesis will be moderated as per the NUST's rules for studies at the postgraduate level. As a quality assurance measure, all written assignments and research projects in the programme and all courses, including the mini-thesis, will be subjected to an internet-based similarity detection software (e.g., Turnitin) to prevent plagiarism and foster an academic writing culture of ethics and integrity.

Transition Arrangements

This new programme does not replace any existing programme(s). Transition arrangements are, therefore, not applicable.

BACHELOR OF BUSINESS MANAGEMENT HONOURS

08HBBM

NQF Level: 8

NQF Credits: 120

NQF Qualification ID: Q0959

Description

The Bachelor of Business Management Honours is a postgraduate specialisation degree, designed to equip students with deepened and systematic knowledge and expertise in the business management domain.

This programme enables students to develop their capacity to conduct supervised research of an applied nature. The programme places emphasis on business management skills to enable graduates to handle complex interpersonal interactions and business ventures. The programme is influenced by academia and small to medium business enterprises. There are many opportunities offered to gain experience from established businesses to enrich learning. This programme aims to develop professional and practical skills to become an effective manager of teams and business processes. In the same vein, through this programme, students will be equipped with advanced skills and knowledge such as critical, analytical and independent thinking, self-discipline, perseverance, finding innovative solutions to real-life business issues.

Criteria for Admission

For admission to the Bachelor of Business Management Honours, applicants must have a Bachelor of Business Management at NQF level 7 (with at least 360 credits) or an equivalent qualification from a recognised institution. Applicants with pre-NQF qualification of three years Bachelor degrees in domain areas closely related to Business Management, such as Public Management, Human Resources Management, Office Management and Technology, Accounting and Economics, Business Administration may also apply into the programme. Such applicants will be evaluated by the department and considered for admission on a case-by-case basis.

Articulation Arrangements

Transfer of credits will be dealt with according to the University's Regulations on Recognition of Prior Learning. This provides for course-by-course credits as well as credit transfer by volume under certain academic conditions. The maximum credit that can be granted is 50% of the credits required for a qualification.

Upon successful completion of the Bachelor of Business Management Honours, students will ordinarily be able to pursue further studies in Business Management, or similar/related/cognate area of learning at NQF level 9.

Mode of Delivery

This programme will be offered on the full-time and online modes of study in accordance with NUST rules and regulations.

Requirements for Qualification Award:

The Bachelor of Business Management Honours will be awarded to students credited with a minimum of 120 credits at NQF level 8. Students are required to do 6 compulsory courses worth 105 credits which includes a mini thesis worth 30 credits, and 1 elective course worth 15 credits. In addition, students should meet the administrative and financial requirements spelt out in the University's Yearbook Part 1 of the NUST.

Transition Arrangements

There are no significant changes between the Bachelor of Business Management Honours (old curriculum) and the Bachelor of Business Management Honours (revised curriculum).

The Bachelor of Business Management Honours (old curriculum) will be discontinued in 2020 with minimal disruption to existing learning progression as this is a one year degree. Students who failed more than 50% of the courses at the end of 2020 will be required to change their registration to the revised curriculum in 2021. Any student who fail any of the courses in the old curriculum will be required to repeat such courses based on the syllabi of new/revised corresponding courses in accordance with the Table, below, for detailed information on the new/revised corresponding courses.

BACHELOR OF HUMAN RESOURCES MANAGEMENT HONOURS

08HRM

NQF Level: 8

NQF Credits: 120

NQF Qualification ID: Q2313

Description

This programme is designed to provide students with a deepened, comprehensive and systematic understanding of human resource management skills and practices needed to make complex and strategic decisions in the workplace. The Bachelor of Human Resource Management Honours Degree is aimed at catapulting students into the specialist field of human resource practitioners and experts by equipping them with strategic thinking skills and deepened knowledge of the discipline.

Additionally, through this programme, students will be equipped with the knowledge and skills required to portray and project a critical understanding of the guiding principles, theories, methodologies and best practices of Human Resource Management and strategic thinking. In the same vein, on completion of this programme, graduates are expected to be able to plan, design and develop, implement, manage, monitor, strategies that sustain creativity, innovation and high performance in an organisation.

The programme is dedicated to developing existing and new human resource management practitioners by offering expanded comprehensive professional and academic diverse knowledge to solving challenging but strategically based human resource management problems and issues.

Criteria for Admission

To be considered for admission into this programme, candidates must have a Bachelor degree in Human Resource Management at NQF level 7, worth a minimum of 360 credits or, an equivalent qualification from a recognised institution.

Candidates holding a Diploma in Human Resource Management from NUST (then the Polytechnic of Namibia), may be considered for admission into this programme. Candidates may be admitted on advanced standing and be required to take requisite undergraduate courses based on individual candidate's academic profile.

Articulation Arrangements

Transfer of credits will be dealt with according to the NUST regulations on Recognition of Prior Learning. This provides for course-by-course credits as well as credit transfer by volume under certain academic conditions. The maximum credit transfer that can be granted is 50% of the credits for a qualification.

Graduates of this programme will ordinarily be able to pursue further studies in Human Resource Management, or similar/related cognate areas of learning at NQF level 9.

Mode of Delivery

The programme will be delivered on the full-time, part-time and distance, learning modes of study via online and blended methods as per NUST rules and regulations.

Requirements for Qualification Award

This qualification will be awarded to students credited with a minimum of 120 credits at NQF Level 8. Students are required to complete three compulsory courses (worth 45 credits), three elective courses (worth 45 credits), and a mini-thesis (worth 30 credits). In addition, students should meet the administrative and financial requirements as spelt out in the postgraduate prospectus of the Namibia University of Science and Technology (NUST).

Transition Arrangements

The Bachelor of Human Resources Management Honours (revised curriculum) will be phased-in 2022 with minimal disruption to existing students' learning progression. The last intake of 1st year students for the out-phasing programme was in January 2021. Courses will only be offered based on the revised curriculum as of 2022.

Students who fail any of the courses in the old curriculum will be required to repeat such courses based on the corresponding courses in the revised programme. Please refer to Table 15.1 below for detailed information on the new or revised corresponding courses to be done if students fail courses in the old curriculum. Furthermore, students who are registered for the out-phasing programme, and who fail more than 50% of the courses at the end of 2021, will be required to change their registration to the revised programme and will be granted credits on a course-by-course basis in accordance with information in the Table below.

The Bachelor of Human Resources Management Honours (old curriculum) will be completely phased out by the end of 2023 after which students must automatically switch to the revised programme (new curriculum) and fulfil all requirements based on the new curriculum.

BACHELOR OF PUBLIC GOVERNANCE HONOURS

08BPGH

NQF Level: 8

NQF Credits: 120

NQF Qualification ID:Q2258

Description

The Bachelor of Public Governance Honours is a postgraduate specialisation degree that is purposefully designed to equip students with deepened and systemic knowledge, expertise, and insight in the public governance discipline, as well as develop their capacity to conduct applied research. The programme's emphasis is on the evaluation and application of public management and governance theories, practices and public sector data in terms of real-world situations in order to resolve complex problems that face the public sector and civil society organisations, while also catering for the needs of the private sector.

Graduates of this programme will be able to make a sustained contribution to national economic development by finding employment primarily in the public sector and civil society organisations, but also in the private sector in positions such as Public Management Analysts; Development Practitioners; Public Policy Associate Consultants; Policy Analysts; Project/Programme Managers/Coordinators; Community Activists; Socio-economic Commentators; Regional and Local Government Managers, Non-governmental Organisation Managers; Training Officers and Junior Researchers depending on their level and depth of experience.

Criteria for Admission

In order to be considered for admission to the Bachelor of Public Governance Honours, candidates must have a Bachelor of Public Management degree at NQF level 7 or an equivalent qualification from a recognised institution worth at least 360 credits.

Holders of the National Diploma in Public Management, as well as the National Diploma in Public Administration from the then Polytechnic of Namibia, will be considered for admission. A National Diploma in Public Management/Administration from other universities will also be considered for admission.

Articulation Arrangements

Transfer of credits will be dealt with according to NUST's regulations on Recognition of Prior Learning. These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit that can be granted is 50 % of the credits for a qualification.

Students who graduate with the Bachelor of Public Governance Honours will ordinarily be able to pursue further studies in Public Governance, Public Management and Public Policy, or a similar/related cognate area of learning, at NQF level 9.

Mode of Delivery

This programme will be offered on the part-time mode of study in accordance with NUST rules and regulations. However, depending on student demand and an adequate staff complement, other modes of study can be offered.

Requirements for Qualification Award

The revised Bachelor of Public Governance Honours will be awarded to students credited with a minimum of 120 credits at NQF level 8. Students are required to do four compulsory courses (worth 60 credits), two elective courses (worth 30 credits), and a mini-thesis (worth 30 credits).

In addition, students should meet the administrative and financial requirements spelt out in the Postgraduate Yearbook Part 1 of NUST of Namibia. Elective courses will be offered in accordance with NUST rules and regulations with reference to number of students and the staff complement.

Transition Arrangements

The revised Bachelor of Public Governance Honours (new curriculum) will be phased-in 2021 with minimal disruption to existing students' learning progression. Courses will only be offered based on the revised curriculum as of 2021.

Students who fail any of the courses in the old curriculum will be required to repeat such courses based on the corresponding courses in the revised programme. Please refer to the Table below for detailed information on the new or revised corresponding courses to be done if students fail courses in the old curriculum.

The current programme (old curriculum) will be completely phased out by the end of 2020 after which students must automatically switch to the revised programme (new curriculum) and fulfil all requirements based on the new curriculum.

BACHELOR OF EMPLOYMENT AND LABOUR RELATIONS HONOURS

08BERH

NQF Credits: 120

Description

The Bachelor of Employment and Labour Relations Honours programme is designed to provide students with a sound knowledge of employment and labour relations management theory as well as the application of its principles in the business world. The programme will foster capacity building through equipping students with the technical, professional, scientific skills and values in order to successfully explore and resolve workplace and employment conflicts.

The programme exposes students to advanced labour and employment relations principles, concepts, theories and problem-solving techniques. The degree is designed to respond to both the local and international contexts, as students will explore various ways in which to manage relationships between employers and employees effectively in order to maximise economic gains and employment growth within Namibia and other developing countries. The overall aim of the programme is to prepare students to assume technical and professional roles at operational and mid-level management in the industry. Upon successful completion, graduates will be able to find employment as human resource practitioners or managers, labour relations experts, labour consultants, senior labour inspectors, employees relations managers, and arbitrators.

Criteria for Admission

To be considered for admission to this programme, candidates must have a Bachelor of Human Resources Management at NQF Level 7 from NUST, or a related qualification from a recognised institution, worth at least NQF 360 credits. Equally, relevant setting might be considered at the discretion of the Department.

Articulation Arrangements

Transfer of credits will be dealt with according to the Namibia University of Science and Technology regulations on Recognition of Prior Learning (RPL). These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit that can be granted is 50 % of the credits for a qualification.

Students who successfully complete the Bachelor of Employment and Labour Relations Honours will ordinarily be able to pursue further studies in Labour Relations or in a related cognate area at NQF level 9. In addition, the Honours degree programme will afford the students an opportunity to further their studies at Masters' level to advance their educational aspiration or register as professional member with such professional bodies like the Institute of Peoples' Management.

Mode of Delivery

The programme will be offered on full-time, in block session mode of study in accordance with Namibia University of Science and Technology rules and regulations and the availability of resources. Specifically, the hybrid or blended learning approach incorporating both the use of MyNUST eLearning platform and Microsoft Teams will be adopted in all modules.

Requirements for Qualification Award

The Bachelor of Employment and Labour Relations Honours will be awarded to students credited with a minimum of 120 NQF credits (all at NQF level 8). In addition, students must meet the administrative and financial requirements as spelt out in the Prospectus of the Namibia University of Science and Technology.

Transition Arrangements

This is a new programme that does not replace any existing programme(s). Transition arrangements are, therefore, not applicable.

Description

The Master of Management aimed at providing students with the specialised functional knowledge and skills in management domains at an advanced level. The programme is intended to equip students with an exemplary knowledge and relevant expertise to operate creatively, innovatively and effectively in today’s challenging business or organisational environment. Further, it aims to enhance graduates’ capabilities through strategic and critical thinking approaches to developing solutions as well as critical evaluation of evidence to support propositions. The programme will enable students to demonstrate a comprehension of the principles, concepts, theories and problem-solving techniques within the field of management. It is designed to respond to emerging challenges both locally and international contexts.

Criteria for Admission

Applicants holding a Bachelor of Business Management Honours degree from Namibia University of Science and Technology or an equivalent qualification at NQF Level 8, or a 4-year pre-NQF qualification with a research component in related fields are eligible for admission into this programme. Furthermore, the admission will be guided by the General Admission Requirements of the Namibia University of Science and Technology post graduate Prospectus and in accordance with the National Qualifications Framework.

Articulation Arrangements

Transfer of credits will be dealt with according to the Namibia University of Science and Technology regulations on Recognition of Prior Learning (RPL). These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit that can be granted is 50 % of the credits for a qualification.

Students who successfully complete the Master of Management will ordinarily be able to pursue further studies at Doctoral level, NQF level 10 in the same or similar cognate area of learning.

Mode of Delivery

This programme will be offered on part time and distance modes. The possibility to offer it on full time, on block sessions will be determined by the availability of resources.

Requirements for Qualification Award

The Master of Management will be awarded to candidates credited with a minimum of 240 NQF credits (all at level 9) and who have met the detailed requirements as set out below. In addition, students must meet the administrative and financial requirements as spelt out in the Prospectus of the Namibia University of Science and Technology.

Transition Arrangements

This is a new programme which does not replace any existing programme(s). Transition arrangements are, therefore, not applicable.

MASTER OF HUMAN RESOURCES MANAGEMENT

09MHRM

NQF Level: 9

NQF Credits: 240

NQF Qualification ID: Q2002

Description

The Master of Human Resource Management is designed to provide students with the human resource management knowledge and skills at an advanced level. The programme aims to equip students with an exemplary knowledge and relevant expertise in their area of major, labour relations, organisational behaviours and human resource development, to operate effectively in today’s ever changing and challenging business environment both in public and private establishments.

Criteria for Admission

Applicants that hold a Bachelor of Human Resources Management Honours degree from Namibia University of Science and Technology or an equivalent qualification at NQF Level 8, that was obtained from any recognised institutions or a 4-year pre-NQF qualification with a research component in related fields are eligible for admission into this programme.

Articulation Arrangements

Transfer of credits will be dealt with according to the Namibia University of Science and Technology regulations on Recognition of Prior Learning (RPL). These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit that can be granted is 50% of the credits for a qualification.

Students who successfully complete the Master of Human Resource Management will ordinarily be able to pursue further studies at Doctoral level, NQF level 10 in the same or similar cognate area of learning.

Mode of Delivery

This programme will be offered on fulltime, part time, distance. These may be offered in block sessions in accordance with Namibia University of Science and Technology rules and regulations and availability of resources. However, offering the programme on those modes is a function of the department’s discretion, also the yearly intake.

Requirements for Qualification Award

The Master of Human Resource Management within the area of major will be awarded to students credited with a minimum of 240 NQF credits, all at NQF level 9. In addition, students must meet the administrative and financial requirements as spelt out in the in the Year Book, Part 1 of the Namibia University of Science and Technology.

Transition Arrangements

This new programme does not replace any existing programme, hence transition arrangements are, therefore, not applicable.

DEPARTMENT OF HOSPITALITY AND TOURISM

CODE: 258

QUALIFICATIONS OFFERED

Bachelor of Hospitality and Tourism Management Honours
Master of Hospitality and Tourism Innovation Management

08BHTH
09MOHT

**BACHELOR OF HOSPITALITY AND TOURISM MANAGEMENT HONOURS
(Phased in 2019)**

08BHTH

NQF Level: 8

NQF Credits: 120

NQF Qualification ID: Q1146

Description

The Bachelor of Hospitality and Tourism Management Honours is designed to consolidate and deepen the competencies in the main cognate area of learning. The programme takes a multi-dimensional approach to management of hospitality and tourism services and products; and requires students to apply strategic approaches to ever dynamically changing environment. Students will be able to plan, solve managerial and strategic challenges within the hospitality and tourism industry.

Criteria for Admission

In order to be admitted to the Bachelor of Hospitality and Tourism Management Honours, applicants must have a Bachelor of Hospitality Management or a Bachelor of Tourism Management at NQF level 7 from NUST (worth at least 360 credits) or an equivalent qualification from a recognised institution. Applicants with pre-NQF Bachelor’s degrees in domain areas closely related to Hospitality and Tourism Management, such as Hotel Management, Business Administration, may also apply for admission into the programme. Such applicants will be evaluated by the department and considered for admission on a case-by-case basis.

Articulation Arrangements

Transfer of credits will be dealt with according to the NUST’s regulations on Recognition of Prior Learning. This provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. The maximum credits that can be granted should not be more 50% of the credits for a qualification. Graduates of this programme will be able to pursue further studies in Hospitality and Tourism Management, or related cognate area of learning at NQF level 9.

Mode of Delivery

This programme will be offered on the full-time basis with a block release and distance learning mode that would be complemented by MyNUST E-Learning platform.

Requirements for Qualification Award

The Bachelor of Hospitality and Tourism Management Honours will be awarded to students credited with a minimum of 120 credits all at NQF level 8. Students are required to do six compulsory courses (five courses worth 75 credits and a mini thesis worth 30 credits) and one elective course (worth 15 credits) and a mini thesis (worth 30 credits). In addition, students should meet the administrative and financial requirements spelt out in the NUST general rules and regulations.

Transition Arrangements

This is a new programme which does not replace any existing programme(s). Transition arrangements are, therefore, not applicable.

**MASTER OF HOSPITALITY AND TOURISM INNOVATION MANAGEMENT
(New Curriculum – Phasing in 2024)**

09MOHT

NQF Credits: 240

Description

The Master of Hospitality and Tourism Innovation Management is a coursework and research-based postgraduate programme designed to enable students to critically examine the characteristics and frameworks of the tourism and hospitality business and evaluate the scope for innovation management within them. Students will be able to apply concepts, theories, and methods of management required to effectively analyse and craft tourism and hospitality management strategies that can give an organisation a competitive advantage in the highly competitive tourism industry.

The Master of Hospitality and Tourism Innovation Management programme will therefore, equip students with innovative techniques and strategic thinking in tourism and hospitality, eTourism and digital marketing, tourism policy, planning, and development among other areas.

Criteria for Admission

Applicants holding a Bachelor of Hospitality and Tourism Management Honours degree from Namibia University of Science and Technology or any other higher education institution with equivalent qualification at NQF Level 8, or a 4-year pre-NQF qualification with a research component in related fields are eligible for admission into this programme. Furthermore, the admission will be guided by the General Admission Requirements of the Namibia University of Science and Technology post-graduate prospectus.

Articulation Arrangements

Transfer of credits will be dealt with according to the Namibia University of Science and Technology regulations on Recognition of Prior Learning (RPL). These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit that can be granted is 50 % of the credits for a qualification.

The Master of Hospitality and Tourism Innovation Management will ordinarily provide access to further studies at Doctoral level, NQF level 10 in the same or similar cognate area of learning.

Mode of Delivery

This programme will be offered on a part-time basis using a blended approach encompassing face to face and online learning. The possibility to offer it on full-time, on block sessions will be determined by the availability of resources and will be demand-driven.

Requirements for Qualification Award

The Master of Hospitality and Tourism Innovation Management will be awarded to candidates credited with a minimum of 240 NQF credits (all at level 9) and who have met the detailed requirements as set out below. In addition, students must meet the administrative and financial requirements as spelt out in the Namibia University of Science and Technology general rules and regulations.

NQF Level:

NQF Credits: 120

NQF Qualification ID:

Description

The Bachelor of Marketing Honours is designed to provide students with deepened, comprehensive and systematic marketing skills needed to make complex and market wide decisions and to help them to accomplish an upturn mind-set.

This programme is aimed at propelling the students into the realm of practitioners and marketing experts with exemplary strategic capacity and critical understanding of the guiding principles, theories, methodologies and practices of marketing, marketing management and strategic marketing. This programme is also a response to the marketing and sales functions that are having a renewed sense of focus within the organisation, globally, shifting to an 'upturn' mind-set.

Criteria for Admission

To be admitted to this programme, applicants must have a Bachelor's degree in Marketing, or an equivalent qualification at NQF Level 7 from a recognized institution worth at least 360 credits or a pre-NQF Bachelor degree of at least three years duration in marketing related fields from a recognized institution.

Applicants who have completed the National Diploma in Marketing awarded by the Polytechnic of Namibia can gain admission into the Bachelor of Marketing Honours provided they have an overall average of at least 65% pass in the third-year courses.

Applicants who are admitted to the programme may be required to make up for any deficiencies, as deemed necessary by the Head of Department.

Articulation Arrangements

Transfer of credits will be dealt with according to NUST regulations on Recognition of Prior Learning. These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit that can be granted is 50 % of the credits for a qualification.

Graduates of this programme will be able to pursue further studies at NQF level 9 in Marketing, or a related cognate area of learning.

Mode of Delivery

This programme is delivered on full-time and part-time modes in accordance with NUST rules and regulations and in the same vein, blended approach will be utilised in the mode of delivery.

Requirements for Qualification Award

The Bachelor of Marketing Honours will be awarded to students credited with a minimum of 120 NQF credits at NQF Level 8. Students are required to do five (5) compulsory courses (worth 75 credits), one elective course (worth 15 credits) and a Mini-thesis (worth 30 credits). In addition, students should meet the administrative and financial requirements spelt out in the Postgraduate Prospectus of NUST.

Transition Arrangements

The Bachelor of Marketing Honours (old curriculum) will phase out completely at the end of 2022 with minimal calculated disruption to existing students' learning progression. The last intake of students for the out-phasing programme (old curriculum) was in January 2022. This last cohort of students have until end of 2022 to complete the out-phasing programme (old curriculum) after which the revised programme Bachelor of Marketing honours is introduced and implemented in 2023.

The revised Bachelor of Marketing Honours (new curriculum) will take effect from January 2023. Courses will only be offered based on the new/revised syllabi in accordance with the requirements of the revised programme.

Students, who are registered on the out-phasing programme (old curriculum) for the 1st year, but failed more than 50% of the courses at the end of 2022, will be required to transition to the revised curriculum in 2023. Similarly, any student who failed a course(s) on the out-phasing programme (old curriculum) at the end of 2022 will be required to transition to the revised programme (new curriculum) in 2023. This cohort of students will be required to repeat any course(s) they failed based on the syllabi of new corresponding courses (please refer to the Table below, for detailed information on the new corresponding courses to be done if courses in the old curriculum are to be repeated).

**BACHELOR OF LOGISTICS AND SUPPLY CHAIN MANAGEMENT HONOURS
(Revised Programme – Phasing in 2024)**

08BLSH

NQF Credits: 120

Description

The Bachelor of Logistics and Supply Chain Management Honours is designed to provide students with deepened, comprehensive, and systematic skills needed to make complex and global decisions and to help equip them with the tools to take 'Namibia's nascent logistics industry fast forward. The programme aims to propel the students into the realm of practitioners and logistics and supply chain management experts with exemplary strategic capacity and critical understanding of the guiding principles, theories, methodologies, and practices of logistics and supply chain Management.

The Bachelor of Logistics and Chain Management Honours provide a roadmap for the future of the organization; a future in which logistics and supply chain management are first and logisticians and/or supply chain agents play a critical role as stewards of the customer journey, from the organisational design team to the importance of engaging key customers on a truly personal and one on one level.

Criteria for Admission

To be admitted to this programme, applicants must have a Bachelor of Procurement and Supply Chain Management or an equivalent qualification at NQF level 7 from a recognised institution, worth at least 360 credits or a pre-NQF ' 'bachelor's degree of at least three years in a related field from a recognized institution.

Applicants admitted to the programme may be required to make up for any deficiencies as deemed necessary by the Head of Department.

Articulation Arrangements

Transfer of credits will be handled according to the ' 'NUST's regulations on Recognition of Prior Learning. These provide for course-by-course credits and credit transfer by volume under certain academic conditions. The maximum credit that can be granted is 50 % of the credits for a qualification.

Graduates of this programme can pursue further studies at NQF level 9 in Logistics, Supply Chain Management, or a related cognate area of learning.

Mode of Delivery

This course will be offered on part-time and blended learning as a mode of study.

Requirements for Qualification Award

The Bachelor of Logistics and Supply Chain Management Honours will be awarded to students credited with a minimum of 120 NQF credits at NQF Level 8. In addition, students should meet the administrative and financial requirements spelt out in the Postgraduate Prospectus of NUST.

Transition Arrangements

The Bachelor of Logistics and Supply Chain Management Honours (old curriculum) will phase out completely at the end of 2023 with minimal calculated disruption to existing 'students' learning progression. The last intake of students for the out-phasing programme (old curriculum) was in January 2023. This last cohort of students have until 2023 to complete the out-phasing programme (old curriculum.).

The revised Bachelor of Logistics and Supply Chain Management Honours (new curriculum) will take effect from January 2024. Courses will only be offered based on the new/revised syllabi in accordance with the requirements of the revised programme.

Students, who are registered on the out-phasing programme (old curriculum) for the 1st year but failed more than 50% of the courses at the end of 2023, will be required to transition to the revised curriculum in 2024. Similarly, any student who failed a course(s) on the out-phasing programme (old curriculum) at the end of 2023 will be required to transition to the revised programme (new curriculum) in 2024.

This cohort of students will be required to repeat any course(s) they failed based on the syllabi of new corresponding courses (please refer to the Table below, for detailed information on the new corresponding courses to be done if courses in the old curriculum are to be repeated).

Courses to be credited

Course Code	Bachelor of Logistics and Supply Chain Management Honours (Old Courses)	Course Code	Bachelor of Logistics and Supply Chain Management Honours (Equivalent New/Revised Course)

POSTGRADUATE DIPLOMA IN PROCUREMENT MANAGEMENT

08PDPM

NQF Level: 8

NQF Credits: 120

NQF Qualification ID: Q2295

Description

The Postgraduate Diploma in Procurement Management (Level 8) Programme primarily aims at providing students with a rigorous conceptual framework, systematic knowledge on the best practices in the areas at the forefront of procurement management while ensuring the efficient and effective utilisation of the organisational resources. The programme further equips students with advanced knowledge of sustainable public procurement practices to promote integrity, transparency and the attainment of national developmental goals.

Criteria for Admission

This programme admits candidates with a Bachelor's degree in any discipline or an equivalent qualification at NQF Level 7 from a recognised institution, worth at least NQF 360 credits. They must have at least three years of relevant procurement working experience in the public or private sector. The department reserve the right to use other discretions deem relevant in terms of different equivalent industry setting experience.

Applicants must demonstrate competency in the English language by either:

- * the undergraduate degree was done in the medium of English
- * or successful completion of the International English Language Testing System (IELTS) at a minimum of band seven (7) or an equivalent test.
- *Alternatively, proficiency in the English language should be demonstrated at the appropriate level through written assessments under controlled conditions. At the same time, applicants may also be required to take part in an interview.

Articulation Arrangements

Transfer of credits will be dealt with according to the NUST's regulations on Recognition of Prior Learning. This provides for course-by-course credits as well as credit transfer by volume under certain academic conditions. The maximum credit that can be granted is 50% of the total credits for the qualification.

The students may articulate horizontally to a related Bachelor Honours degree and gain credit for relevant courses passed for credit recognition in the Postgraduate Diploma in Procurement Management. The Postgraduate Diploma in Procurement Management (Level 8) may, however, articulate vertically to further studies in the same, or a related cognate area, at NQF Level 9, provided that a student takes up a research methodology course enrolled for non-degree purposes to meet one of the admission criteria.

Mode of Delivery

This programme will be offered on block release modes through online and blended learning and per NUST rules and regulations.

Requirements for Qualification Award

The Postgraduate Diploma in Procurement Management will be awarded to candidates credited with a minimum of 120 NQF credits (all at NQF Level 8) and met the detailed qualification requirements as outlined below. All eight courses are compulsory. In addition, candidates should meet the administrative and financial requirements as spelt out in the NUST general rules and regulations.

Transition Arrangements

This is a new programme that does not replace any existing programme(s). Transition arrangements are, therefore, not applicable.

**MASTER OF LOGISTICS AND SUPPLY CHAIN MANAGEMENT
(Revised Programme)**

09MLSM

NQF Level: 9

NQF Credits: 240

NQF Qualification ID: Q2332

Description

The Master of Logistics and Supply Chain Management is designed to provide broad high level competencies that build on the learning outcomes of the Bachelor of Logistics Honours. This vocation-focused programme will equip students with critical managerial competencies required by the logistics and supply chain industry in Namibia. The programme aims to prepare students to plan, evaluate, organise, direct, and control the logistics and supply chain management functions and processes of firms/organisations and to engage in rigorous analysis and problem-solving.

Criteria for Admission

The Master of Logistics and Supply Chain Management seeks to recruit suitably qualified students who are capable of benefitting from, contributing to, and successfully completing the programme. In order to be considered for admission to this programme, prospective students must:

- Hold a Bachelor Honours degree in Logistics, Supply Chain Management or a related cognate area of learning, or an equivalent qualification at NQF Level 8 from a recognised institution, which must include professional studies of the underlying subject matter in Logistics and Supply Chain Management and a component of supervised research.
- Have passed Business Mathematics or an equivalent course at undergraduate level. Students who have reached the required standard of competence in another manner will be required to demonstrate such competence through a process of rigorous assessment, i.e. Recognition of Prior Learning.
- Demonstrate competency in English communication in business at post graduate level, as demonstrated by the fact that the undergraduate degree was done in the medium of English. If the undergraduate degree was not done in the medium of English, then the candidate will be required to show competence in the medium of English through the International English Language Testing System (IELTS), or an equivalent test.

Qualifications in related cognate areas of learning will be evaluated on a case-by-case basis for purposes of admission. Students may be required to make up specific deficiencies at the discretion of the Head of Department.

An evaluation of the applicant's academic record and a personal letter providing reasons for wishing to enrol for the Master of Logistics and Supply Chain Management will be required for selection purposes.

Mode of Delivery

This programme will be offered on part time mode of study through block delivery.

Requirements for Qualification Award

This qualification will be awarded to students credited with a minimum of 240 credits (all at NQF Level 9), and who have met the detailed qualification requirements as set out below. Students are required to complete 12 compulsory courses (worth 144 credits), one elective course (12 credits), and a mini-thesis (84 credits). In addition, students should meet the administrative and financial requirements as spelt out in the Postgraduate Prospectus of the Namibia University of Science and Technology.

Transition Arrangements

This is a new programme which does not replace any existing programme(s). Transition arrangements are, therefore, not applicable.

Quality Assurance requirements

Each course (please refer to the Detailed Qualification Requirements in section 13) will have one or more examiner and one moderator. The required minimum qualification of the moderator should be a Master's degree in a related field of studies or the person must be a well-respected expert in the field.

Lecturing staff will set and mark tests and/or examinations which will, together with relevant study material of that particular course and other material containing course learning outcomes in the context of the qualification learning outcomes, be forwarded to the moderator for moderation purpose, therefore, ensuring quality of the assessment and the qualification as a whole. All the courses will be externally moderated while the Mini-thesis will be moderated in accordance with the Polytechnic's rules on postgraduate studies.

**MASTER OF LOGISTICS AND SUPPLY CHAIN MANAGEMENT
(Old Curriculum - Phasing out 2024)**

09MLSC

NQF Level: 9

NQF Credits: 240

NQF Qualification ID: Q0264

Description

The Master of Logistics and Supply Chain Management is designed to build on the learning outcomes of the Bachelor of Logistics Honours, offered by the Polytechnic of Namibia. This programme aims at preparing students to plan, evaluate, organise, direct, and control the logistics and supply chain management functions and processes of firms/organisations and to engage in rigorous analysis and problem-solving.

Criteria for Admission

The Master of Logistics and Supply Chain Management seeks to recruit suitably qualified students who are capable of benefitting from, contributing to, and successfully completing the programme. In order to be considered for admission to this programme, prospective students must:

- * Hold an appropriate Bachelor Honours or a four-year Bachelor degree from a recognised institution, or an equivalent qualification at NQF Level 8, which must include a component of supervised research;
- * Have passed Business Mathematics or an equivalent course at undergraduate level. Students who have reached the required standard of competence in another manner will be required to demonstrate such competence through a process of rigorous assessment, i.e. RPL.
- * Demonstrate competency in English communication in business at post graduate level, as demonstrated by the fact that the undergraduate degree was done in the medium of English. If the undergraduate degree was not done in the medium of English, then the candidate will be required to show competence in the medium of English through the International English Language Testing System (IELTS), or an equivalent test.

Students may be required to make up any other deficiencies at the discretion of the Head of Department.

An evaluation of the applicant's academic record and a personal letter providing reasons for wishing to enrol for the Master of Logistics and Supply Chain Management will be required for selection purposes.

Mode of Delivery

This programme will be offered on part time mode of study through block delivery.

Requirements for Qualification Award

This qualification will be awarded to students credited with a minimum of 240 credits (all at NQF Level 9), and who have met the detailed qualification requirements as set out below. Students are required to complete 12 compulsory courses (worth 144 credits), one elective course (12 credits), and a mini-thesis (84 credits). In addition, students should meet the administrative and financial requirements as spelt out in the Postgraduate Prospectus of the Polytechnic of Namibia.

Transition Arrangements

This is a new programme which does not replace any existing programme(s). Transition arrangements are, therefore, not applicable.

Quality Assurance requirements

Each course (please refer to the Detailed Qualification Requirements in section 13) will have one or more examiner and one moderator. The required minimum qualification of the moderator should be a Master's degree in a related field of studies or the person must be a well-respected expert in the field.

Lecturing staff will set and mark tests and/or examinations which will, together with relevant study material of that particular course and other material containing course learning outcomes in the context of the qualification learning outcomes, be forwarded to the moderator for moderation purpose, therefore, ensuring quality of the assessment and the qualification as a whole. All the courses will be externally moderated while the Mini-thesis will be moderated in accordance with the Polytechnic's rules on postgraduate studies.

MASTER OF MARKETING

09MARK

NQF Level: 9

NQF Credits: 240

NQF Qualification ID: Q2003

Description

The Master of Marketing aims at equipping students with advanced principles, techniques and skills related to marketing strategy development, implementation and evaluation, as well as advanced research techniques that will enable them to acquire data, process it thus enabling them to conceive and execute a rational and, effective strategy.

Marketers everywhere are seeking to raise the visibility of their discipline in terms of contributing to the overall aims and objectives of their organisations. For this to happen it is crucially important for students to understand and be able to carry out the procedures necessary for building and implementing a great marketing strategy. Hence this programme aims at providing the foundations necessary to embed students in strategic marketing in a practical and comprehensive way.

Criteria for Admission

The Master of Marketing programme seeks to recruit suitably qualified students who are capable of benefitting from, contributing to, and successfully completing the programme. In order to be considered for admission to this programme, prospective students must:

- Hold a Bachelor of Marketing Honours from a recognised institution, or an equivalent qualification at NQF Level 8, which include a component of supervised research achieving a mark of 60% or higher.
- An evaluation of the applicant's academic record and a personal letter providing reasons for wishing to enrol for the Master of Marketing will be required for selection purposes.

Articulation Arrangements

Transfer of credits will be dealt with according to the NUST's regulations on Recognition of Prior Learning (RPL). These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit that can be granted is 50 % of the credits for a qualification.

Students who successfully complete the Master of Marketing will ordinarily be able to pursue further studies at NQF Level 10 in Marketing, or a related cognate area of learning.

Mode of Delivery

This programme will be offered on the full time and part-time modes of study in accordance with NUST rules and regulations.

Requirements for awarding qualification

The Master of Marketing will be awarded to candidates credited with a minimum of 240 NQF credits, all at NQF level 9. In addition, students must meet the administrative and financial requirements as spelt out in the Prospectus of the Namibia University of Science and Technology.

Transition Arrangements

This is a new programme which does not replace any existing programme(s). Transition arrangements are, therefore, not applicable

Quality Assurance requirements

Each course (please refer to the Detailed Qualification Requirements) will have one or more examiner and one moderator in accordance with the NUST post graduate requirement. The required minimum qualification of the moderator should be a Doctoral degree in a related field of studies or the person must be a well-respected expert in the field.

Lecturing staff will set and mark tests and/or examinations which will, together with relevant study material of that particular course and other material containing course learning outcomes in the context of the qualification learning outcomes, be forwarded to the moderator for moderation purpose, therefore, ensuring quality of the assessment and the qualification as a whole. All the courses will be externally moderated while the Mini-thesis will be moderated in accordance with the NUST's rules on postgraduate studies.

SCHOOL OF HUMAN SCIENCES

DEPARTMENT OF COMMUNICATION AND LANGUAGES

CODE: 108

QUALIFICATIONS OFFERED

Bachelor of Communication Honours	08BCMh
Bachelor of English and Linguistics Honours	08BENG
Master of English and Applied Linguistics (Revised – Phasing in 2025)	09MOEL
Master of English and Applied Linguistics (Phasing out 2025)	09MEAL

BACHELOR OF COMMUNICATION HONOURS

08BCMh

NQF Level: 8

NQF Credits: 150

NQF Qualification ID: Q0286

Description

The Bachelor of Communication Honours forms an integral part of the learning pathway for students who are enrolled for the Bachelor of Communication degree at the Namibia University of Science and Technology. The development of this programme is in line with the Vision of the University, i.e. to be a premier University of Science and technology, preparing leaders for the new economy. This programme produces communication specialists and spin doctors that are vital for Namibia's competitiveness as a global player.

Graduates of this programme will be able to contribute towards national development imperatives in the sense that for the economy to realise its development goals it needs to have highly qualified personnel in all disciplines, including Communication experts and professionals. Also, graduates will be adaptable and proactive solution providers of communication problems in dynamic multicultural private and public organisations.

Criteria for Admission

To be considered for admission to the Bachelor of Communication Honours, candidates must have a Bachelor of Communication degree or an equivalent qualification at NQF Level 7 from a recognised institution, worth at least 360 credits.

Students who obtained their Bachelor degrees, or equivalent qualifications from other Universities may be required to make up for any deficiencies as deemed necessary by the Department.

Articulation Arrangements

Transfer of credits will be dealt with according to the University's regulations on Recognition of Prior Learning. These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit that can be granted is 50% of the credits for a qualification.

Students who graduate with the Bachelor of Communication Honours will ordinarily be able to pursue further studies in Communication or a similar/related cognate area of learning at NQF Level 9.

Mode of Delivery

This programme will initially be offered on the part-time mode, while it is anticipated that the full-time and distance modes will be offered at a later stage.

The Bachelor of Communication Honours will be awarded to students credited with a minimum of 120 credits at NQF Level 8. Students are required to do six compulsory courses (worth 90 credits) and a mini-thesis (worth 30 credits). In addition, students should meet the administrative and financial requirements spelt out in the Prospectus of the University.

Quality Assurance requirements

Each course (please refer to the Detailed Qualification Requirements) will have one or more examiners and one moderator. Moderators will be identified externally. The required minimum qualification of the moderator should be a Master's degree in a related field of studies, or the person must be an experienced expert in the field of Communication and Language Studies. Lecturing staff will set and mark tests and assignments, and/or examinations, which will be forwarded to the moderator, therefore ensuring quality of the assessment and the qualification as a whole.

Transition Arrangements

The revised Bachelor of Communication Honours (new curriculum) will be phased in January 2021 with minimal disruption to existing students' learning progression. The last intake of students for the Bachelor of Communication Honours was in January 2020.

Students who fail any of the courses in the old curriculum will be required to repeat such courses based on the corresponding courses in the revised programme. Please refer to the Table below for detailed information on the new or revised corresponding courses. Courses will only be offered based on the revised curriculum as of January 2021.

The Bachelor of Communication Honours (old curriculum) will be completely phased out by the end of 2020 after which students must automatically switch to the revised programme (new curriculum) and fulfil all requirements based on the new curriculum.

BACHELOR OF ENGLISH AND LINGUISTICS HONOURS

08BENG

NQF Level: 8

NQF Credits: 150

NQF Qualification ID: Q0733

Description

The Bachelor of English and Linguistics Honours degree is a postgraduate specialisation degree that aims at consolidating and deepening the knowledge and skills of students in the main cognate area of learning, as well as developing their capacity to conduct supervised research of an applied and literary nature.

The programme is purposely designed to expose students to advanced concepts and theories, while it facilitate practice-oriented mastery of and insight into the use of English language and Linguistics skills in various contexts and situations as a hall mark for competent and effective communication. The programme will, furthermore enable students to demonstrate mastery of the language in order to enhance substantial immersion in literary texts.

Criteria for Admission

Applicants may be considered for admission to this programme if they have a Bachelor's degree in English and Linguistics from NUST, or an equivalent qualification at NQF level 7 from a recognised institution, worth at least 360 credits.

Articulation Arrangements

Transfer of credits will be dealt with according to the NUST regulations on Recognition of Prior Learning. These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit that can be granted is 50% of the credits for a qualification.

Graduates of this programme will ordinarily be able to pursue further studies in English and Linguistics, or a related cognate area of learning, at NQF level 9.

Mode of Delivery

The programme will be offered on part-time and distance education modes of study in accordance with NUST rules and regulations.

Requirements for Qualification Award

The Bachelor of English and Linguistics Honours will be awarded to students credited with a minimum of 120 NQF credits (all at level 8). Students are required to do 5 compulsory courses (worth 75 credits), 1 elective course (worth 15 credits) and a mini-thesis (worth 30 credits). In addition, students should meet the administrative and financial requirements as spelt out in the NUST general rules and regulations.

Quality Assurance requirements

Each course (please refer to the Detailed Qualification Requirements) will have one or more examiner and one moderator. Moderators will be identified both internally and externally.

The required minimum qualifications of the moderator should be a Master's degree in a related field of study, or the person must be a well-respected expert in the field. Lecturing staff will set and mark tests and/or examinations which will, together with relevant study material of that particular course be forwarded to the moderator for purposes of moderation. This action will therefore ensure quality of assessment and the qualification as a whole. All the courses will be moderated externally.

Transition Arrangements

There are no significant changes between the current version of the Bachelor of English Honours (old curriculum) and the Bachelor of English and Linguistics Honours (revised curriculum).

The Bachelor of English and Linguistics Honours (revised curriculum)) will therefore takes effect from January 2021. Courses will only be offered based on the new/revised syllabi in 2021. Students who fail any of the courses on the old curriculum will be required to repeat such courses based on the syllabi of new/revised corresponding courses (please refer to the Table below, for information on the new/revised corresponding courses to be done, if courses on the old curriculum are failed).

The deadline for complete phasing out of the Bachelor of English Honours (old curriculum) is 2019, after which students must automatically change registration to the revised programme (revised curriculum) and fulfil all requirements of the new curriculum.

**MASTER OF ENGLISH AND APPLIED LINGUISTICS
(Revised Programme – Phasing in 2024)**

09MOEL

NQF Credits: 240

Description

The Master of English and Applied Linguistics (MEAL) is developed specifically to deliver the language and literary competence needed for the 21st-century digital societies. It incorporates digital literacies, forensic linguistics, and the application of literary and linguistic knowledge to solve real-world problems.

Graduates of this programme will be well-grounded in language, literary, and communication skills through the use of appropriate technology. This will enable them to critically and creatively engage in a knowledge society that experiences information overload. The programme is further designed to equip students with the necessary competencies to develop and implement questions, concepts, and methods for research projects. The curriculum is restructured to facilitate research in the areas of Literature and Applied Linguistics with a particular focus on multi-media and digital forms.

Criteria for Admission

To be considered for admission to this programme, candidates must have a bachelor honour's degree in English and Linguistics from Namibia University of Science and Technology, or an equivalent qualification at NQF Level 8 from a recognised institution, worth at least 120 credits.

Articulation Arrangements

Transfer of credits will be dealt with according to Namibia University of Science and Technology regulations on Recognition of Prior Learning. These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. The maximum credit that can be granted is 50% of the credits for a qualification.

Graduates of this programme will ordinarily be able to pursue further studies in English or Applied Linguistics or a related cognate area of learning, at NQF level 10.

Mode of Delivery

This programme will be offered on full time and part-time modes of study using hybrid and blended modes in accordance with the Namibia University of Science and Technology rules. Lectures will be offered on "block release" during non-working hours or blended online learning.

Requirements for Qualification Award

This qualification will be awarded to candidates credited with a minimum of 240 credits (all at NQF Level 9), and who have met the detailed qualification requirements as set out below. Students are required to complete 7 compulsory courses (worth 140 credits), and a thesis (100 credits). In addition, candidates must meet the administrative and financial requirements as spelled out in the Postgraduate Prospectus of Namibia University of Science and Technology.

Quality Assurance Requirements

Quality assurance will be conducted in accordance with NUST requirements. Each course (please refer to the Detailed Qualification Requirements) will have one internal examiner and one external examiner. Lecturing staff will set and mark assignments and tests, and thereafter, the graded assessments, memoranda and course material, together with the course outlines stipulating the desired learning outcomes, will be forwarded to the moderator. All the courses will be examined externally while the thesis will be examined according to the NUST's rules on postgraduate studies.

Transition Arrangements

The current programme will be phased out systematically until 2025, with minimal disruption to existing students' learning progression. The last intake of 1st-year students for the out-phasing programme will be in January 2023.

Students who are registered in 2023 for the 1st year of the out-phasing programme (09MEAL) and who fail more than 50% of the courses at the end of the year, will be required to change their registration to the revised programme (new curriculum), and will be granted credits on a course-by-course basis as many of the courses in the old and the revised curriculum are the same as per tables below.

Students who are registered on the out-phasing programme (09MEAL) in 2023, and who meet the requirements to progress to 2nd in 2024 as well as any students who were registered in 2nd year in 2023 or prior, such students will be required to complete their studies based on the requirements of the old curriculum. Further they will be granted credits on a course-by-course basis in accordance with the Table.

The revised programme will take effect in 2024, with implementation of Year 1 in 2024 and Year 2 in 2025. The Master of English and Applied Linguistics (Old curriculum) will completely by the end of 2025, after which students must automatically change registration to the revised programme (revised curriculum) and fulfil all requirements of the revised curriculum.

**MASTER OF ENGLISH AND APPLIED LINGUISTICS
(Old Curriculum - Phasing out 2025)**

09MEAL

NQF Level: 9

NQF Credits: 240

NQF Qualification ID: Q0979

Description

The Master of English and Applied Linguistics (MEAL) is a distinct postgraduate degree programme developed to consolidate and deepen the knowledge and expertise in English and Applied Linguistics discipline specifically to deliver the language and, competence needed for the 21st century digital societies.

The programme focuses on digital literacies, popular literature and the application of literary and linguistic knowledge to solve real world problems. Graduates of this qualification will be well-grounded in language, literary and communication skills through the use of appropriate technology and skills. This will enable them to critically and creatively engage in a knowledge society that is marked by digital literacies and competencies. The curriculum is structured to facilitate specialisation in the areas of Literature and Applied Linguistics with a particular focus on multi-media and digital forms.

The qualification will consist of compulsory and elective courses and will be based on a combination of coursework and a thesis.

Criteria for Admission

Applicants for the Master of English and Applied Linguistics may be considered for admission if they have a Bachelor of English Honours from NUST, or an equivalent qualification at NF Level 8 from a recognised institution worth at least 120 credits.

Articulation Arrangements

Transfer of credits will be dealt with according to NUST regulations on Recognition of Prior Learning. These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit that can be granted is 50% of the credits for a qualification.

Graduates of this programme will ordinarily be able to pursue further studies in English or Applied Linguistics or a related cognate area of learning, at NQF level 10.

Mode of Delivery

This programme will be offered on the full-time/part-time modes of study in accordance with the Universities' rules. Lectures will be offered as "Block release" during non-working hours and on NUST e-Learning platform.

Requirements for Qualification Award

This qualification will be awarded to candidates credited with a minimum of 240 credits (all at NQF Level 9), and who have met the detailed qualification requirements as set out below. Students are able to specialise in Applied Linguistics or Literature and are required to complete core compulsory courses, including a thesis. Core courses and the thesis will be worth 180 credits and strand compulsory courses will be worth 60 credits. In addition, candidates must meet the administrative and financial requirements as spelt out in the NUST Prospectus.

Assessment Strategies

Students will be assessed through diversified continuous assessment. These assessments will focus on the achievement of qualification outcomes and take the form of individual/group assignments and presentations, case studies, tutorials and tests. In addition, students will be required to submit a thesis which will be examined externally and defended as a final validation process. Tests will be administered in controlled environments similar to the institutional requirements for conducting examinations. The course will be administered on the Part-Time modes of study and lectures will be offered as "block release" during non-working hours and on NUST e-Learning platform. The course will be assessed using diversified Continuous Assessment (CASS). All students have to obtain a minimum Final Mark of 50% to pass the course.

The thesis will be assessed in accordance with Namibia University of Science and Technology rules for studies at postgraduate level, including an oral defense of the thesis as applicable.

Quality Assurance Requirements

All courses for this programme will be externally moderated. Each course (please refer to the Detailed Qualification Requirements) will have one (or more) assessor and one moderator. Moderators will be identified externally. The required minimum qualification of the moderator should be a PhD in a related field of studies or the person must be well respected in the field. Lecturing staff will set and mark the assessments which will together with relevant study material of that particular course and other material containing course learning outcomes in the context of the qualification learning outcomes, forwarded to the moderator for moderation purpose, therefore ensuring quality of the assessment and the qualification as a whole. All courses for this programme will be externally moderated. The thesis will be moderated in accordance with NUST's rules on postgraduate studies.

Transition Arrangements

This is a new programme which does not replace any existing programme(s). Transition arrangements are therefore not applicable.

DEPARTMENT OF SOCIAL SCIENCES

CODE: 63

QUALIFICATIONS OFFERED

Bachelor of Criminal Justice Honours (Phased in 2021)

08HCRJ

**BACHELOR OF CRIMINAL JUSTICE HONOURS
(Revised Programme)**

08HCRJ

NQF Level: 8

NQF Credits: 120

NQF Qualification ID: Q2255

Description

The Bachelor of Criminal Justice Honours is a specialisation degree, designed to consolidate and deepen the knowledge and skills of students in the main cognate area of learning, with an emphasis on relevance in the Criminal Justice System in the local and regional context. Honing already existing analytical skills shall enable students to contribute to the optimization of effectiveness and efficiency of criminal justice agencies with high-order skills in research management or organisation change, reasoning and analysis and communication.

The research component shall develop students' capacity to conduct supervised research of an applied nature. The Bachelor of Criminal Justice Honours will enable students to reflect on emerging questions about the root causes of crime in various contexts, the lack of evidence-based information regarding the prevalence of crime in developing countries, e.g. Namibia so addressing the current dearth in research capacity in the criminal justice sector.

Criteria for Admission

Applicants will be considered for admission to the Bachelor of Criminal Justice Honours if they have a Bachelor of Criminal Justice in Policing or Correctional Management from NUST or equivalent qualification at NQF Level 7 from a recognised institution worth at least 360 credits all qualifying candidates will participate in such specific selection processes as may be determined by the Department.

Applicants with a related Bachelor's degree of at least a duration of three years in Criminology, Sociology, Social Work, Law and Psychology may be admitted at the discretion of the Department.

Articulation Arrangements

Transfer of credits will be dealt with in accordance with the University's regulations on Recognition of Prior Learning. These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit that can be granted is 50% of the credits for a qualification.

Graduates of the Bachelor of Criminal Justice Honours will ordinarily be able to pursue further studies in Criminal Justice, or a similar/related cognate area of learning, at NQF Level 9.

Mode of Delivery

The programme will be offered on part-time and full-time mode through block release in accordance with NUST's rules and regulations.

Requirements for Qualification Award

The Bachelor of Criminal Justice Honours will be awarded to candidates credited with a minimum of 120 NQF credits and who have met the detailed programme requirements as set out below. In addition, students should meet the administrative and financial requirements spelt out in the NUST general rules and regulations.

Transition Arrangements

The Bachelor of Criminal Justice Honours (Old curriculum) offered on part-time mode will be phased out systematically until end of the academic year 2022 with minimal disruption to existing student's learning progression. This is to give students an opportunity to complete courses from the old curriculum that do not have corresponding courses in the revised curriculum. The last intake of students for the out-phasing programme (old curriculum) was in January 2020.

Students registered in 2020 or before the out-phasing programme (old curriculum) who did not register or who failed more than 50% of the courses at the end of the academic year 2020, will be required to change their registration to the revised programme but will be granted credits on a course-by-course basis in accordance with the Table below.

The Bachelor of Criminal Justice Honours (revised curriculum) will take effect from January 2021 and will be completely phased-in the same year. All courses (with the exception of courses without corresponding courses in the revised curriculum, such as Sociology of Crime and Criminology 1 (SCC811S) and Sociology of Crime and Criminology 2 (SCC812S) will be offered based on the revised syllabi of corresponding courses in 2021 as detailed in the Table below.

Courses to be credited

Postgraduate Diploma in Higher Education (Revised Curriculum – Phasing in 2024)

08PDHE

Postgraduate Certificate in Higher Education (Old Curriculum – Phasing out 2025)

08PCHE

**POSTGRADUATE DIPLOMA IN HIGHER EDUCATION
(Revised Curriculum – Phasing in 2024)**

08PDHE

NQF Credits: 120

Description

The Postgraduate Diploma in Higher Education (PGDHE) aims to provide the pedagogical skills for professionals in Higher Education (HE) to reflect upon the key underlying educational philosophies, pedagogy and experiences to enhance their academic practice. It will provide students lecturers in the programme with opportunities to enhance their teaching skills and understanding of the issues affecting student learning in HE.

The programme provides a practical and theoretical foundation in learning and teaching in HE and helps to create a scholarly, reflective, evidence-based approach to improve professional practice. Graduates will be reflective practitioners and educational change agents with strong analytic, pedagogical skills, technological, critical, problem-solving and creative thinking skills to assist their students in becoming global citizens of the 21st Century prepared for the forth industrial Revolution (4IR) and the job market.

The programme aims to enhance students/lecturers' teaching, assessment, curriculum development skills, as well as technology integration in HE. The graduates will be able to deliver inclusive, equitable, transformative quality education and promote opportunities for lifelong learning for their students through the application of emerging digital technologies and student-centred learning approaches that encourage deep learning.

Criteria for Admission

Applicants to this programme must hold at least a bachelor's degree or its equivalent at NQF Level 7 from a recognised institution worth at least 360 NQF credits.

Applicants holding the Postgraduate Certificate in Higher Education from NUST may be admitted to the programme and will be given credits for the courses they have passed. In accordance with credit recognition and transfer requirements, these students will be required to enrol in the following three courses to earn the necessary credits for the Diploma: Action Research A: Theory (20 credits), Assessment and Evaluation (20 credits), and Action Research B: Project (20 credits).

Candidates applying to the programme are encouraged to be currently teaching in Higher Education (face-to-face or online) for the duration of the programme. Actual teaching is important because participants need access to students and teaching colleagues to complete the programme's activities and assessments. These include, but are not limited to, multiple teaching observations; weekly written reflections on teaching and learning; students' written experiences with innovative approaches introduced by the participants; evidence of providing high-quality feedback on student assignments; and the entire classroom-based action research project spanning two courses.

Candidates who are not currently teaching in Higher Education may apply to the programme provided they have secured their own Mentor (an experienced lecturer in Higher Education) who will provide direct support and mentorship to them throughout the duration of the programme (1-3 years). Mentors must guide and allow Mentees to teach their classes (face-to-face or online), set and mark assessments, research challenges in their classroom and implement solutions. As part of the programme's formative assessment, Mentees must also submit weekly reflections on their teaching.

Articulation Arrangements

The transfer of credits will be dealt with according to the NUST's regulations on Recognition of Prior Learning. These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions.

The maximum credit that can be granted is 50% of the credits for a qualification. The Postgraduate Diploma in Higher Education can articulate to further studies in the same, or a related cognate area, at NQF Level 9.

Mode of Delivery

The programme will be offered on a full-time mode and part-time mode of study through online delivery options and methodologies in accordance with NUST rules and regulations. Students have one year up to three years to complete the programme.

Transition Arrangements

This programme replaces the Postgraduate Certificate in Higher Education currently registered on the NQF level 8. The last intake for the out-phasing programme was in January 2022. The revised curriculum will be phased-in starting January 2024 with minimal disruption to existing students' learning progression. Courses will only be offered based on the revised curriculum as of 2024.

The Postgraduate Certificate in Higher Education (old curriculum) will be completely phased out the end of June 2025, after which students must automatically switch to the revised curriculum, and fulfil all requirements based on the new curriculum.

Students who are registered in the old curriculum in or prior to 2023, may be required to complete their studies based on the requirements of the old curriculum (PGCHE). However, students in this category, should they wish to transition to the revised curriculum, and will be required to meet the requirements of the revised curriculum by registering for three additional courses, namely Action Research A: Theory, Action Research B: Project and Assessment and Evaluation.

Corresponding Courses (if Failed).

Course Code	Postgraduate Certificate in Higher Education (Approved Courses)	Course Code	Postgraduate Certificate in Higher Education (Corresponding New/Revised Courses)
TAL811S	Teaching, Learning and Assessment	TAL811S	Teaching and Learning
CCD811S	Curriculum Design and Development	CCD811S	Curriculum Design and Development
TIT811S	Technology Integration in Teaching and Learning	TIT811S	Technology Integration in Teaching and Learning
	None	ARA811S	Action Research A: Theory
	None	AAE812S	Assessment and Evaluation
	None	ARB812S	Action Research B: Project

Requirements for Qualification Award

The Postgraduate Diploma in Higher Education will be awarded to candidates credited with a minimum of 120 NQF credits at NQF Level 8.

**POSTGRADUATE CERTIFICATE IN HIGHER EDUCATION
(Old Curriculum – Phasing out 2025)**

08PCHE

NQF Level: 8

NQF Credits: 60

NQF Qualification ID: Q0980

Description

The Postgraduate Certificate in Higher Education (PGCHE) programme is primarily designed to provide students with deeper insight, intellectual and cognitive skills related to their professional teaching, learning, assessment and technology support in higher education. The programme is developed to respond to professional needs of faculty in teaching for those new to teaching and those who have years of experience but wish to develop, grow and advance in pedagogical skills. Further, the programme provides a practical and theoretical grounding in learning and teaching in higher education and encourages students to develop a scholarly, reflective enquiry base to inform the teaching and development.

Admission Requirements

Applicants to this programme must hold at least a Bachelor’s degree or equivalent at NQF Level 7. They must be proficient in both oral and written formal English. Students must be computer literate and have reliable access to the Internet to ensure access to the Institution’s Learning Management System (LMS) and to support the teaching and learning experience.

Articulation Arrangements

The transfer of credits will be dealt with according to the NUST’s regulations on Recognition of Prior Learning. These provide for course-by-course credits as well as credit transfer by volume under certain academic conditions. Maximum credit that can be granted is 50% of the credits for a qualification.

On completion, graduates of the Postgraduate Certificate in Higher Education (PGCHE) may be given credits (course-by-course) towards entry into an Honours degree in similar or related cognate areas.

Mode of Delivery

This programme will be offered on a part-time basis in accordance with Namibia University of Science and Technology Rules and Regulations.

Requirements for Qualification Award

This qualification will be awarded to candidates credited with a minimum of 60 NQF credits at NQF level 8, and who have met the detailed qualification requirements as outlined below. In addition, students must meet the administrative and financial requirements as spelt out in the Postgraduate Prospectus of the University.

Transition Arrangements

This is a new programme that does not replace any existing programme(s); hence transition arrangements are not applicable.
